Whether postmasters receive a bonus on account of the high cost of living. 4. If not, why. 5. Minimum and maximum salary being paid to rural mail carriers. 6. Whether the Government has fixed a maximum rate per mile to apply to rural mail routes. 7. How the salary of rural mail carriers is determined. 8. Whether rural mail carriers receive a bonus on account of the high cost of living. 9. If not, why. 10. Minimum and maximum salary being paid to letter carriers. 11. Whether letter carriers receive a bonus. 12. If so, how much. Presented April 21, 1920. Mr. Kennedy (Glengarry.)
Not printed.

133. Return showing:—1. Number of persons employed in the province of Quebec in connection with the work of the Soldiers' Settlement Board. 2. Their names and post office addresses. 3. Salary or remuneration each one is drawing. 4. Whether any of these employees are allotted to certain constituencies. 5. If so, what persons are allotted to the various constituencies, and to what constituencies. Presented April 26, 1920. Mr. Tobin.
Not printed.

134. Return to an Order of the House of the 31st March, 1920, for a copy of all letters, telegrams and other correspondence that has passed between one George Carvill, of the City of St. John, formerly City Ticket Agent for the Canadian Government Railway (formerly Intercolonial Railway) at the said City of St. John, and any and all others for and on behalf of the said George Carvill and the Minister of Railways and Canals, Deputy Minister or any other Ministers of the Government or any general manager, assistant manager, superintendent or other officials of the Canadian Government Railway in reference to the dismissal of the said George Carvill from said railway on the 30th day of April, A.D. 1917, and the request of the said George Carvill for an investigation under oath before an independent tribunal into the causes for his dismissal and the refusal of the management of the said railway to grant such an investigation. Presented April 27, 1920. Mr. Copp ..... *Not printed.*

135. Return to an Order of the House of the 22nd March, 1920, for a copy of all documents, letters, telegrams and other correspondence in the hands of the Government concerning the proposed railway between St. Camille, County of Bellechasse, and Cabano, County of Temiscouata. Presented April 27, 1920. Mr. Fafard ..... *Not printed.*

136. Return to an Order of the House of the 22nd March, 1920, for a copy of the Report made by the Board of Railway Commissioners for Canada, on the application of the Canadian Pacific and Grand Trunk Railway Companies, on behalf of themselves and other railways carrying His Majesty's mail in Canada, asking that fair and reasonable rates be fixed by the Board for the carriage of mails pursuant to the reference of the matter to the Board by Order in Council, P.C., 617, dated March 7, 1917, for the determination as to the accuracy or inaccuracy of the claim made by the railway companies, that these rates are inadequate, and, if it is found that the present rates are inadequate to determine as the result of evidence to be submitted by the Post Office Department and the railway companies interested what would be a fair rate of payment for the service. Also a copy of all correspondence between members of the Government or any officials thereof and the Board of Railway Commissioners or any officials thereof in reference to the report mentioned above. Presented April 27, 1920. Mr. Bureau.
Not printed.

136*a*. Return to an Order of the Senate dated April 28, 1920, for a Return of the evidence and other proceedings submitted before the Dominion Railway Commission at the sessions at Ottawa on October 3, 1911, November 7, 1911, and March 18, 1919, relating to freight rates and all matters before said Board on said rates. 2. A copy of the report made by said Board to the Government as the result of said investigations. 3. A copy of the postal rate agreement or agreements existing between the Government and the railway companies for parcel post service, including a statement or copy of the rates charged by the Government railways. 4. A copy of the report made by the Dominion Railway Board to the Government on the contracts between the Government and the railway companies as to the rates charged for the postal services. 5. Does the said report show (or is the Government aware) that the rates fixed and paid are less than it cost the railway companies to perform the services. 6. What quantity of mail is carried annually by parcel post. 7. How much of it is carried for mail order houses—distinguishing quantities by provinces. 8. What are the postal rates charged for parcel post packages: (*a*) to the public (*b*) to mail order houses. 9. Do these rates pay the full cost of transportation. If not, what is the loss. 10. If there is a loss how is it provided for? 11. Does the Government intend to make a change in the parcel post rates. If so, what. The Senate..... *Not printed.*

137. Return to an Order of the House of the 12th April, 1920, for a Return showing at the end of the fiscal year 1910, and each subsequent year, the total assets of Canada, the amount received in each year as interest or other income from such assets, and the average rate of interest or other income so received in each year. Presented April 28, 1920. Mr. Fielding ..... *Not printed.*

CONTENTS OF VOLUME 10—*Continued.*

138. Return to an Order of the House of the 10th March, 1920, for a Return showing:—1. The total amount of commission charges paid to brokers and agents in connection with the last Victory Loan. 2. What amounts have been paid to each of the said brokers and agents. 3. Whether any of the said commission charges have not yet been paid. 4. If so, whose accounts they are, and for what reason they have not been paid. Presented April 28, 1920. Mr. Archambault.....*Not printed.*

139. Return showing:—1. Names of the so-called experts employed by the Arthur Young Company to classify the employees of the various departments, and which department or departments did each such expert classify. 2. The ages, nationality educational, and practical qualification, including positions previously held, with special reference to classification work, of each such expert. 3. (*a*) Cost to the Government for the services of each such expert; (*b*) what is the cost to the Arthur Young Company of the services of each expert. Have they been paid in Canadian or American money. 4. How many Deputy Ministers have approved the classification of their departments. 5. Whether the Arthur Young Company pay an income or business tax in Canada. 6. In case of difference of opinion respecting classification between the so-called experts and the Civil Service Commission whose opinion prevails. Presented April 28, 1920. M. Gauvreau.....*Not printed.*

140. Return to an Order of the House of the 14th April, 1920, for a copy of all reports, letters, petitions or documents referring to claims for damages on behalf of innocent victims who, during the so-called Quebec riots of 1918, have either been killed or wounded by the soldiers of His Majesty. Presented April 29, 1920. Mr. Parent. *Not printed.*

141. Return to an Order of the Senate dated April 18, 1918, for a Return showing:—The amount paid in each year since 1900 inclusive, for (*a*) reporting, (*b*) translating, (*c*) typewriting, and (*d*) printing proceedings before Commission of Inquiry and all other investigations for or on behalf of the Government or any Department thereof, in English and in French respectively, the names of the persons under (*a*), (*b*) and (*c*) to whom such payments were made, the amount paid to each as salary or other compensation, and the amount paid on account of each such person for travelling and living expenses. The Senate.....*Not printed.*

142. Return to an Order of the Senate, dated April 16, 1918, for a Return referring to Return of the Senate (No. 7, August 23, 1917, *re* officers 78th Regiment, Highlanders of Pictou County, Nova Scotia):—1. (*a*) Giving the names of the officers mentioned in the said Return who served with the overseas forces at the fighting front since said Return was compiled. (*b*) The unit and date each one so served. (*c*) The number who became casualties, and when. 2. The location, connection and rank of each of the officers mentioned in said Return in the overseas forces at the present time. The Senate.....*Not printed.*

142*a*. Supplementary Return to an Order of the Senate dated April 16, 1918, for a Return referring to Return of the Senate (No. 7, August 23, 1917, *re* officers 78th Regiment, Highlanders of Pictou County, Nova Scotia)—1. (*a*) Giving the names of the officers mentioned in the said Return who served with the overseas forces at the fighting front since said Return was compiled. (*b*) The unit and date each one so served. (*c*) The number who became casualties, and when. 2. The location, connection and rank of each of the officers mentioned in said Return in the overseas forces at the present time. The Senate.....*Not printed.*

143. Copy Declaration by the Supreme Council of the Peace Conference on the Economic Conditions of the World. The Senate.....*Not printed.*

144. Return showing:—1. Whether the Government pays the expenses of an office in Toronto for A. V. White, consulting engineer of the Conservation Commission. 2. If so, what expenses for said office it paid in the fiscal year 1919-20, including rent, salaries of assistants, travelling expenses, etc. 3. What relation, if any, the said A. V White is to James White, Deputy Head of the Conservation Commission. 4. If any other relatives of its Deputy Head were employed by the Conservation Commission in the past fiscal year, their names, what positions they fill and what salaries were paid them. 5 Whether it is the practice of the Government to maintain offices for all its consulting engineers. 6. Whether it is the intention of the Government to continue to defray the expenses of the Toronto office of the said A. V. White. 7. If the said A. V. White was employed by the Department of Public Works, what was the last year he was so employed and what remuneration he was paid. 8. At what annual salary rate he is being paid by the Conservation Commission for 1920-21. 9. What reports, if any, by A. V. White, other than reports on water-powers and hydro-electric conditions, the Conservation Commission has published. 10. Whether A. V. White holds the degree of Electrical Engineer from a recognized university. 11. Name of the Hydro-Electric Engineer of the Conservation Commission. 12. What degrees he holds and what practical experience he has had. 13. What annual salary he is paid. Presented May 3, 1920. Mr. Casgrain. *Not printed.*

145. Return showing:—1. How many farms in each constituency in the province of Quebec were purchased by returned soldiers under the provisions of the Soldiers' Settlement Act. 2. The names of the buyers and sellers of each of the said farms. 3. The price paid for each of these farms. 4. Who visited each of the said farms on behalf of the Government. 5. What assistance was given by the Government in connection with each purchase. Presented May 3, 1920. Mr. Tobin.....*Not printed.*

146. Return to an Order of the House of the 19th April, 1920, for a Return showing:—1. Whether there was any printing done for the Government outside of the Printing Bureau during the years 1918/1919. 2. If so, by whom. 3. Addresses of persons or firms to whom such printing was given. 4. Amount paid for this outside printing, in each case, in 1918-19. Presented May 4, 1920. Mr. Dechesne.....*Not printed.*

147. Return to an Order of the House of the 19th April, 1920, for a Return showing:—1. Amounts loaned or credits given by the Government of Canada: (*a*) to Greece; (*b*) to Rumania. 2. The dates these loans were granted or credits given: (*a*) to Greece; (*b*) to Rumania. 3. The nature of merchandises purchased by the Government of Canada and charged in each case: (*a*) to Greece (*b*) to Rumania. 4. The names of commercial firms or persons from whom said goods were so purchased, specifying: (*a*) the nature of goods in each case (*b*) the amounts paid by the Government to these firms or persons in each case and also the date of these payments. Presented May 5, 1920. Mr. Archambault.....*Not printed.*

148. Return to an Order of the House of the 10th March, 1920, for a copy of all telegrams, petitions, letters and documents of all kinds sent to the Post Office Department referring in any way to the mail route and mail service between Mabou, N.S., and Whycocomagh, N.S. Presented May 5, 1920. Mr. Chisholm.....*Not printed.*

CONTENTS OF VOLUME 10—*Continued.*

149. Return to an Order of the House of the 31st March, 1920, for a copy of all correspondence, reports and other documents in any way referring to a proposed change in the site of Beatonville Post Office, Inverness County, N.S. Presented May 5, 1920. Mr. Chisholm.....*Not printed.*

150. Return showing:—1. How many persons are employed on the staff of the Civil Service Commission. 2. Their names. 3. The respective salaries of said persons. Presented May 6, 1920. Mr. Hocken.....*Not printed.*

151. Return to an Order of the House of the 26th April, 1920, for a return showing the total quantity in gallons, of spirituous liquors imported into Canada during the years 1913, 1914, 1915, 1916, 1917, 1918 and 1919; and also showing the value in money of the said imports during the same years. Presented May 10, 1920. Mr. Archambault. *Not printed.*

152. Return to an Order of the House of the 3rd May, 1920, for a copy of all correspondence and reports concerning the dismissal of Mr. Elisée Parent, inspector of Inland Revenue, the 6th of September, 1916 (file No. 111085). Presented March 10, 1920. Mr. Rinfret.....*Not printed.*

152a. Supplementary Return to an Order of the House of the 3rd May, 1920, for a copy of all correspondence and reports concerning the dismissal of Mr. Elisée Parent, inspector of Inland Revenue, the 6th of September, 1916 (file No. 111085). Presented May 17, 1920. Mr. Rinfret.....*Not printed.*

153. Return to an Order of the House of the 10th March, 1920, for a copy of all correspondence between the Dominion Government or any member thereof and the Dominion Manufacturers' Association or any manufacturer, relating to appeals from the Supreme or other courts in regard to validity of certain Dominion or Provincial Acts and Provincial Licenses whereby the Dominion Government undertook to give financial aid to said manufacturers for said appeals, as shown in the *Financial Times*, Montreal, of the 21st February, 1920. Presented May 10, 1920. Mr. Devlin.....*Not printed.*

154. Return to an Order of the House of the 19th April, 1920, for a Return showing:—1. Number of translators employed by the Senate, House of Commons and the different departments of the Government, and number employed by each department. 2. Number employed permanently. 3. Number engaged for the session only. 4. Total annual cost of the translation service. 5. Whether any translation was done outside of Ottawa during the fiscal year ending 31st March, 1919. 6. If so, in how many instances, and what rate was paid per page of printed matter. Presented May 10, 1920. Mr. Hocken.....*Not printed.*

155. Return to an Order of the House of the 5th May, 1920, for a copy of a letter from the Board of Trade of the City of Quebec to the Minister of Trade and Commerce, dated October 24, 1919, concerning the new policy adopted by the Ocean Mail Steamers of not stopping at Quebec in their outward voyage, and a copy of the answer to said letter. Presented May 10, 1920. Mr. Lapointe.....*Not printed.*

156. Return to an Order of the House of the 29th April, 1920, for a Return showing:—1. Name of each official and clerk in the Fisheries Branch at Ottawa who will be in receipt of a salary of $1,800 or over during the fiscal year 1920-21 2. Salary of each such official and clerk during the fiscal years 1916-17, 1917-18, 1918-19 and 1919-20. 3. Minimum and maximum salary of each such official and clerk as at present fixed by the classifying experts of the Civil Service Commission. 4. What the salary of each such official and clerk will be during the fiscal year 1920-21. 5. What practical experience or direct connection, if any, each such official and clerk has had in or with the fishing industry; the nature of such experience or connection and the number of years it covers. 6. What position each such official and clerk, who has had no practical experience in or direct connection with the fishing industry, filled or what duties he performed on first becoming attached to the Fisheries Branch. 7. Present duties and responsibilities of each such official or clerk. Presented May 10, 1920. Mr. Duff.....*Not printed.*

157. Return to an Order of the House of the 3rd May, 1920, for a copy of all correspondence, telegrams, and other documents exchanged between Dr. L. W. McNutt, Vancouver, B.C., and the Department of Soldiers' Civil Re-establishment, Sir Robert Borden and the Director of Medical Services of the Soldiers' Civil Re-establishment, with reference to claim for $2,590.72 by the said Dr. McNutt against the above mentioned department, and also with reference to the resignation or dismissal of the said Dr. McNutt from the department in question. Presented May 11, 1920. Mr. Power.....*Not printed.*

158. Return to an Order of the House of the 17th March, 1920, for a Return showing:—1. Number of employees in the inside service of the Labour Department. 2. How many are males. 3. How many are females. 4. How many males are French. 5. How many females are French. 6. How males are Protestants. 7. How many females are Protestants. Presented May 11, 1920. Mr. Hocken.....*Not printed.*

158a. Return to an Order of the House of the 17th March, 1920, for a Return showing:—1. Number of employees in the inside service of the Post Office Department. 2. How many are males. 3. How many are females. 4. How many males are French. 5. How many females are French. 6. How many males are Protestants. 7. How many females are Protestants. Presented May 11, 1920. Mr. Hocken.....*Not printed.*

158b. Return to an Order of the House of the 17th March, 1920, for a Return showing:—1. Number of employees in the inside service of the Secretary of State Department, including the Printing Bureau. 2. How many are males. 3. How many are females. 4. How many males are French. 5. How many females are French. 6. How many males are Protestants. 7. How many females are Protestants. Presented May 11, 1920. Mr. Hocken. *Not printed.*

What institutions are at present under the jurisdiction and management of the Department of Soldiers' Civil Re-establishment. 2. Number of patients in each institution. 3. Number of employees in each institution. 4. Cost per year of each institution. Presented May 12, 1920. Mr. Pardee.....*Not printed.*

160. Fifth Annual Report of the Board of Directors of the Canadian Northern Railway System, for the year ended December 31, 1919. Presented by Hon. Mr. Reid, May 12, 1920.....*Printed for sessional papers only.*

161. First Annual Report of the Board of Directors of Canadian Government Merchant Marine, Limited. Presented by Hon. Mr. Reid, May 12, 1920.....*Printed for sessional papers only.*

162. Return to an Order of the House of the 12th May, 1920, for a Return showing:—1. Sales of military and other supplies made by the War Purchasing Commission in each of the years 1917, 1918 and 1919, and amount of money obtained for these supplies in each of the above years. 2. Whether these supplies were sold by tender, by advertisement, or at public auction. 3. How military supplies, including rugs, furniture, etc., at Camp Borden were sold, who the purchasers were and what prices were received for the various articles. Presented May 14, 1920. Mr. Ross
Not printed.

163. Return to an Order of the House of the 19th April, 1920, for a copy of all papers, letters, correspondence between the Department of Justice or any of its officers and the Civil Service Commission or any of its members with reference to the promotion of the Secretary to the Deputy Minister of Justice in 1919 and 1920. Presented May 14, 1920. Mr. Cahill.....*Not printed.*

164. Return to an Order of the House of the 24th March, 1920, for a copy of all correspondence and telegrams between the Dominion Government and the Alberta Government relating to irrigation development in Alberta, and more particularly to Lethbridge Northern Irrigation District. Presented May 17, 1920. Mr. Buchanan...*Not printed.*

165. Return to an Order of the House of the 5th May, 1920, for a Return showing the names of all persons who have passed the Civil Service examinations from the province of Prince Edward Island in 1917, 1918 and 1919, showing: (*a*) the grade for which they passed; (*b*) the number of marks made by each; (*c*) those who are returned soldiers; (*d*) those who have received an appointment, with the name of their position. Presented May 17, 1920. Mr. Sinclair (P.E.I.).....*Not printed.*

166. Return to an Order of the House of the 12th April, 1920, for a Return showing:—1. Number of Civil Service Investigating Commissions appointed since the 1st of January, A.D. 1895. 2. On what respective dates said Commissions were appointed, what number of Commissioners comprised each Board, their names and their home addresses. 3. How long each Board was engaged on such inquiry and how much was paid to each. 4. Whether there is any Board or any Member of a past or present Board now engaged in connection with the Civil Service inquiry or classification of the Civil Service, other than the regular Civil Service Commission of which Honourable Doctor Roche is the Chairman. 5. What amount or amounts were paid by the Government to the Civil Service Classification Commissioners during the time from 1st January, 1916, to and including the 15th of March, A.D. 1920, what amounts were paid to each of the said Classification Commissioners and on what dates. Presented May 17, 1920. Mr. McKenzie.....*Not printed.*

167. Return to an Order of the House of the 17th May, 1920, for a Return showing:—1. Number of married women whose husbands did not serve in the Canadian Expeditionary Force who are in the pay of various Government departments at Ottawa. 2. Whether it is a fact that the Department of Immigration has in its employ a lady at a salary of $300 per month. 3. Whether this lady is the wife or mother of a returned soldier, and whether any effort was made at the time of her employment to secure the services of a war widow or dependent. 4. Whether this lady's husband is in the employ of the Government or of one of the provincial governments. 5. Whether it is a fact that the daughters of several departmental heads are employed by their fathers in Government service and that in such cases these young ladies hold positions which could be well filled with men who have been trained by the Department of Soldiers' Civil Re-establishment for the Civil Service but are unable to secure appointments. Presented May 19, 1920. Mr. Andrews.....*Not printed.*

168. Copy of Order in Council, P.C. 1595, dated 31st July, 1919: Appointment of Victory Loan Special Committee in connection with the stabilizing of the Victory Loan of 1917. Presented by Sir George Foster, May 20, 1920.
Not printed.

169. Reports submitted by the Officer in charge of the Canadian War Records Office, London, England, to the Right Honourable Sir Robert L. Borden, G.C.M.G., M.P., Prime Minister of Canada; and to the Honourable Sir Edward Kemp, K.C.M.G., M.P., Minister, Overseas Military Forces of Canada, 1916-1919, with which is included a Report of the Executive Committee of the Canadian War Memorials Fund. The Senate ..... *Not printed*

CONTENTS OF VOLUME 10—*Continued.*

178. Return of an Order of the House of the 10th May, 1920, for a Return showing:—1. Whether inspectors in charge of terminal elevators, under the Board of Grain Commissioners, have full authority to inspect grain, as provided for in the Canada Grain Act. 2. If not, why not. 3. If so, whether the inspectors issue the requisite inspection certificates, with their signatures attached thereto, as evidence of such inspection. 4. Whether the Chief Inspector or his immediate assistant, in charge of terminal elevators, has authority to change such inspection, without consent of the inspector directly in charge of a terminal elevator. 5. If so, whether this practice is provided for in the Canada Grain Act. 6. Whether inspection certificates, either inwards or outwards, are signed in blank by an officer under the Board of Grain Commissioners, and then filled in afterwards by a clerk. 7. Whether Western Inspection Certificates are signed in blank by the Chief Inspector or one of his officers, and then filled in by an officer in the Eastern Inspection District. 8. Whether the inward and outward inspection at terminal elevators is identically the same. 9. Whether the Canada Grain Act provides for the inspection of grain into terminal elevators, from steamers and barges. 10. If so, whether the inward or outward inspection governs. 11. How much grain the Government elevator, Port Arthur, has handled from September 1, 1919, to May 1, 1920. 12. How much grain the above elevator handled during the following crop years: 1913-14, 1914-15, 1915-16, 1916-17, 1917-18, 1918-19. 13. Cost per bushel in handling grain in the Government elevator, Port Arthur, for the above crop years, and for the period, September 1, 1919, to May 1, 1920. 14. Whether the above cost includes any provision for interest on investment and management. 15. Revenue per bushel for the above period: (*a*) including as revenue, money derived from the sale of overages, screenings and scalpings; (*b*) excluding as revenue, money derived from the sale of overages, screenings and scalpings. 16. Number of employees engaged in the above elevator during the above periods. 17. Name of the senior officer or manager who superintended the operations of the Government elevators under the Department of Trade and Commerce, for the above periods. 18. Whether all the Government elevators carry insurance on grain stored therein, in accordance with law. 19. If not, why the discrimination against the other commercially owned elevators, and on whose authority the law is broken. 20. Section 15, subsection 7, of the Canada Grain Act provides for the confiscation of overages over one-quarter of one per cent to the Government. Whether the Board of Grain Commissioners are keeping strict accounting of all grain going into and out of the terminal elevators, including screenings and scalpings, so as to arrive at the above figures. 21. Whether the Registration Department, under the Board of Grain Commissioners, has full information tabulated showing the gross weight in and gross weight out of terminal elevators. 22. Change made by the Board of Grain Commissioners in the wording of the outward weight certificates. 23. When the change was made. 24. Whether the weight certificate, as worded, was considered faulty up to the time of the change. 25. If not, why the change in the wording was made. 26. Whether the Canada Wheat Board has an officer at Fort William, whose duty it is to check the grades given by the inspection department under the Department of Trade and Commerce, on all grains shipped for and on account of the Canada Wheat Board. 27. If so, how many officers are engaged in this office, their names and salaries. 28. If so, what the necessity is of two Government officials doing the one task. 29. If so, whether the expenses incidental to this office, are deducted from the money which ought rightly be given to the farmers, for the participation certificates issued. 30. Whether the Canada Wheat Board accepts the inspection certificates as issued by the Department of Trade and Commerce, without reservation. 31. Whether the Canada Wheat Board always avails itself of the highest market for all wheat sold for and on account of the producers. 32. Since the Government has taken over the control of the wheat business, whether this has had a tendency to reduce the work of the Board of Grain Commissioners. 33. If so, whether the number of employees under the Board of Grain Commissioners have been reduced, for the purposes of economical administration. 34. Whether the administration of the Canada Grain Act is self sustaining. 35. If not, how the deficits are made up from year to year and on whose authority. 36. Salaries paid to the Secretary of the Board of Grain Commissioners and the Secretary of the Canada Wheat Board. 37. Whether the public terminal elevators at Fort William or Port Arthur purchase and sell grain from time to time, contrary to the Canada Grain Act. 38. If so, on whose authority. 39. Section 48 of the Canada Grain Act provided for the fixing of grades other than statutory grades, by the Grain Standards Board. Whether this Board has fixed the composition of grades of: (*a*) screenings, (*b*) scalpings. 40. If not, why not. 41. If not, who has fixed the composition and grades up to the present time, and on what authority. 42. If fixed, what they are. 43. Whether the original dockages taken from the grain are returned to the producer or the buyer of the warehouse receipt covering the specific parcel. 44. If not, why not. 45. How long the Government, through the Department of Agriculture, has handled standard stock food ex terminal elevators. 46. Whether the venture has been profitable. 47. Surplus or deficit for each year. 48. Price paid to the terminal elevators for the standard stock food basis f.o.b. Fort William. 49. Price received by the Government for the same food on the same basis. Presented May 27, 1920. Mr. Stevens.....*Printed for sessional papers only.*

179. Memorandum No. 6, respecting work of the Department of Militia and Defence—European War—from November 1, 1918, to October 31, 1919 Presented by Hon. Mr. Guthrie, May 28, 1920.....*Not printed.*

180. Return to an Order of the House of the 12th May, 1920, for a Return showing:—1. Whether the Government operations at the Dog Fish Reduction Works at Clark's Harbour, Nova Scotia, have been discontinued. 2. If so, what disposition has been made of the property. 3. Total Government disbursements including the original cost and loss in operation. 4. On whose report or recommendation the operation was abandoned. 5. Recommendation of the authority advising abandonment. 6. Whether J. B. Fielding, of the Honorary Advisory Council for Scientific and Industrial Research, authorized the report of the chairman on fish waste in Canada as intimated on page 53 of the report of the Administrative Chairman of the Honorary Advisory Council for Scientific and Industrial Research for the year ending March 31, 1919. 7. Whether Mr. Fielding reported with regard to the above-mentioned plant as follows: "At Clark's Harbour I inspected the Government Dog Fish Reduction plant, which though very badly cared for appeared to be in working order, and well worth, in my opinion, retaining for the purpose of the manufacture of fertilizer, though quite unsuitable for the manufacture of food." 8. Consideration given by the Government to Mr. Fielding's report. Presented May 28, 1920. Mr. McCurdy.
Not printed.

181. Return to an Order of the House of the 12th May, 1920, for a return showing the total amounts paid for advertisements or newspaper articles relating to voluntary enlistment before the Military Service Act of 1917 was in force: (*a*) to English newspapers in Canada and United States; (*b*) to French newspapers in Canada and United States; (*c*) to English newspapers in the province of Quebec; (*d*) to French newspapers in the province of Quebec. Presented May 28, 1920. Mr. Archambault.....*Not printed.*

182. Return to an Order of the House of the 15th March, 1920, for a Return showing:—How many of the 22,954 temporary appointments made by the Board of Civil Service Commissioners since the armistice are at present on the pay rolls of the various departments of the Government. Presented May 28, 1920. Mr. Sinclair (Antigonish.)
Not printed.

183. Return to an Order of the House of the 3rd May, 1920, for a Return showing:—1. How many generals belonging to the permanent force have had to give up their rank during the last six months. 2. How many generals have been promoted since the armistice, and the names of those who are still in the service. 3. How many officers have

CONTENTS OF VOLUME 10—*Continued.*

been promoted brigadier general since the armistice, their names, how they are employed, and whether it is the intention to retain them in that rank. 4. How many officers of the permanent force have been pensioned, their names and the amount of pension. Presented May 28, 1920. Mr. Bureau ..... *Not printed.*

184. Final report of the work of Canadian Munition Resources Commission, from November, 1915, to March, 1919, inclusive. Presented by Sir Robert Borden, May 31, 1920..... *Not printed.*

184*a*. Copy of Order in Council, P.C. 1192, dated the 29th May, 1920; Dissolving the Canadian Munitions Resources Commission. Presented by Sir Robert Borden, May 31, 1920 ..... *Not printed.*

185. Return to an Order of the House of the 26th April, 1920, for a copy of all correspondence between the Government or any member thereof and the Canadian Press, Limited, and the Canadian Associated Press, with regard to the establishment of an Imperial news service. Presented May 31, 1920. Mr. Robb ..... *Not printed.*

186. Return to an Order of the House of 3rd May, 1920, for a copy of all correspondence, telegrams, petitions or any other documents relative to the appointment of the Deputy Postmaster at Edmonton, Alberta. Presented May 31, 1920. Mr. Mackie (Edmonton.) ..... *Not printed.*

187. Return to an Order of the House of 31st March, 1920, for a copy of all correspondence, letters, telegrams, reports by detectives and others, and every document relating to the theft of Fifty Thousand dollars from the post office in the City of Edmonton, and to George Armstrong, Postmaster of the said post office, as well as to all employees in the said post office so far as all these may relate to the theft of Fifty Thousand dollars. Presented May 31, 1920. Mr. Mackie (Edmonton.)..... *Not printed.*

188. Return to an Order of the House of the 19th May, 1920, for a Return showing:—1. Names and respective salaries of the employees of the Parliamentary Library. 2. How many are graduates of any college in Arts or Library Science. 3. Whether it is the intention of the Government to make any more appointments to the said Library of persons who have not taken a library science course in some recognized college. Presented May 31, 1920. Mr. Wigmore ..... *Not printed.*

189. Return to an Order of the House of the 17th May, 1920, for a Return showing:—1. Whether the steamship *Metagama* sailed from Liverpool carrying soldiers and their families on or about the eighth day of February, A.D. 1919. 2. Complaints made to the Militia Department or any other department of the Government as to the condition of said steamer at time of sailing and during said voyage. 3. Complaints made to the Government or any department thereof as to the treatment accorded to said soldiers, their wives or families during said voyage. 4. Whether a delegation from the City of St. John appeared before a committee of the Cabinet on or about the 27th day of February, 1919, protesting against alleged ill treatment of said soldiers and their families during the said voyage. 5. If so, who comprised said delegation and what members of the Government acted on said Cabinet committee. 6. Whether the Government took any action as a result of said conference. If so, what action, and the result of same. 7. Whether said delegation filed affidavits or solemn declarations of passengers as to the condition of the steamer and treatment accorded said passengers during said voyage. 8. If so, whether the Government held an investigation concerning said complaints. 9. Result of such investigation. Presented June 2, 1920. Mr. Copp..... *Not printed.*

190. Return to an Order of the House of the 19th May, 1920, for a Return showing:—1. Total amount of sick mariners' dues collected from shipping entering Canadian ports for each of the years 1912, 1913, 1914, 1915, 1916, 1917, 1918 and 1919. 2. Amount expended by the Government in assistance to sick or distressed mariners during each of said years. 3. Number of officials of the Marine Department in Ottawa engaged exclusively on duties connected with collection, distribution and administration of sick mariners' dues. 4. Number of officials of Marine Department transferred to Health Department in connection with sick mariners' dues. Presented June 2, 1920. Mr. Stevens..... *Not printed.*

Total amount of drawback for the fiscal year ending March 31, 1920, paid to textile manufacturers on (*a*) raw cotton, and (*b*) cotton yarns. 2. Total amount of drawback for the fiscal year ending March, 1920, paid to textile manufacturers on (*a*) raw wool, and (*b*) wollen yarns. Presented June 21, 1920. Mr. Reid (Mackenzie) ..... *Not printed.*

216. Copy of Order in Council number 1238, passed on the 31st day of May, 1920, concerning a contract entered into with Griffenhagen and associates at a rate of $10,000 per month. Presented June 21, 1920. Mr. Lemieux. ..*Not printed.*

217. Statement showing number of Employees in the several Departments of the Public Service for the fiscal year ending March 31, 1921, designated in accordance with the new Classification Schedules. (Subject to possible amendment in some instances as the result of appeals pending but not yet finally disposed of.) Presented by Hon. Mr. Powell, June 23, 1920. ..... *Not printed.*

218. Return to an Order of the House of the 31st May, 1920, for a copy of all letters, telegrams and other documents relating to the closing of the life saving station at Richibucto Beach, in the county of Kent, N.B. Presented June 24, 1920. Mr. Leger. ..... *Not printed.*

219. Return to an Order of the House of the 15th April, 1920, for a Return showing:—1. When the work under the present scheme of development of Toronto Harbour was commenced. 2. Miles of docks included in this scheme and how much of this work has been completed. 3. Depth of water provided by this scheme. 4. Expenditure by the Dominion Government on this scheme for each year since the commencement of the work. 5. Number of ships and tonnage entered and cleared from this harbour each year since 1912. 6. Amount of water borne freight imported and exported to and from this harbour since 1912. 7. What reduction, if any, in freight rates on goods entering and leaving Toronto by rail has been secured by reason of the harbour improvements in question. 8. What the extent of land reclamation is in connection with this scheme. 9. Who the owner of this land is and what the policy of the Government is relative thereto. 10. Depth of the St. Lawrence canals and of the Welland canal. Presented June 24, 1920. Mr. Campbell ..... *Not printed.*

220. Return to an Order of the House of 12th May, 1920, for a copy of all letters, telegrams, correspondence, documents and other papers exchanged between the Dominion Government, or any official thereof, or the officials of the Canadian Government Railways and the Government of New Brunswick, or any official of the said Government, or any of the officials of the St. John and Quebec Railway Company with regard to the procuring of running rights for the trains of the St. John and Quebec Railway over the Canadian Pacific Railway between Westfield Beach and St. John. Also of all papers, documents and correspondence exchanged between the Dominion Government or any official thereof or any officials of the Canadian Government Railways and the Canadian Pacific Railway Company or any official thereof, regarding the securing of the said running rights. Presented June 20, 1920. Mr. Caldwell. ..... *Not printed.*

221. Return to an Order of the House of the 20th May, 1920, for a copy of all telegrams, letters and other documents relating to the closing of the Life Saving Station at Cheticamp, Inverness County, N.S. Presented June 26, 1920. Mr. Chisholm..... *Not printed.*

222. Report of the Administrative Chairman of the Honourary Advisory Council for Scientific and Industrial Research of Canada, for the year ending March 31, 1920. Presented by Sir George Foster, June 26, 1920... ..*Not printed.*

223. Ordinances of the Yukon Territory, passed by the Yukon Council in the year 1920. The Senate ..... *Not printed.*

224. Return to an Order of the House of the 23rd June, 1920, for a copy of letters, telegrams, petitions and documents of all kinds which passed between the Department of Public Works and any person during the years 1918, 1919, 1920, in any way referring to improvements made on Grand Etang Harbour, N.S. Presented June 30, 1920. Mr. Chisholm ..... *Not printed.*

225. Return to an Order of the House of the 28th April, 1920, for a Return showing:—1. Number of private, assistant private, joint and associate secretaries appointed to members of the Cabinet, Chairman or Members of Commission since 1911, and how much money has been paid to each of them respectively. 2. Number of private, assistant private, joint and associate secretaries each of the Members of the Cabinet actually have. 3. Their names and respective salaries. 4. Number of employees in the office of each member of the Cabinet, their names and respective salaries. Presented June 30, 1920. Mr. Dechene. ..... *Not printed.*

226. Return to an Order of the House of the 7th June, 1920, for a Return showing amounts paid to the following newspapers during the fiscal years 1919 and 1920 respectively for (*a*) advertising, (*b*) printing: *Montreal Gazette* and The Gazette Printing Company, *Montreal Daily Star*, *The Globe*, *The Mail and Empire*, Toronto, *The Telegram*, Toronto, *The Star*, Toronto, *The Journal* and *The Journal Press*, Ottawa, *The Citizen*, Ottawa. Presented June 30, 1920. Mr. Cowan ..... *Not printed.*

227. Return to an Order of the House of the 8th October, 1919, for a copy of all letters, telegrams, petitions, memorials or other papers or documents received by the Right Honourable the Prime Minister or any member of the Government during the year 1919 relating to the appointment of a Lieutenant-Governor for Prince Edward Island and the replies thereto. Presented June 30, 1920. Mr. Sinclair (Antigonish).

CONTENTS OF VOLUME 10—*Concluded.*

228. Return to an Order of the House of the 26th May, 1920, for a Return showing:—1. Who are or who were the men engaged by the Civil Service Commission to re-classify the Civil Service at Ottawa. 2. When they were employed and at what rate of wages. 3. Whether they are still in the service of the Civil Service Commission or are any of them in said service. 4. How much was paid to each of such assistants from date of engagement up to the end of April, 1920. 5 Total amount paid to the men so engaged from the date of the engagement to the end of April 1920. Presented June 30, 1920. Mr. McKenzie..... *Not printed.*

229. Return to an Order of the House of the 29th September, 1919, for a Return showing the cost of the Military Hospital at Saint Anne de Bellevue; the number of patients received and treated therein, to date; expenses to date for maintenance as to, (*a*) coal; (*b*) wood; (*c*) electricity; (*d*) food: (*e*) lingerie; (*f*) remedies; (*g*) social events and recreations; the cost of theatre installed in hospital; names of physicians, officers, nurses and privates of the general services, showing those who went to the front, and those who did not; their nationality and religion; salaries paid to each of the said persons; and the names and salaries of the chaplains attached to the hospital. Presented June 30, 1920. Mr. Archambault..... *Not printed.*

230. Return to an Order of the House of the 14th June, 1920, for a Return showing the names of the societies which have filed copies of policies complying with the provisions of the Insurance Act, 1910, Geo. V, Chap. 157, Section 115; the names of the societies which have neglected to file copies of policies as required by said Act, and to whom licenses have been issued for the current year; and names of any societies from whom licenses have been withheld. Presented June 30, 1920. Mr. Archambault..... *Not printed.*

231. Halifax Graving Dock, *re* expropriation of. The Senate..... *Not printed.*

FIFTY-SECOND ANNUAL REPORT

OF THE

DEPARTMENT OF MARINE AND FISHERIES

FOR THE

FISCAL YEAR 1918-19

MARINE

PRINTED BY ORDER OF PARLIAMENT

OTTAWA
J. de LABROQUERIE TACHÉ
PRINTER TO THE KING'S MOST EXCELLENT MAJESTY
1919

[No. 21—1920]

To His Excellency the Duke of Devonshire, K.G., P.C., G.C.M.G., G.C.V.O., etc., etc., Governor General and Commander in Chief of the Dominion of Canada.

May it Please Your Excellency:

I have the honour to submit herewith, for the information of Your Excellency and the Parliament of Canada, the Fifty-second Annual Report of the Department of Marine and Fisheries, Marine Branch.

I have the honour to be,

Your Excellency's most obedient servant,

C. C. BALLANTYNE,
Minister of Marine and Fisheries.

Department of Marine,
Ottawa, October, 1919.

REPORT

OF THE

Deputy Minister of Marine and Fisheries

To the Honourable C. C. Ballantyne,
Minister of Marine and Fisheries.

Sir,—I have the honour to submit herewith my report for the fiscal year ended March 31, 1919.

At the beginning of the last fiscal year the German submarine menace had reached its maximum, a toll of approximately 1,000,000 tons (deadweight) of allied and neutral shipping having been taken in the month of April alone; since then losses in ships due to war causes have steadily declined.

It was surmised in last year's report that the American output of ships during 1918 would in all probability be a powerful factor in the defeat of the submarine; this has now been clearly shown.

The American production of ships during 1918 has been remarkable, particularly when it is remembered that prior to her entry into the war America was not to any extent a shipbuilding nation, and had to establish yards before turning out ships; what has been achieved by her in this respect, as well as by the other allied nations, will be dealt with later on.

The submarine peril, though much lessened, was far from removed despite all contributions to new shipping.

Mr. Archibald Hurd, Naval Correspondent of the *Daily Telegraph*, gives the following figures illustrating this: during the months of April, May, and June, 1918, total shipping losses, allied and neutral, were 946,578 gross tons as compared with 2,236,934 gross tons for the same period in 1917. This average loss of approximately 1,000,000 tons to a quarter, and a trifle over 300,000 tons a month was grave enough, though the losses in the course of a year had been more than cut in half.

British losses due to enemy action and marine risk from April 1 to the end of July, 1918, were 1,312,315 gross tons; British vessels built and put afloat in the same period 763,246 tons, a decrease in British shipping during the first four months of the fiscal year 1918-19 of 549,069 gross tons.

ALLIED AND NEUTRAL MERCHANT SHIP LOSSES AND BUILDING.

From August, 1914, to the date of the signing of the armistice (November 11, 1918) the total yearly losses suffered by the allied and neutral nations are thus given by the New York *Journal of Commerce:*—

Year.	Gross tons.
1914 (five months)	681,363
1915	1,724,720
1916	2,797,866
1917	6,623,623
1918	3,096,418
Total	14,923,990

ALLIED AND NEUTRAL LOSSES FOR 1917 AND 1918.

Month.	1917.	1918.	
	Gross tons.	Gross tons.	Decrease.
January	409,832	357,508	52,324
February	574,856	387,949	186,907
March	634,685	401,463	233,222
April	893,877	318,581	575,296
May	630,336	364,990	265,346
June	712,721	279,799	432,922
July	575,949	324,774	251,175
August	549,363	328,172	221,191
September	369,161	239,600	129,561
October	487,337	93,582	393,755
November	333,443	.....	.....
December	452,063	.....	.....
Total	6,623,623	3,096,418	2,741,699

COMPARISON OF ALLIED AND NEUTRAL SHIP DELIVERIES AND LOSSES FOR 1918.

Month.	Allied and Neutral Losses.	Allied and Neutral Ship Deliveries.	Margin.
1918.	Gross Tons.	Gross Tons.	
January	357,508	156,764	− 200,744
February	387,949	243,273	− 144,676
March	401,463	368,997	− 32,466
April	318,581	291,188	− 27,393
May	364,990	493,469	+ 128,479
June	279,799	428,124	+ 148,324
July	324,774	398,176	+ 73,402
August	328,172	468,585	+ 140,413
September	239,600	390,992	+ 151,392
October	93,582	551,162	+ 457,580
Total	3,096,418	3,790,730	+694,312

For each of the first four months in 1918 ship losses exceeded ship building, the margin of losses, however, decreasing and especially in the month of March falling quite sharply.

From May to November in each month the building topped the losses, and in the last completed month of the war, October, by nearly half a million tons, thus indicating clearly the progressive increase of building over losses during the year.

PROPORTIONATE LOSSES IN 1918.

Month.	Britain.	United States.	Other Allies and Neutrals.
1918.	Gross Tons.	Gross Tons.	Gross Tons.
January	218,621	2,981	135,906
February	254,303	10,838	121,496
March	224,666	5,868	170,929
April	233,169	2,690	82,722
May	231,787	15,276	117,927
June	165,550	12,501	101,748
July	182,524	2,599	138,649
August	176,434	44,618	107,120
September	151,593	7,537	80,470
October	83,952	2,458	7,172
November	.....	2,873	.....
Total	1,922,599	110,239	1,064,139

It will be seen that the British losses nearly doubled those of the other allies and neutrals combined.

The proportionate yearly British and other allied and neutral losses during the war were:—

Year.	Britain.	Other Allies and Neutrals.	Total.
	Gross Tons.	Gross Tons.	Gross Tons.
1914	496,552	212,635	709,187
1915	1,103,379	621,341	1,724,720
1916	1,497,843	1,300,018	2,797,866
1917	4,009,327	2,614,086	6,625,623
1918	1,923,412	1,274,878	3,198,390
Total	9,031 828	6,021,958	15,053,786

The losses in 1918, although slightly less than half those in 1917, were still greater than the losses in any war year preceding 1917, showing that German submarine operations were a grave danger up to the end.

The British shipping loss of 9,000,000 tons comprised roughly (on the authority of Prof. W. S. Abell, Chief Surveyor of Lloyds) 2,000 vessels, 500 liners and 1,500 tramps; the toll of lives among British merchant seamen was 15,000.

The losses sustained by the different allied and neutral countries in gross tons during the war, as given by Mr. Archibald Hurd in the *Daily Telegraph* were:—

United Kingdom and Dominions	9,055,668
United States	501,038
Belgium	105,081
Brazil	31,279
Denmark	245,302
Holland	229,041
France	807,077
Greece	414,675
Italy	861,435
Japan	270,033
Norway	1,171,760
Spain	237,862
Sweden	264,001
Total	14,194,252

This total is slightly less than that given by the New York *Journal of Commerce* already quoted. The losses of the allied and neutral nations, apart from Great Britain, are put by Mr. Hurd at 5,138,584, Great Britain's losses being nearly double those of all the other given nations combined, seventeen times those of the United States, and ten times those of either France or Italy.

PROPORTIONATE BUILDING.

Year.	Britain.	Other Allies and Neutrals.	Total.
	Gross Tons.	Gross Tons.	Gross Tons.
1914	675,610	337,310	1,012,920
1915	650,919	551,081	1,202,000
1916	541,553	1,146,448	1,688,008
1917	1,163,474	1,774,312	2,938,786
1918	1,310,741	2,698,080	4,008,811
Total	4,342,298	6,507,231	10,849,525

In 1915, allied and neutral losses exceeded building by 522,720 gross tons, in 1916 by 1,109,858, in 1917 by 3,686,837, but in 1918, owing to the 1917 losses being cut in half and to increased building activity especially by America, the building surpassed the losses by 810,421 gross tons; 1914 being the only other similar war year, when the margin of safety was 303,733 gross tons.

British merchant shipping decreased during the war by 4,689,530 gross tons, that of the other allies and neutrals remaining almost stationary with a small balance of 485,273 gross tons in favour of building over losses.

The total decrease of allied and neutral shipping during the war amounted to 4,204,259 gross tons; this is serious enough but worse is behind; taking Lloyd's figures, the gross steam merchant tonnage of the allied and neutral powers in 1914 was roughly 39,000,000, at the normal yearly peace increment increase of five per cent this tonnage ought, in four years' time, to have reached an additional 8,000,000; the real shortage of shipping for these nations to meet their peace requirements is therefore 12,000,000 tons, and the demands on sea transport after the war are bound to be excessive; this situation is somewhat relieved by the confiscation of 2,392,675 gross tons of enemy vessels in neutral ports, provided, of course, that these remain confiscated.

Britain, as can readily be seen, was particularly hard hit; taking 20,000,000 as her gross tonnage in 1914 (*see* Lloyd's figures) and applying the five per cent principle, it will be found that the shortage amounts to about 9,000,000 gross tons for her ordinary needs, and her needs for a considerable period after the war will be the reverse of ordinary.

LLOYD'S RETURNS of Merchant Ships under Construction for the Quarter ended December 31, 1918.

*Vessels of less than 100 tons are not included in Lloyd's Register Shipbuilding returns.

Between one-third and one-half of the total number of steamships under construction in Great Britain for the quarter ended December 31, 1918, are in the 5,000 to 6,000 gross-ton class, or, put in deadweight tons, 7,500 to 9,000.

In last year's report it was stated that the class of vessel giving the best return on outlay was one ranging between 7,000 and 10,000 tons deadweight capacity; the British programme gives practical support to this theory.

What is of peculiar interest to the Empire and to Canada in the table on page 6 is: first, the comparison between the returns for Britain and the Dominions, and those for America; and second, the position taken by Canada herself among the other nations.

Number of ships under construction in Britain and the Dominions 619, total gross tonnage 2,258,663, in the United States 997, total gross tonnage 3,645,919.

It can be readily judged what sort of a part America is likely to play in the world's sea-carrying trade, and four years ago she was almost an onlooker.

Comparing small things with great, the Canadian return is scarcely less remarkable.

Lloyd's statement includes returns from all the chief shipbuilding countries of the world with the exception of the Central Powers (for obvious reasons), in this company Canada's 1918 programme ranks third in the number of ships, 148 to Japan's 116, and fourth in tonnage 225,264 to Japan's 278,140, only 52,876 tons less; a notable showing in a short time, which augurs well for the future.

*Returns not complete.

The French war output is only one-fifth of that for the four previous years, Britain's about one-half, Denmark and Norway show a slight increase, Italy increased her output by one-third, Holland by one-quarter. The Swedish output for 1915-18 is about double that for 1911-14, the Dominions about treble, the Japanese fourfold, and the United States fivefold; the main building increase for these three last countries taking place in 1918. The world's total output of tonnage for 1915-18 very nearly equals that for 1911-14, the difference in favour of the latter being 462,596 tons.

DROP IN RATES.

The sharp fall in ocean freight rates came somewhat as a surprise; the lead was taken by such British lines as the Cunard, Furness-Withy, International Mercantile Marine group, and Canadian Pacific, after due notice had been given to the Director of Operations of the United States Shipping Board; this action was taken on their own initiatives, as the rates on free space are fixed by the lines themselves, and are not subject to the approval of the British Ministry of Shipping, with the single exception of the rate on cotton.

Upon the receipt of this notice the United States Shipping Board promptly followed suit by declaring a rate reduction of 66 per cent on ocean freight from American to European ports borne by its ships; these reduced rates only apply to United States Shipping Board vessels, and not to those privately owned, but as the Shipping Board operates at least half of the American Merchant Marine, the remainder is certain to be largely affected, and on routes where both are operating in common the Shipping Board's rates are certain to obtain.

Whether or not the new revision will stand for any length of time is a moot question, but in American ship-owning circles the prevailing opinion seems to be that an approximate minimum has been reached and that the present scale of rates is not likely to go lower, although it may in some cases be increased; in the cases, however, of a number of shippers and exporters whose opinions were solicited by the New York *Journal of Commerce*, the majority favoured a further and more general reduction.

The tendency will be to restore and extend export business, and to lower the prices of commodities generally; the trades chiefly affected are cotton, steel, copper, hides, textiles, lumber, and groceries and foodstuffs; the profits of merchant ships, whether under private or government control, will of course be curtailed.

The comparison between the old and new rates per measurement ton is thus given by the New York *Journal of Commerce*, the new rates going into force on February 1, 1919:—

America to United Kingdom	$66 00	cut to	$20
" French Atlantic ports	66 00	"	26
" French Mediterranean ports	71 50	"	34

From the same source are taken the following United States Shipping Board rates on Webb high density cotton, present cargo space not warranting the shipment of loosely baled cotton:—

	Per 100 Pounds.	
From United States Atlantic ports to—	New.	Old.
United Kingdom main ports	1 25	4 50
France main Atlantic ports	1 50	4 75
Main Mediterranean ports	2 00	5 25
Holland, Rotterdam	1 50	4 75
Belgium, Antwerp	1 50	4 75
Portugal, main ports	1 50	4 75
Spain, Barcelona	2 00	5 75
Italy, main ports	2 25	5 50

Shipments from United States Gulf ports, 25 cents extra.

GROWTH OF AMERICAN MERCHANT MARINE.

In August, 1917, there were in America 61 shipyards, of which 37 were steel yards, with 162 ways.

In September, 1918, there were all told 203 yards, with 1,020 ways; of these yards 77 were steel, 117 wood, 2 composite, and 7 concrete.

In 1916 the American yards employed 50,000 men; they now employ 386,000.

At the time of the entry of the United States into the war her merchant marine comprised 2,750,000 deadweight tons of seagoing ships over 1,500 tons burden; in September 1918 (not including vessels of 1,500 tons) it consisted of:—

	Number.	D.W. Tons.
Requisitioned American ships	449	2,900,525
Ex-German and ex-Austrian ships taken over	100	644,713
New ships owned by Shipping Board	256	1,465,963
Old lake steamers transferred	31	117,800
American ships not yet requisitioned (over 1,500 tons d.w.)	377	980,459
Dutch steamers requisitioned	81	486,945
Foreign ships chartered to Shipping Board	291	1,208,411
Foreign ships chartered to American citizens	600	1,707,099
Total	2,185	9,511,915

Of this fleet, 1,294 ships, total tonnage 6,596,405, fly the American flag, 891 foreign vessels, total tonnage 2,915,510, are under charter either to the Shipping Board or to private companies.

AUSTRALIAN SHIPBUILDING.

For these tables the department is indebted to Mr. A. M. Bomphrey, Director of Ship Construction, Newcastle, N.S.W.

NUMBER and Tonnage of Ships built and registered in the Commonwealth during each of the Calendar Years 1914-17.

Year.	Number	Tonnage Gross.
1914	55	3,817
1915	14	1,278
1916	7	146
1917	6	333
Total	82	5,574

Output for 1918-19.

The probable output of tonnage for this year will be about 40,000 tons as shown below:—

Number.	Type.	Locality.	Builders.
6	Steel Cargo Steamers	Williamstown	Commonwealth Ship Construction Branch.
6	" "	Walsh Island	New South Wales Government.
2	" "	Cockatoo Island	Commonwealth Navy Department.
4	" "	Maryborough (Q)	Walkers, Ltd.
4	" "	Adelaide	Poole and Steel.
2	" "	Tasmania	Mersey Shipbuilding Company, Ltd.
6	Wood Auxiliary Schooners	Sydney	Hughes, Martin & Washington, Ltd.
6	" "	Fremantle	W. A. Shipbuilding Company.
6	Wood Auxiliary Barquentines	Sydney	Wallace Power Boat Company.
6	" "	Sydney	Kidman and Mayoh.

The importance at present attached by Australia to the building of ships may be judged by the fact that her program for 1918-19 is seven times her total output for the four preceding years.

SHIPPING IN THE FUTURE.

Sea transport after the war will in all likelihood be chiefly controlled by Great Britain and the Dominions, the United States, Japan, and possibly the Central Powers (Germany and Austria-Hungary).

In 1914 the merchant steam tonnage of these countries, according to Lloyd's Register, was in gross tons:—

Great Britain and Dominions	20,523,706		
Germany	5,134,720		
Austria-Hungary	1,052,280	6,187,000	
United States		1,813,775	(this is sea-going tonnage only, the United States had besides 3,040,973 in lake tonnage.)
Japan		1,078,386	

The total steam tonnage of the world at that time was 45,403,877, Great Britain and the Dominions owning 40 per cent of it; post-war conditions, however, may tend to somewhat modify this position.

The recent shipbuilding activities of the United States and Japan, coupled with their comparative immunity from submarine losses, will have a very considerable effect on the shipping situation of the future.

Britain, during the entire course of the war, despite her heavy losses, has placed her merchant tonnage unreservedly at the service of the Allies; in doing so she has abandoned to a greater or lesser extent some of her former trade routes; this holds true in particular of the Pacific trade, of which she controlled 40 per cent before the war, Japan's share being about 30 per cent. British tonnage on this route has now dropped by 10 per cent, while the Japanese has doubled, but owing to the astonishing increase of American shipbuilding during the war, Japan's most formidable rival there in the future will probably be the United States.

In 1913 the value of Britain's imports was $3,736,050,381, of her exports $3,085,200, 784; the adverse balance of trade of $650,849,597 was offset in part by interest on foreign investments, but chiefly by the earnings of her merchant marine.

Britain's merchant marine is literally her life-line, and its standing after the war in relation to that of other maritime nations will be of the utmost importance.

Mercantile shipbuilding in Britain since 1914 has been heavily handicapped; there has been a shortage of steel due to the pressing demand for guns and munitions, the drain on her man power stripped her plants, and men were put into the ranks who might better have served the allied cause in the yards.

It was not until the spring of 1918 when the tonnage situation became acute that 20,000 shipwrights were released from the army. She had to consider the imperative needs of her navy, and to maintain constantly at sea an immense fleet of first-line battleships and cruisers, besides destroyers, trawlers, drifters, and all manner of anti-submarine craft.

Addressing visiting American journalists in London in October, 1918, Admiral Sims, commanding the United States fleet in European waters, said that there were then about 5,000 anti-submarine craft operating day and night in the North sea and vicinity; of this flotilla, 160 or 3 per cent were American vessels, the remainder being British; he stated that about the same proportion obtained in the Mediterranean.

This is a striking tribute to the pre-eminence of Britain's navy, and of her merchant marine as well, for no small share of the battle against German mine and submarine has been borne by the latter.

During four years of war the displacement tonnage of the navy, including auxiliaries, has increased from 2,500,000 to 6,500,000, and the personnel from 146,000 to 406,000.

British yards of late have carried on an extensive work in the repairing and refitting of merchant ships damaged by mine or torpedo, hampering greatly the output of new shipping; between June, 1917, and October, 1918, 10,000 British ships, besides a number of allied and neutral vessels, were repaired and made serviceable.

In any estimate of Britain's capacity to build merchant ships under post-war conditions, all these factors must be taken into account.

THE CENTRAL POWERS.

In considering the merchant shipping output of the Central Powers during the war period it must be borne in mind that they have been largely free from the disabilities under which Britain has laboured.

Early in the war they gave up any attempt to keep the sea, confining themselves almost entirely to the use of submarines, thereby curtailing the building of the larger battleships. The repairing and refitting operations of their merchant shipyards have been confined to their Baltic fleet, a mere trifle; they have thus been able to devote the greater part of their building activity to the production of new merchant ships, and that they have done this to a very considerable extent may be taken for granted from information that has leaked out from Germany.

On the authority of the late Herr Ballin there are at present building in German yards one ship of 56,000 gross tons, one of 35,000, two of 30,000, and a number ranging from 9,000 to 22,000 tons; Germany, as heretofore, evidently pinning her faith to the big freighters.

The system of heavy subsidies started before the war is to be continued, especially to merchant ships completed within three years after the declaration of peace.

Of the merchant shipping of the Central Powers, 2,700,000 tons were interned in German or Austrian ports at the outbreak of war, the remaining 3,487,000 being in neutral ports; of the latter 2,392,675 tons have been confiscated; irrespective of new output the Central Powers have at present 3,794,325 gross tons of merchant shipping. As their output of shipping in 1914 was roughly 600,000 gross tons, it may be assumed that they have at present at the least between four and five million tons for post-war trade.

CANADIAN SHIPBUILDING POLICY.

Owing to the drain on merchant tonnage generally and on British tonnage in particular due to the war, the possession of ships has become of capital importance to the Dominions, first to carry their own products overseas, and second to partake in the sea-carrying trade, and obtain the advantage of the high freight rates which are likely to obtain for a considerable post-war period; it has already been shown how Australia has increased her shipbuilding activities.

The Canadian Government, recognizing how much the possession of a merchant marine, solely under Canadian control either governmental or private, will mean to the future trade prosperity of Canada, has launched an extensive plan for the building of a Canadian merchant marine in Canadian shipyards.

In this connection it may be noted that rolling mills for the output of steel plates and steel shapes for ships have now been established at Sydney, N.S.; hitherto the bulk of these plates and shapes came from American sources, but Canada is now in a position to employ Canadian firms only in all that pertains to the building of ships.

Apart from the formation of a much-needed Canadian merchant marine the Government plan has another side, the placing of the Canadian shipbuilding industry on a firm footing; nearly one-fourth of the government contracts for ships run into the year 1920; this ought to enable the Canadian yards affected to become securely established, and to compete successfully in the output of ships for foreign governments.

OPERATIONS OF CHIEF CANADIAN SHIPBUILDING PLANTS.

Nova Scotia Steel and Coal Co., Ltd., New Glasgow, N.S.

During the fiscal year 1918-19 the ss. *War Bee* was built and delivered, length 249 feet, breadth 35 feet, depth 20 feet, speed 9 knots, gross tonnage 1,730.

The following improvements have been made to the plant: the yard space has been doubled, a dock for fitting-out berth has been built and supplied with electric welding machine and McBride plate tighteners. A shop, 160 feet long by 60 feet wide, has been built, with travelling crane, vertical drill, engine lathe, etc.

Canadian Allis Chalmers, Ltd., Bridgeburg, Ont.

This yard is still engaged on the four 3,500-ton ships for the Imperial Munitions Board.

No additions or improvements have been made to this yard during 1918-19.

J. Coughlan & Sons, Vancouver, B.C.

This yard has already delivered to the Imperial Munitions Board six steel cargo vessels, 8,800 tons d.w. each. Four vessels of the same type will be delivered to the I.M.B. during May, June, and July, 1919. This firm also has under contract four vessels of 8,100 tons d.w. for delivery to the Marine Department; prior to undertaking this work for the Marine Department the plant had two structural fabricating shops, with a capacity of 1,000 tons of steel per month; it has now been so extended that it can deliver one steel cargo vessel per month, involving the fabrication and erection of approximately 3,400 tons of steel.

Northern Construction Company, Limited, Vancouver, B.C.

Was established in June, 1917, has a capacity of four berths, and has built for the Imperial Munitions Board six 2,800-ton vessels; at present engaged in building five vessels for the French Government of 1,500 tons each, at an approximate cost of $325,000 per vessel.

Yarrows, Limited, Esquimalt, B.C.

The work of this plant consists largely in the repairing of ships. One steel stern-wheel steamer, the *Chouk*, length 165 feet, breadth 34 feet, depth 7 feet, draft 3 feet 6 inches loaded, has been completed and delivered to the Government of India.

Eighty vessels, gross tonnage 115,000, have been repaired in dock, and 360 vessels, gross tonnage 65,000, have been repaired afloat.

Minor improvements have been made to the plant during the year.

British American Shipbuilding Co., Ltd., Welland, Ont.

This company has already built three vessels for the Imperial Munitions Board, the dimensions of which were given in last year's report; these were built at an average cost of $671,000 each. At present they are building for the Marine Department two vessels, length 320 feet B.P., breadth moulded 43 feet 10 inches, depth moulded 25 feet.

Additions to the plant, such as new shop, new machinery, and increased berth accommodation have been made during the year at a cost of $120,000.

Cholberg Shipyard, Limited, Victoria, B.C.

Established in 1918, a wooden plant covering three acres on Victoria Harbour waterfront, has three building berths for vessels up to 2,500 tons d.w. and 270 feet in length; at present building three schooners for the Norwegian Government, 1,600 tons d.w., length 190 feet, estimated cost $200,000 each.

Halifax Shipyards, Limited.

In June, 1918, the Halifax Shipyards, Limited, took over the property of the Halifax Graving Dock, subsequently acquiring new property for a large shipbuilding and repairing plant.

The new property comprises 46 acres, and has a length along the Halifax Harbour front of 3,300 feet.

Old pier No. 7, with a length of 650 feet, to be used as a temporary fitting-out berth has been rebuilt, a new pile wharf 315 feet long has been built east of the graving dock, and the old wharf at the foot of North Ferry street has been rebuilt and extended.

The new permanent buildings consist of:—

Machine Shop.—A fireproof reinforced concrete building, three stories high, 280 feet long, 100 feet wide, with a travelling crane and all necessary machinery for extensive machine work.

Plate Shop.—A fireproof steel and brick building, 600 feet long, 75 feet wide, 60 feet high, with two travelling cranes. The ground floor contains all the machinery for fabricating steel plates for the erection of ships. Above this is located the loft.

Lean-to.—Fireproof, steel and brick, 500 feet long, 32 feet wide, one story high, attached to the west side of the plate shop. In this building plates will be marked before going into the plate shop.

Power House.—Fireproof, steel and brick, 140 feet long, 100 feet wide, two stories high, with travelling crane. This plant is capable of generating 4,000 horse-power. All machinery in connection with the shipyards will be operated by electricity furnished from the power-house. Reinforced concrete chimney 210 feet high, 10 feet diameter at top, eliminates the necessity of the mechanical apparatus for forced draught. Fuel for generating power will be crude oil.

Pump House.—Brick, 40 feet by 24 feet, in which are installed the pumps for pumping out and keeping dry the dry dock. The dry dock has been excavated out of solid rock, and the sides rebuilt with ashlar and concrete; it has a length of 567 feet, breadth 102 feet, with 27 feet of water on keel blocks.

Office and Stores.—Fireproof, reinforced concrete and brick, 285 feet long, 60 feet of which is four stories high, and the remainder of three stories, 50 feet in width, 225 feet of the ground floor and 75 feet of the first floor for stores and compressor plant, the remainder used for offices.

Fire protection is supplied by an 8-inch sprinkler system installed throughout all the buildings. A 1,000-gallons-a-minute Fire Underwriters' pump is installed in the power-house, with direct connections to the 8-inch sprinkler system and to a 40,000-gallon steel tank on a 75-foot steel tower. Two direct 6-inch water mains connected with the Halifax municipal water system supply the plant and the sprinkler system with fresh water.

The shipyards comprise four berths on pile foundations 615 feet long by 60 feet wide, equipped with thirteen steel guy derricks for placing plates in position on new ships.

The vessels being built for the Marine Department by this firm, and their tonnage, are given in a previous part of the report, under the heading "Canadian Government Shipbuilding Programme."

About 2,000 men are at present on the pay-roll of this firm.

Canadian Car and Foundry Co., Ltd., Fort William, Ont.

This company established in 1918 in connection with its car and foundry work a shipbuilding plant at a cost of $250,000; it undertook a contract for the French Government to build twelve single-screw steel mine sweepers, length 143 feet, breadth 23 feet, displacement tonnage loaded 630 ; all these were built and delivered.

The company is at present building a single-screw steel cargo steamer, length 209 feet, breadth 32 feet, depth 17 feet.

The National Shipbuilding Co., Ltd., Levis, Que.

The site of this plant, established in 1918, is at the St. Lawrence dock, Levis, Que., it is equipped for the construction of steel steamers, and has a marine railway attached for bringing vessels out of the water for repairs; only one slip is at present built.

The company is now reconstructing the steel dredge *Galveston* into an ocean freighter for a French firm.

Collingwood Shipbuilding Co., Ltd.

During 1918 this company built the following ships: three trawlers, 125 feet by 24 feet by 13 feet 6 inches, 288 gross tons each; oil tanker, 251 feet by 44 feet by 25 feet, 2,631 gross tons; cargo steamer *War Wizard*, 251 feet by 43 feet 6 inches by 20 feet 2 inches, 1,961 gross tons; cargo steamer *War Witch*, 251 feet by 43 feet 6 inches by 20 feet 2 inches, 1,961 gross tons.

The four vessels, with their tonnage and dates of delivery, which this firm is building for the Canadian Department of Marine are given in a previous part of this report under the heading "Canadian Government Shipbuilding Programme."

Dominion Shipbuilding Co., Ltd., Toronto, Ont.

The plant occupies 15 1/5 acres of reclaimed land owned by the Toronto Harbour Commission, from Bathurst street on the west to Spadina avenue on the east, has five berths for canal-sized ships, and, when completed, will include four buildings, approximate cost $2,500,000. The main building of steel, with reinforced concrete walls, is 485 feet by 210 feet on the first story which contains furnaces, angle-iron shop, smith shop, and punch shop; the second story, 110 feet wide, contains power-house, joiners and carpenters shop, and mould loft.

The second building now completed 425 feet by 110 feet takes in electrical shop, pipe shop, blacksmith shop, and machine and pattern shop. The other two buildings not yet completed will be the foundry and the boiler shop.

Three overhead cranes are used in the erection of steel for ships; all machinery is electrically driven; one set of shear-legs, 100-ton capacity, has been erected.

The capacity of the completed plant will be twelve ships a year of canal size, viz., 261 feet by 43 feet 6-inch beam, 4,300 tons d.w.

The firm had under contract eight vessels, two of 4,300 tons class d.w. which were delivered one in the fall, 1918, and the other at the end of January, 1919; the remaining six vessels are 3,550 tons d.w. each, length overall 261 feet, beam 43 feet six inches, depth twenty-five feet; these will be all built and delivered by the beginning of September, 1919.

The firm has also plans and specifications made for a number of a smaller type of ship which will occupy the plant during the latter half of 1919.

With the completion of the boiler shop and the foundry in the near future this shipbuilding plant will be entirely self-contained, complete, and up to date.

Canadian Vickers, Ltd., Montreal, Que.

The vessels which this firm has built and is building for the Canadian Government, with their tonnage, are given in the "Canadian Shipbuilding Programme."

During 1918-19 the firm built for the Norwegian Government two single-deck cargo ships, the *Porsanger*, 7,263 tons, and the *Samnanger*, 7,359 tons; and for the Imperial Munitions Board four single-deck cargo vessels, the *War Earl*, 7,211 tons d.w., the *War Duchess*, 7,278 tons d.w., the *War Faith*, 7,263 tons d.w., and the *War Joy*, 7,267 tons d.w.

Thirty-one vessels were repaired on the floating dry dock, representing a gross tonnage of 115,631.

STATEMENT showing Number of Vessels Removed from the Registry Book of the Dominion of Canada during the Year ended December 31, 1918.

	Number.
Sold to foreigners	44
Wrecked	20
Stranded	11
Lost	11
Broken up, etc	166
Abandoned at sea	5
Collisions	1
Foundered	24
Burnt	12
Transferred to St. John's, Nfld	90
" Australia	1
" Great Britain	6
" South Africa	2
Missing	20
Registry no longer required	6
Sunk by enemy	23
Total	442

It is estimated that 44,103 men and boys, etc., inclusive of masters, were employed on ships registered in Canada during the year 1918.

CHIEF ENGINEER'S REPORT.

OFFICE WORK.

Total plans for twelve months (April 1 to March 31, 1919)	1,310
Charts received and recorded	108
Charts received and entered in chart books	19
Photographs received and recorded	171
Specifications and bills of material written	60
Notices to Mariners issued (comprising 287 subjects)	113

In addition to the work of this branch, the staff has been called upon to perform work for other branches of the service. For the Meteorological Service the re-erection and improvements to the storm signal mast at Port Arthur, Ont., also erection of mast at Souris, P.E.I.

PUBLICATIONS.

During the fiscal year 113 Notices to Mariners, covering 287 subjects, were issued.

The following may be especially noted:—

Publications of warnings or regulations necessitated by the war with regard to vessels' lights; public traffic regulations; exhibition of signals and the extinguishing of lights.

Since the conclusion of the war notices have been issued covering the rescinding of regulations and restrictions necessitated by the war; re-exhibition of lights as before the war; instructions for sailing ships and general mine warnings to mariners.

Improvements of channels by dredging, done by the Department of Public Works, were also described.

Uncharted dangers, wrecks and derelicts were reported and described.

Hydrographic notes were published, also information respecting Radiotelegraph Direction Finding stations, and particulars with reference to the broadcasting of weather forecasts by the Radiotelegraph stations on the Great Lakes and connecting waters. A notice giving a list of all the lights on the Trent Canal system was also published.

Notices relating to waters outside of Canada were issued, covering items relating to Newfoundland, Atlantic and Pacific waters of the United States, Panama canal, Jamaica, as well as notices relating to transatlantic and transpacific subjects.

The annual edition of the "List of Lights and Fog Signals" was prepared and published.

PRESCOTT DEPOT.

The Prescott Depot has been operated as usual during the past fiscal year. Year after year a large quantity of stock, unused and returned materials, had accumulated and the stock records had become unwieldy. A complete reorganization of the stock was undertaken at the beginning of the past fiscal year; all materials and goods regularly kept at the depot were classified and a list of this standard stock made and forwarded to all agents, engineers and designers of the department.

A new card system was devised and the balancing of these cards at the end of the fiscal year has given the following results for the nine and a half months beginning on the 15th June, 1918:—

Total sales	$49,422 30
Gross profit	8,531 88

This profit covers not only the upkeep of the stores—storekeeper, storemen, shipper and packer's wages—but also that part of the general expenses of the Depot that can reasonably be charged to stores.

The value of the stock on the 31st March, 1919, was $170,998.67.

REMOVAL OF OBSTRUCTIONS TO NAVIGATION.

Georgetown, P.E.I.....Schooner *Circassian*, loaded with coal, was wrecked in the harbour. The masts, which were a menace to navigation, were pulled out by steamer *Ostrea*.

Lake Erie, Ont.....Steamer *Henry Cort*, which was wrecked four miles west from Colchester reef lighthouse, was removed by the owners.

Little Current, Ont.....A scow, loaded with iron, sunk in the channel, was subsequently removed by the owners.

MAINTENANCE AND REPAIRS TO WHARVES.

The following is a list of wharves where repairs were attended to by this branch:—

Nova Scotia.

Arichat
Digby
Freeport
Granville centre
Hampton
Kingsport
Saulnierville
Shelburne

Quebec.

Amherst
Berthier
Chicoutimi
Les Eboulements
Mechins
New Carlisle
Paspebiac
Rivière Blanche
Roberval
St. Famille
Ste. Irenee

P. E. I.

Bay View
Haggarty wharf
Hickey's wharf
Keir's shore wharf
Murray harbour
St. Mary's wharf
Sturgeon wharf

New Brunswick.

Lamek

British Columbia.

Sidney

Montreal District.

Masson.

Ontario.

Midland
North Bay
South Lancaster

ICE BREAKING.

The contract with the Canadian Towing & Wrecking Company, to keep the harbours at the head of lake Superior open for navigation until December 17 in each year, and to open them in the spring as soon as the canal at Sault Ste. Marie is open for navigation, expired this year.

New tenders were invited for a five year term. The Great Lakes Transportation Company, being the lowest tenderer, was awarded the contract, which dates from July 2, 1918.

CHANGES AND IMPROVEMENTS IN EXISTING AIDS.

NOVA SCOTIA.

Lightstation.	Nature of Work.
Cape Fourchu	Repairs to fog alarm building and conversion of steam plant to an oil plant.
Cape Freels	Improvement in the water supply.
Cape Roseway	Erection of iron lantern on new concrete deck and installation of 3rd order apparatus.
Cape St. Mary	Erection of new lantern and flashing catoptric apparatus.
Chebucto Head	Repairs to lightstation.
Dartmouth	Installation of heating system in storehouse and offices.
Glace bay	Front range light tower erected on new site.
Halifax	Two gas and whistling buoys converted into the Aga stsyem
Ingonish	Illuminating apparatus improved by the installation of flashing reflector and Reliance clock.
Mauger beach	Repairs to breakwater.
Parrsboro	Reconstruction of dwelling, installation of small diaphone, and 2½ h.p. oil engine.
St. Paul Island	Installation of water supply.
Salvages	Repairs to fog alarm station and construction of runway.
Seal Island	Steam fog alarm plant replaced by an oil plant.
Sheet Rock	Repairs to dwelling, re-shingling roof of shed, and rebuilding boat slip.
Victoria beach	Repairs to road.

NEW BRUNSWICK.

Bridges point	Cribwork under tower renewed.
Cape Spencer	Erection of 30 ft. concrete tower, 8 ft. lantern, and installation of apparatus.
Cape Tormentine	Back and front range towers raised.
Escuminac	Installation of an oil pumping plant.
Gannet rock	Installation of an oil pumping plant and hoist.
Grindstone Island	Installation of an oil pumping plant.
Miscou Island	Installation of an oil pumping plant.
Negro point	Pointing stonework of the pier.
Partridge Island	Installation of an oil pumping plant.
Point Lepreau	Apparatus improved by the installation of triple flash reflector.
Pompey ledge	Repairs to spindle.
Quaco	Erection of derrick, and construction of landing.
St. John Agency	Repairs to gangways, doors, etc., of sheds and repairs to equipment on wharves.
Tongue shoal	Installation of Aga system.

PRINCE EDWARD ISLAND.

Brighton beach	Front range light moved to a new site.
Cape Egmont	Repairs to fence.
Charlottetown	Repairs to wharf.
East point	Installation of modern diaphone plant.
Fish Island	Outer range light removed.
Murray harbour	Repairs to outer range light foundation.
North Rustico	Repairs to breastwork.
St. Peters	Moving inner range light.
Souris	Repairs to cottage.
Summerside	Moving front range light to new site.

QUEBEC.

Anse St. Joan	Oil shed moved.
Cape Chat	Installation of a modern diaphone plant to replace bomb signals.
Cape Dogs	Installation of 55 mm. Diamond burner.
Cape Gaspé	Repairs to tower and installation of double flash reflector.
Cape Madgalen	Installation of 55 mm. Diamond burner.
Cape Ray	Repairs to road.
Charleton point	Erection of double dwelling.
Cloridorme	Installation of headlight lantern.
Fame point	Repairs to retaining wall.
Godbout	Establishment of hand fog-horn.
Grand Entry	Repairs to protection work and erection of temporary pole
Grande Vallée	Installation of headlight lantern.
Great Fox river	Installation of headlight lantern.

CHANGES AND IMPROVEMENTS IN EXISTING AIDS.

QUEBEC—*Concluded.*

Lightstation.	Nature of Work.
Greenly Island	Steam plant replaced by an oil plant.
Griffin cove	Installation of headlight lantern.
Little Metis	Installation of 55 mm. Diamond burner.
Mont Louis	Installation of headlight lantern.
New Carlisle	Erection of shelter shed and installation of anchor lantern with hoisting gear.
North point	Erection of double dwelling, nearly completed.
Point des Monts	Erection of new fog alarm building, provision and installation of engines, compressors, and 3-inch diaphone.
Port Daniel	Erection of a 22 ft. concrete tower to replace tower destroyed by fire, also provision and installation of cast iron lantern and illuminating apparatus.
Quebec Agency	Installation of new main pipe for heating system in the workshops.
Rivière à la Martre	Installation of 55 mm. Diamond burner.
Ste. Anne des Monts	Installation of headlight lantern.
Sandy beach	Repairs to pier.
Table head	Continuation of work of erecting lighthouse, dwelling and installation of engines for fog-alarm plant.
Upper Traverse	Repairs to pier and installation of 55 mm. Diamond burner.
Caron point	Installation of 5th order lens.
Dorval	Installation of 5th order lens.
L'Orignal	Installation of Daylite lamps.
Montreal Agency	Scows *Adelard, Quebec,* etc., repaired.
Pointe à Cadieux	Installation of Aladdin lamp.
Pointe au Chene	Installation of Aladdin lamp.
Pointe Claire	Installation of 5th order lens.
St. Pierre les Becquets	Erection of range lights and installation of 5th order lens.
Sorel	Manufacture of 3 shallow draft bell buoys. Manufacture of 6 gas whistling buoys. Manufacture of 6 reinforced steel ice buoys. Manufacture of 4 gas buoys.

ONTARIO.

Amherstburg	Iron fence painted and repairs to wharf and scow *Prescott*.
Burnt Island	Erection of new boathouse, installation of water pumping device, etc., also installation of 5th order lens.
Colchester reef	Repairs to pier.
Cobourg	Erection of concrete shed for Aga tank.
Davieaux Island	Completion of tower started last year.
Goderich	Repairs to tower and lantern, and installation of reflector; also repairs to platform of main tower.
Great Duck Island	Erection of 70 foot concrete tower and installation of a 3rd order lens and 10-foot lantern.
Lamb Island	Construction of boat slipway and pier.
Leamington	Provision of a hand fog horn.
Lyal Island	Installation of a Reliance clock.
Main Duck Island	Repairs to boathouse, breakwater, and concrete foundations placed under oil shed.
Mohawk Island	Installation of reflector and 35 mm. burner.
Parry Sound	Repairs to scow *Parry Sound*.
Port Burwell	Erection of fog alarm building and installation of 1½-inch diaphone operated by a gas engine.
Port Stanley	Installation of armoured cable for fog alarm plant.
Prescott	Changes made in jointer shop; manufacture of submarine mechanism.
Rainy River	Repairs to front range light pier; erection of ten beacons.
Saugeen river	Repairs to front lighthouse tower.
Wolfe Island	Installation of 5th order lens.

BRITISH COLUMBIA.

Brotchie ledge	Changing location of cable and land terminals.
Fisgard	Repairs to tower and dwelling.
Green Island	Provision of hand fog horn.
Namaino	Erection of a creosoted 7-pile beacon.
Pelly Island	Rebuilding of beacon.
Prospect Point	Alterations to semaphore signals.
Saturna Island	Installation of double flash reflector.
Trial Island	Electric equipment transferred from McLoughlin point.

COMMISSIONER OF LIGHTS REPORT.

The principal work performed has been an extension of the buoy and beacon services, together with the maintenance of lights and other aids to navigation throughout the Dominion, and the maintenance and inspection of public wharves. The operations of this branch are set forth in tabular form in two inclosures.

In former reports it had been my habit to add further inclosures giving the names of light stations and lightkeepers, a complete list of stations at which gas buoys were maintained, new establishments of gas and signal buoys, withdrawals, and a statement giving complete list of stations at which submarine bells were maintained. As this information is already contained in other government publications it is not repeated here

INCLOSURE No. 1.—Statement, by districts, showing the number of lights of the several orders, lightships, lightboats, lightkeepers, fog signals, buoys submarine bells, etc.

	1st order lights.	2nd order lights.	3rd order lights.	4th order lights.	5th order lights.	6th order lights.	7th order lights.	Gas beacons.	Pressed lens lights & other minor types.	Catroptric lights.	Electric lights.	Total.	Lightships.	Lightboats.	Lightkeepers.	Diaphones.	Fog guns and bombs.	Fog horns and trumpets.

RIVER ST. LAWRENCE SHIP CHANNEL.

REPORT OF V. W. FORNERET, B.A.Sc., SUPERINTENDING ENGINEER.

GENERAL INFORMATION.

The ship channel of the river St. Lawrence between Montreal and Father Point, has a total length of 340 statute miles.

The contracted part of the river, which is properly called the "Ship Channel" commences at "The Traverse" to which point from Montreal, the distance is 220 miles.

This is divided into five divisions as follows:—

	Statute miles.
Division 1—Montreal to Sorel	45
" 2—Sorel to Batiscan (does not include Lake St. Peter)	36
" 3—Lake St. Peter	20
" 4—Batiscan to Quebec	59
" 5—Quebec to the Traverse	60
Total	220

The dredging operations for the season of 1918 were very much reduced owing to war conditions, only five dredges and one rock cutter being put in commission, and these working only 10 hours per day.

With such a small plant, progress was naturally slower, and any extensive contemplated improvements had again to be postponed until conditions improved. Part of this plant had to be employed chiefly on the maintenance of the ship channel, above and below Quebec. Two dredges and one rock cutter were placed to work at Cap à la Roche deepening and widening the channel at that point, the material being solid shale rock.

There were also numerous boulders to be lifted with a stone lifter.

Notwithstanding the short season, short day, hard material, and very stiff current, considerable progress was made.

Semaphores.—The tidal semaphore at Cap à la Roche, which shows the available depth of water in the dredged channel at Cap à la Roche, was started working on May 8, 1918.

The tidal semaphore at Pointe Citrouille which also shows the water available in Cap à la Roche channel was put in operation on the same date. This semaphore enables the pilots of deep draught vessels outward bound to know if there is sufficient water in the channel at Cap à la Roche to allow them to pass safely. If they see that there is not sufficient depth, they can anchor just below Pointe Citrouille where there is a splendid anchorage ground, and wait for the tide to rise.

The tidal semaphore at St. Nicholas which shows the depth of water available over the undredged St. Augustin bar, was placed in operation on May 7, 1918.

Depth of water in channel season, 1918.—The depth of water in the ship channel during the whole season of 1918 was remarkably good, the lowest being 31 feet 3 inches, and this lasted only for a few days. This was most fortunate, at a time when every additional inch available was being taken advantage of to carry food to the Allies.

The depth of water was exceptionally high during the month of November, the average depth for that month being 34 feet 11 inches.

On November 21 the gauge read as high as 38 feet 1 inch; this was due to strong easterly gales which prevailed for several days.

The following are the averages of depth of water in the ship channel for the season of 1918, as per Sorel gauge:—

——	Feet.	Inches.
May	36	1
June	34	1
July	33	10
August	32	
September	32	3
October	33	7
November	34	11

Accidents.—The season of 1918 was practically free from any serious accidents or marine casualties in the ship channel, although it was a record one for the number of vessels using it. This speaks well for the excellence of the Aids to Navigation, the Pilotage System, and to the maintenance and improvements to the channel.

Sweeping of the Channel.—The usual annual sweeping of the channel was done during the season of navigation, and no obstruction of a serious nature was found. Some sandbars were found to have formed in Champlain channel but these were removed before the low water season.

A large area was covered by the new sweeping steamer *Detector* between St. Jean (island of Orleans) and Longue Pointe below Cap Tourmente in the North channel below Quebec, and very valuable information was obtained for future dredging operations in that channel. The *Detector* has proved itself a most useful vessel, as the work of testing can be carried on with this steamer, in places exposed to the weather, where too much time would be lost if the old method of tug with scow was resorted to. All the machinery used in connection with the sweeping operations which is usually placed on a scow, and propelled by a tug, was installed on the steamer itself and the scow done away with.

DREDGING OPERATIONS DURING SEASON 1918.

Division I—Montreal to Sorel.

Longueuil Curve (Montreal Harbour).—Considerable work was done on this curve during the season of 1918, widening and deepening to 35 feet at E.L.W. of 1897. This curve is to be widened on the north side (Forsyth shoal) in order to obtain a width of 850 feet, which will be a great improvement for that part of the channel.

The material to be dredged is of a very hard nature, consisting of hardpan, some shale rock, stones and boulders. The total number of cubic yards removed amounted to 73,300.

Pointe aux Trembles Channel.—One dredge worked part of the season on this channel, which was nearly all completed to 35 feet at E.L.W. There is only 175 feet yet to be done. The total number of cubic yards dredged during the season of 1918 amounted to 32,400, the material consisting of shale rock and some clay.

Approach Channel to the Imperial Oil Co's Wharf, Pointe aux Trembles.—The Montreal Harbour Commissioners again applied for the use of an elevator dredge and necessary attending plant to complete the approach channel, as they did not have the proper plant to do the work. Their request was granted by the department.

The dredging of this channel was finished in about a month to 28 feet at E.L.W., the material being stiff clay. The number of cubic yards removed being 17,400.

Varennes Curve.—Only one dredge was placed to work on the curve for about a month at the beginning of the season, deepening to 35 feet at E.L.W. The dredged material consisted of clay and the amount removed was 27,650 cubic yards.

Division II—Sorel to Batiscan (does not include Lake St. Peter).

Ile de Grace Channel.—Very little work was done on this channel, only one dredge operating for a short time deepening the channel to 35 feet at E.L.W. of 1897, the material being clay and the amount of dredging being 11,900 cubic yards.

Becancour Traverse.—The axis of the centre line of Becancour traverse, had to be shifted a little to the north on account of the new buildings erected by the St. Maurice Paper Mills Company having obscured the High light. In order to do this and not reduce the width of the channel, it was found necessary to remove two small shoals at the upper end of the traverse, north of the North bank line. One of the dredges was detailed to this work, which occupied only a few days. The material consisted of clay and stones and amounted to 2,210 cubic yards. The removal of these shoals also created a very good "anchorage ground" at the upper end of the traverse.

Champlain Channel.—This channel was thoroughly swept by the sweeping steamer early in the season and some sandbars were found to have formed between Pointe Citrouille and upper end of Champlain channel. One dredge was detailed to remove these and was occupied on this work most of the season. This is the only point where filling of any importance occurs in the ship channel between Montreal and Quebec. The number of cubic yards removed amounted to 55,300.

Division III (Lake St. Peter).

No dredging operations were carried out in this division during the season of 1918.

Division IV—Batiscan to Quebec.

Cap à la Roche Curve.—Two powerful rock dredges, one rock cutter, one stone lifter and attending plant were employed all season on this important part of the ship channel. The material to be dredged is of an exceedingly hard nature, being solid shale rock, which has to be broken by the rock cutter before being removed. The rock appears to get harder the deeper the dredging. There are also many large boulders to be lifted by the stone lifter. In addition, there is a very strong current at ebb tides to contend with, which helps to make progress slower than in other parts of the ship channel. Notwithstanding all this, good progress was made during last season, the widening on the north side of the channel having been completed to 30 feet at E.L.W.

It is proposed to give the full advantage of this increased width to vessels early next season. This was all thoroughly and carefully tested with the testing scow late last Autumn to 27½ feet at O.L.W. as it is the intention to open the increased width to that depth only being the present available depth in the unfinished parts of the curve. Only a couple of small touchings were found, which will be removed early next season with a stone lifter. The channel will then be again carefully swept and if it proves clear, the buoys will be re-arranged to mark the increased width in the upper part of the curve. It is proposed to place three additional gas buoys, which will be of great assistance to make this part of the ship channel much safer for night navigation.

The total number of cubic yards removed during the season of 1918 amounted to 105,190. In addition to this there is a considerable area broken up by the rock cutter in readiness for the dredges to commence work next season.

Division V—Quebec to "The Traverse".

North Channel.—The powerful hydraulic dredge *No. 8* was employed during the first half of the season, dredging at East Narrows to 35 feet at extreme low tide, the material being sand, stones and some clay. The number of cubic yards removed being 211,360.

South Channel.—As some filling was found to have taken place in the St. Thomas channel since the dredging was completed in 1912, it was decided to place dredge *No. 8* to commence cleaning this up. *No. 8* was taken over to St. Thomas bank on July 19, and continued working there until the end of the season. The material was soft clay (silt) and the number of cubic yards removed amounted to 98,300.

The total cost from 1851 to the end of the fiscal year March 31, 1919, of the ship channel from Montreal to Father Point, including plant, shops, surveys, etc., is as follows:—

Dredging	$ 14,518,067 05
Plant, shops, surveys, etc	8,187,420 44
Total	$ 22,705,487 49

The total number of cubic yards removed amounted to 116,935,833, the material varying from very hard shale rock to soft blue clay.

ACCIDENTS.

Very few accidents occurred on the River St. Lawrence ship channel between Montreal and Father Point during the season of 1918, and none of these could be attributed to any fault of the ship channel.

Montreal to Quebec.

June 10.—SS. *Valdura* grounded in Montreal harbour, 1 mile above Longue Pointe signal station, was refloated same day, apparently no damage.

July 10.—Schooner *M. P. Connolly*, in tow, when turning above Three Rivers, went ashore, was pulled off same day. No damage.

September 15.—Steam barge *T. P. Phelan* went aground at Ile Hartelle, but was refloated, apparently undamaged.

September 18.—SS. *Hemslock* went aground at Ile Hartell, was refloated.

September 21.—SS. *Troja*, outward bound, collided with SS. *Berrima*, 2 miles below Pointe Citrouille, both vessels damaged. SS. *Troja* had to be beached, but was refloated and taken to Quebec to go into drydock for repairs.

October 10.—Steam barge *Cobotia*, grounded 1 mile east of Pointe Citrouille, was refloated.

October 21.—Steamer *Polaris* went aground off outside Contrecoeur traverse, was refloated.

Quebec to Father Point.

May 8.—SS. *Lycaon* went aground at cape Dog, was refloated.

July 5.—SS. *Celtic Prince* went aground on Barnaby island, was refloated and came to Quebec under her own steam, and placed in drydock at Levis for repairs.

July 25.—Steam barge *Senator Derbyshire* went aground on Bic island, was refloated.

July 27.—Steam barge *Compton* went aground on Red island, was refloated.

December 8.—SS. *War Matane* went aground on Ste. Marguerite island, was refloated.

MARINE SIGNAL SERVICE.

Signal stations have been established for the purpose of maintaining communication between ship and shore by means of flag signals.

This system of stations extends from St. John, N.B., Halifax, N.S., Cape Race, Nfld., and Belle Isle up the gulf and river St. Lawrence and through the Great Lakes to Sault Ste. Marie, Ont.

Following is a complete list of stations:—

East of Quebec.

	Name of Station.	Location.	Nautical Miles from Quebec.	Means of Communication.
R	Quebec	Custom House	0	Telephone.
X	St. Jean d'Orleans	Shore end of wharf	14	"

Stations marked "R" are reporting stations only, and are not equipped for signalling purposes. Stations marked "X" closed during the period of the war. Stations marked "F" are equipped with flash lights for night signalling.

On account of the large quantity of high explosives that was being shipped from the port of Montreal during the season of 1918 it was deemed expedient to provide for the identification and safeguarding of ships carrying such explosives while navigating the River St. Lawrence ship channel. Therefore, special day and night signals were provided and displayed at the different signal stations, between Montreal and Crane island, to advise and warn vessels as to the movements of ships loaded with high explosives during their passage between the two above points. This was most successful, and no accidents occurred.

All buildings and signal masts belonging to the different signal stations were maintained in good order.

Ice-breaking, 1918–19.

Report of N. B. McLean, Resident Engineer.

The winter of 1918-19 was extremely mild throughout The ice bridge formed at the foot of lake St. Peter on December 18th, and from this point to the sea, the river remained open. Very little work was done by the ice-breakers stationed at Quebec, occasionally one of these vessel came up and broke large drifting fields of ice, or sliced battures that were extending too

far. Less difficulty was experienced this year than at any other time since ice-breaking operations were undertaken.

On December 3, the *Lady Grey* took up her station at Three Rivers to keep Port St. Francis open and to aid vessels coming down. Instructions were received December 4 to go to Montreal and tow down the C.G.S. *Canadian Pioneer* to Quebec, in order that this vessel might be completed there. The *Lady Grey* arrived at Montreal December 5, left the next day with the *Canadian Pioneer* in tow, assisted by the wrecking steamer *Lord Strathcona* and the tug *Sir Hugh Allan*, but only went as far as Sorel, as it was too late to pass the Lake before dark. On December 7 Three Rivers was reached, but further progress was prevented by snow. Some difficulty was experienced at Port St. Francis, as the ice was blocked there, and several vessels were caught; but the *Lady Grey* quickly broke up the jam, and all the ships came through safely. The convoy remained at Three Rivers December 8, as there was a heavy snow storm. The next morning, December 9, the weather was clear, and the *Lady Grey* proceeded down with her tow, arriving at Quebec at 6 p.m. The ice at Quebec bridge, and above for about a mile was heavily packed. It was impossible to manoeuvre at all, and the vessels had to drift through, luckily all passed down safely.

The *Lady Grey* returned to Three Rivers on December 10. The weather turned mild and there was very little ice, the vessels coming through without any trouble. On December 17 all ships outward bound were reported as having passed down, and the *Lady Grey* returned to Quebec to take up her winter station.

Two ships were escorted outwards from Quebec by the ice-breakers during the winter. The first of these, the SS. *Flagg* was accompanied by the *Lady Grey* as far as Tadousac on December 26. From this point she proceeded alone, and the *Lady Grey* returned to Quebec December 27.

The *Canadian Voyageur*, the first of the new Canadian Government steamers to go to sea, left Quebec January 21, escorted by the *Montcalm*, and reached Sydney February 2, taking twelve days to make the trip. The route followed was on the north side of Anticosti, it being generally conceded that vessels have a better chance of getting through this way than by going by the south, where it is known that the ice is always more or less packed. In spite of the fact that these vessels took the best known channel, and that the winter was exceptionally mild, a great deal of difficulty was experienced getting through from Portneuf on the north shore to the eastern end of the island of Anticosti. The ships were at one time carried 45 miles to the westward, were frequently stuck in the ice unable to make any progress, and finally were caught in heavy packed ice from January 27 until February 1, when the pack loosened and they were able to proceed to Sydney. The *Montcalm* had her rudder damaged and two propeller blades broken.

Considering that the conditions were as favourable as they are ever likely to be, it does not appear from this experience, that winter navigation as a commercial proposition would be a success.

After arriving at Sydney, it was found that the *Montcalm* would have to be docked to have the propellers and rudder overhauled. She proceeded to Halifax where the necessary repairs were made.

On the return trip from Sydney, the *Montcalm* left the latter place on March 11 with freight and passengers for the North shore. She made a number of stops, being delayed at one or two points on account of unfavourable weather for landing, and finally reached Quebec on March 18, the whole trip, including stops, taking only seven days. No ice of any consequence was encountered.

On March 15 the *Lady Grey* came up from Quebec and began the work of breaking up the ice in lake St. Peter and the river above. At this date the head of the open water was two miles above the upper end of No. 3 curve. This vessel worked alone until March 24, when she was joined by the *Montcalm*

which arrived from Quebec on March 23 to aid in the operations. By March 27 a channel had been cut through lake St. Peter and as far up as the head of Stone island.

On the morning of March 28 the *Montcalm* was engaged widening at the lower end of the lake, and the *Lady Grey* was proceeding to the head of the cut to continue working up stream. When she was slightly above the upper end of Ile aux Raisins traverse the whole body of the lake ice broke away, and began to move down. Luckily the *Lady Grey* was practically abreast of the break, and was able to get clear above it, but there was no way to get back, as the channel behind was closed almost immediately. She proceeded up to the head of the cut and took shelter at mouth of the Chenal aux Corbeaux. It was not considered advisable to make the attempt to cut her way to Sorel, as the ice above was very heavy, and it was feared that her coal would run out before she reached there. Nothing could be done but remain in shelter until the *Montcalm* cleared the lake.

After the ice moved in the lake conditions generally were very bad, the weather turned cold again, with a great deal of snow and thick weather. Usually when a channel has been cut through lake St. Peter the south half of the ice moves out first, followed by the north half, and the icebreakers can keep it moving without much difficulty, but this year the whole mass of the ice moved at once, which caused many jams at the foot of the lake, and the *Montcalm* had a great deal of hard work breaking them up. To make matters worse her rudder was again damaged, and for a number of days she had to work without it, using her propellers for steering purposes, which made her very much slower in manoeuvering. Owing to these adverse conditions it was not until April 15 that the lake was finally clear of ice. The *Lady Grey* made her way to Sorel on April 14, as the upper part of the river cleared a day before the lake. On April 15 the river was reported clear to Montreal, that is to say that there were no jams anywhere, but much running ice between Three Rivers and Quebec. This completed the work between Montreal and Quebec.

At the request of the Department of Railways and canals the *Lady Grey* was sent up to the foot of the Soulanges canal to clear the channel of ice so as to allow vessels to pass up and down. She left Sorel April 17, proceeded to Montreal, passed the night there, went to Lachine the next day, remaining over night, going on to the Soulanges canal on the morning of the 18th. She cleared the ice from the canal entrance which required only about an hour's work, and was back in Montreal the same evening. This completed the ice-breaking operations.

Average depth for each month in the 27½ foot channel (27½ feet at ordinary low water) from Sorel Gauge during each year, May to November.

SOREL SHIPYARD.

Report of Superintendent W. S. Jackson.

At the commencement of the fiscal year April 1, 1918, the winter repairs and renewals to the St. Lawrence Ship Channel fleet and the Construction of Lights Department vessels were nearly all completed and the outfitting in progress, engaging of crews for the new season's work, etc.

The Richelieu river was clear of ice on April 7, 1918, and the St. Lawrence at Sorel, on April 14.

The first dredge of the first fleet went into commission from Sorel on the 1st May, 1918.

During the season vessels were all maintained in a good and serviceable condition, and the necessary repairs carried out without undue detention to the working of the vessels.

The principal construction carried out by the Shipyard was as follows:—

NEW CONSTRUCTION.

Single-screw steel trawlers, yard Nos. 70 and 71 (Lot A. B. C. Tr. 33, 34). for the Director of Ship Construction, Montreal.

The hulls, engines, and boilers of both ships were made in shipyard.

No. 33 was completed in December, 1917, but owing to early ice, was held in Sorel.

No. 34, also a 1917 construction, was finished in the fall of that year, with the exception of the boiler, material for the same not being delivered, the vessel had to winter in Sorel. In the spring of 1918 both ships left, after satisfactory steam trials on the 26th May and the 26th June, respectively.

Three single-screw steel trawlers, yard Nos. 75, 76, and 77 (Lot B. Tr. 51, 52, and 53), for the Director of Ship Construction, Montreal.

The hulls were all constructed at this shipyard, and engines for *No. 52* and *53*, the engine for *No. 51* was supplied by the Sorel Mechanical Shop, and the boiler by the Dominion Bridge Company.

Nos. 52 and *53* received boilers from the Canadian Allis Chalmers, Toronto.

Nos. 51 and *52* were completed and had satisfactory steam trials prior to leaving this yard for Quebec on the 20th November and 4th December, 1918, respectively.

No. 53 wintered in Sorel, when she was completed and ran satisfactory steam trials on April 19, 1919. She now remains in our charge awaiting further orders from the Director of Ship Construction.

A steel derrick of 8-ton lifting capacity for C.G.S. *Concretia*, was contracted for on February 6, 1919, and completed at this yard 15th March, 1919. All of steel, including latticed booms, and weighing net 4·16 tons.

BUOYS.

During the fiscal year 1918-19 we have constructed and shipped to various destinations, nineteen buoys of different designs, beside supplying to the buoy service in general fittings and material, such as anchors, rods, shackles, slings and chains, hooks, chisels, etc., during the season. Repairs were also made to winter buoys.

NAVAL SERVICE DEPARTMENT.

A considerable amount of work was done in the way of completing the hulls, cabin work, machinery, electric installation, piping, painting, etc., on trawlers *Nos. 8* and *23*, and others.

ST. LAWRENCE SHIP CHANNEL.

Work was done for this branch such as making and repairing gauge boards, iron posts and caps, and supplying timber, etc., also necessary repairs to the yacht *Yinkin* and catamarans.

PRIVATE FIRMS.

United States Shipping Board.—The following vessels were hauled out on the ways for repairs:—

Tug *J. B Saunders* on May 9, launched May 20.

Tug *Kentucky*, on May 2, launched May 4.

Sincennes McNaughton Line.—The tug *Felicia R* was hauled out on the ways on August 6 for repairs, and launched on August 9. The *Alaska* was hauled out on April 24, and launched April 30.

This firm has also the use of shear legs several times during the season. Some welding was also done to boilers of tugs.

The barge *Reliance*, belonging to J. .G Morgan, Esq., was hauled out on the ways on November 21 for repairs, and launched on November 29.

Canadian Vickers, Ltd.—Construction of two marine boilers 15 feet 6 inches diameter, including boiler mountings, smoke box, and Howdens forced draught, etc. Dredge *No. 16*, pumping, clearing snow, tuning main engine by hand, and watching.

GENERAL.

The shipyard launches *Bronx* and *Leros* were maintained in good order and painted.

All the fences were kept in good order and whitewashed during the season.

The shipyard ways and wharves were repaired and kept in good condition.

The force employed during the fiscal year averaged 642 men daily.

The financial statement shows the total amount expended in the shipyard and Ship Channel to have been $496,245.44.

EXPENDITURE AND REVENUE.

METEOROLOGICAL SERVICE.

REPORT OF SIR FREDERIC STUPART, DIRECTOR.

Meteorological returns have been received at the Central Office from 611 stations, exclusive of 112 storm signal stations. Twenty-seven stations have ceased reporting during the year, while, on the other hand, thirty-one have been added to the list.

The following are the new stations, together with the names of the observers:

Station.	Observers.
Rampart House, Yukon	Constable C. B. Tidd, R.N.W.M.P.
Swede Creek, Yukon	James R. Farr.
Bamfield, B.C.	F. R. Shenstone.
Blind Channel, B.C.	Frank W. Allen.
Chemainus, B.C.	R. Jarrett.
Merritt, B.C.	W. H. Boothroyd.
Osoyoos, Fairview P.O., B.C.	George J. Fraser.
Athabaska, Alta.	James H. Taylor.
Stettler, Alta.	A. G. Fox.
Stry, Alta.	George Bell.
Vegreville, Alta.	P. C. Litster.
Youngstown, Alta.	J. E. Strong.
Coulee, Sask.	T. F. Blefgen.
Macklin, Sask.	L. C. Holdsworth.

Barrington Passage, N.S.	R. V. Ridges.
Harmony Mills, N.S.	
Springhill, N.S.	H. Peppard.
Bathurst, N.S.	Bathurst Lumber Co.

CENTRAL OFFICE

Weather forecasts have, as in the past, been issued from the Central Office twice daily throughout the year for all parts of the Dominion, exclusive of British Columbia, for which province they are issued from Victoria, B.C. In addition to the Dominion forecasts, a bi-daily bulletin is wired to Newfoundland and disseminated widely in that colony. At the request of the British Air Ministry a special bulletin with forecast included has, since March, 1919, been wired twice each day to an officer of the Royal Air Force in St. John's, and very great care has been exercised to make these bulletins of value to aviators. The percentage of verification of Canadian forecasts exclusive of British Columbia has been 86.4.

The Monthly Meteorological Record is now printed as promptly after the close of each month, as the receipts of reports from the more distant stations will allow, and mature consideration has confirmed the wisdom of adopting this monthly form of publication in place of an annual climatological report. The monthly map has been continued in its old form, and nothing better has been

suggested by the agriculturists whose requirements it is intended to serve; also as means of retaining the service of voluntary meteorological observers it serves a most useful purpose, as these most valued persons greatly appreciate the Dominion-wide information it contains regarding weather conditions.

The Daily Map is now eagerly looked for by an ever-increasing number of persons interested in meteorological phenomena.

For various duties in connection with the service 390 persons, chiefly observers, have been in receipt of pay, and of this number 37 were employed in the Central Office.

During the season of navigation storms were not of frequent occurrence on the Great Lakes. Twenty-one gales were recorded, and of these only five reached the force of fresh or heavy in some localities, while others just reached gale force and were not of a general character. In the St. Lawrence fifteen gales occurred, most of which were quite moderate. In the Maritime Provinces there were thirty gales, the heaviest of which attended the passage of a disturbance across Cape Breton on the 14th of November.

The percentage of verification of storm warnings was 81.6.

PHYSICS BRANCH.

The work of this Branch had been practically in abeyance during the past year, partly owing to the absence from the office of Mr. J. Patterson, M.A., who has been engaged with the Department of Invention and Research of the British Admiralty, and partly from the fact that owing to increased duties with the Forecast Branch, the Director has been unable to give time to atmospheric research work. Mr. Patterson will shortly be relieved from Admiralty work, and steps are being taken to augment the Forecast staff, which, through unexpected events, has been temporarily crippled.

AGRICULTURAL METEOROLOGY.

The results from the experimental wheat plots on the Dominion Experimental Farms during the year 1918, have been received, forming the fourth annual series. The results of observations by correspondents of the Dominion Bureau of Statistics on the occurrence of certain vegetative epochs in respect to spring wheat throughout the Dominion during 1918 have also been received from the Bureau. The greater part of some 2,000 correspondents answered more or less fully the questions presented, a summary of the information obtained having been published in the Bulletin of Agricultural Statistics. A detailed comparison of this data with the corresponding meteorological data is now being made and progress will be reported in an early number of the Bulletin of Agricultural Statistics.

Statistical studies of the yield of oats and the weather in the Maritime Provinces and Ontario since the year 1880, have also been carried on. If the statistics of yields in the earlier years are entirely trustworthy, then the relation between the weather changes and the yields of oats is more obscure than in the case of spring wheat. A comparative study in detail of the two years 1915 and 1916 has afforded material for interesting inductions. 1915 was almost universally a good year for cereals, while 1916 saw an almost universal decrease in yield per acre, amounting in many cases to 50 per cent of the 1915 yield. From these comparisons it would appear that very early sowing of oats is essential in Ontario, and that a subsequent large yield is favoured by a uniform gradual growth of the straw. Rather cool weather and a moist soil, with no extreme variations from the normal weather are necessary.

INSPECTION OF STATIONS.

The following stations were inspected: Southampton, White River, Port Arthur, Fort William, Winnipeg, The Pas, Prince Albert, Battleford, Qu'Appelle, Moosejaw, Swift Current, Medicine Hat, Calgary, Edmonton, Banff, Kamloops, Vancouver, Prince Rupert, Victoria, Sherbrooke, Barachois, Point St. Peter, Corner of the Beach, Percé, l'Anse au Beaufils, Cape Cove, Grand River, Gaspé, Harrington Harbour, Natashquan, Esquimaux Point, Deseronto.

MAGNETIC OBSERVATIONS.

During the fiscal year ending March 31, 1919, photographic records of the daily changes in the magnetic elements were obtained without material loss. At Agincourt the declination, horizontal force, and vertical force are recorded, and at Meanook the declination.

During excessively cold weather some difficulty has been experienced in keeping the driving mechanism in operation at Meanook and to overcome this, and also to make provision for installing more complete equipment, it has been proposed to construct an underground room to house the clocks and differential instruments.

Tables showing the magnetic character of each day of the year are sent to the International Commission on Terrestrial Magnetism. An analysis of the reports received from all magnetic observatories in the world is made by the commission, and a report issued giving the five most quiet days each month and the five most disturbed days, and in conformity with the request of the commission these days are used in analysing the magnetic data obtained at both Agincourt and Meanook. The final results for the year 1916 are now in the hands of the printer, and those for 1917 are in course of preparation.

A summary of the results of observations for both Agincourt and Meanook are published in the transactions of the Royal Society of Canada and in the Journal of the Royal Astronomical Society of Canada.

At the request of the Surveyor General, index corrections for the compass attachments on sixty-eight surveyor's theodolites were determined at Agincourt and the results sent to him. Assistance was also given to members of his staff in standardizing their total force instruments at Agincourt both before and after their field work, and instructions as to the method of observing.

Assistance was given to Mr French, of the Dominion Observatory, in standardizing his magnetometer both before and after his field work.

A special report on the changes taking place in the magnetic elements during the solar eclipse of June 8, 1918, was made to Dr. Bauer, Director of the Department of Terrestrial Magnetism, Carnegie Institution, Washington, which he has included in his paper published in " Terrestrial Magnetism," Vol. XXIII, Nos. 3 and 4, on " Results of Magnetic observations made during the Solar Eclipse of June 8, 1918."

The accompanying tables give a summary of the results obtained at Agincourt and Meanook for the fiscal year 1918-19.

Magnetic disturbances were of frequent occurrence. The most pronounced were on the following dates: 1918—April 4, 5, May 16, 17, June 9, 10, August 15, 16, September 21, October 15, 16; 1919—February 27, 28, March 20, 21, 22,

TIME SERVICE.

During the year ended March 31, 1919, 57 determinations for time were made by transit of stars, in the meridian, with the 3-inch Troughton & Simms transit instrument. The position of the stars has been taken from the American Ephemeris. The instrumental errors in collimation have been determined by reversal upon Polaris and in conjunction with the determination of the instrumental azimuth by star transits in reverse position of the axis, using the method of least squares in their computation.

Time, as usual, has been given over the telegraph and telephone lines to all inquirers. The various clocks have continued to perform their functions satisfactorily, and the instrumental equipment generally continues in a fine condition of adjustment and stability.

During the war several ship's chronometers have been rated and tested for use on the vessels constructed here, also a number of aneroid barometers and various articles of equipment of the soldiers have been examined and corrected when necessary.

The usual time exchanges between Toronto and Quebec, Montreal and St. John, N.B., have been made, being recorded on the chronographs at Toronto,

Montreal, and St. John. The errors of the clocks have been computed from the latest observations.

The 11.55 a.m. signals have been given over the fire alarm systems throughout the year.

Time has been given weekly to the magnetic observatory at Agincourt and the Canadian Northern Railway system out of Toronto.

The mean time clock system throughout the observatory was adjusted to daylight saving time by moving the hands forward one hour at 1 p.m., April 13, 1918.

SOLAR OBSERVATIONS.

The sun was observed on 153 days, and on all of these days spots were visible. Maps were made with the 6-inch refracting equatorial telescope, using a 50-power eyepiece, the projected image being 5 inches in diameter. The mean sun-spot relative numbers for the months of the civil year ending December 31, 1918, were: January, 80·9, February 48·2, March 70·2, April 81·5, May 66·5, June 49·2, July 101·3, August 91·8, September 81·2, October 87·5, November 79·7, December 57·1, yearly mean being 74·6. These relative numbers are computed from Wolf's formula, $r=10\,g+f$ where g is the number of groups visible on any day, and f the total number of spot, whether they were in the groups or isolated.

The following table will show the differences between the times at the several observatories and that at Toronto. The sign + indicates slow of Toronto.

Date.	Montreal.	Quebec.	St. John, N.B.

SEISMOLOGICAL OBSERVATIONS.

The seismographs at Toronto and Victoria have been kept in successful operation throughout the year and have yielded some very interesting seismograms. No change has been made in the adjustments of the instruments, the booms being kept at a period of 18 seconds.

Record was made of 134 quakes, which is 44 per cent more than usual. Of these, 102 were less than one mm. amplitude, 20 of a moderate character and 12 were large. The largest occurred on:—

April 21, with epicentre in the San Jacinto Valley, Cal.
May 20, with epicentre in Chili.
May 23, with epicentre in Alaska.
August 15, with epicentre south of the Phillipine islands.
October 11, with epicentre off the island of Porto Rico.
November 8, with epicentre north of Japan.
December 4, with epicentre, Chile.
December 6, with epicentre off the coast of Vancouver island.

The quake of August 15 was followed by a tidal wave which swept the Malay archipelago and the islands of the Pacific. A tidal wave also followed the quake of October 11 causing a large loss of life and property over the greater part of the island of Porto Rico. During the Vancouver quake of December 6, the powerful light on the Estevan lighthouse was temporarily put out of commission by the mercury being shaken out of the lens table so that the lens could not revolve until new mercury was supplied.

We continue to forward abstracts of all our observations to various seismological centres throughout the world, and copies of the principal disturbances to the chief seismological observatory of the British Association at Shide, Isle of Wight. We also publish the records in several journals, and on request furnish the Associated Press with information regarding the character of any large disturbance and the distance from Toronto to the epicentre as ascertained from the time of arrival of the various waves. The Toronto evening papers are sometimes furnished with copies of the disturbances.

I hope shortly to replace the present Milne instruments which are considered obsolete, with the new type as adopted by the British Association at a large number of their stations; and also to equip the magnetic observatory at Meanook, Alta., with a similar type of instrument. The old Milne instruments fail in a great number of cases to register the preliminary waves of distant quakes. The study of these waves is of considerable importance at the present stage of seismological investigation, as they afford the means for increasing our knowledge of the structure and formation of the interior of the earth, and it is desirable that they be distinctly recorded. The new type of instrument fulfils these conditions.

PHENOLOGICAL OBSERVATIONS.

Reports of phenological observations giving the dates of ploughing, sowing and reaping of grain, also the first flowering of plants, etc., together with the dates when becoming common were received from forty-seven stations throughout the Dominion. These observations indicate very fairly the climatological conditions and their effect in the districts from which reports were received. In addition to these reports schedules of average dates for similar phenomena in Nova Scotia were kindly supplied by Dr. A. H. Mackay, Superintendent of Education for that province. Mr. W. H. Magee, Inspector of Schools for Saskatchewan also kindly supplied schedules prepared at several schools under his inspectorate. The collection and preparation of these statistics for publication is in charge of Mr. F. F. Payne.

Appendix "A".

The Director of the Quebec observatory reports as follows:—

All the usual meteorological observations, as well as those for calculating the correct time have been done as in the past, and I have on all occasions, inasmuch as possible, given to the public, information concerning the time, weather conditions, etc.

The time-ball, which has been put in good order in the spring of 1918, has been operated during the whole of navigation season which ended about the end of January last; but owing to exceptionally favourable weather conditions during the rest of the winter, and as the noon-gun had been discontinued since the beginning of the war, I have deemed it my duty to continue the dropping of the time-ball. It is still in operation, but during the course of my last inspection, at the end of March, I have found that it needed some repairs.

Since the 29th of March last, the military authorities on the Citadel have resumed the firing of the noon-gun for which signals are given from the observatory. The gun is also fired at 9.30 p.m. every day.

I deem it my duty to draw your attention to the present condition of the observatory buildings.

In November, 1913, the Resident Engineer of the Public Works Department at Quebec, after making a personal inspection of the buildings, informed me that he had reported to his department that they were in such a bad state of repairs as not to be susceptible of any profitable alterations or improvements, and that he had advised his department that a new building was necessary.

Owing to war conditions, no action was taken on this report, and during the six years which have elapsed since that date, no repairs of any kind have been made, and conditions have not improved.

I would respectfully suggest that this question be taken up as early as possible with the Department of Public Works, with a view of arriving at a satisfactory solution of this question.

The observatory is situated within the National Battlefields park, and occupies a space of 300 feet by 200. The grounds have never been fenced and it would be necessary for the protection of the various instruments lying in the open, that a suitable fence be erected, in order to prevent their being tampered with by the public visiting the park.

I would also suggest that some arrangements be made in order to have the grounds of the observatory properly looked after and maintained in keeping with the National Battlefields park.

Appendix "B".

The Director of the St. John, N.B., observatory reports as follows:—

No changes of importance from my previous report have been made in the meteorological equipment or the exposures. The tri-daily observations have been continued without interruption at equal intervals of six hours, commencing at 9 a.m. The eye-readings of the standard instruments made at these intervals serve the purpose of checking the electrical and autographic recorders from which hourly values are tabulated, as well as for the messages wired night and morning to Toronto for use on the synoptic chart. All the meteorological apparatus and instruments have been maintained in satisfactory condition. Frequent changes of the anemometers and wind vanes both at St. John and Point Lepreau have been made to ensure best results, duplicates being kept in repair for this purpose.

The wind station at Point Lepreau gives valuable record of direction and velocity for that portion of the bay of Fundy. The record sheets from the anemograph being sent here weekly for analysis and tabulation.

Comparison of instruments for engineers, the military and others has been made, as well as chronometers timed and rated for the Navy.

The monthly reports received from all the observers in the Maritime Provinces have been carefully checked and in most cases sums and mean values extracted. After abstracting the necessary statistical and climatological data for our record books, these returns are forwarded to the Central Office. Inquiries by letter and telephone from shippers, transportation companies, engineers and others, have largely increased and in some instances a considerable amount of clerical work is caused by these requests for information. During the past year these inquiries have been exceptionally numerous. Innumerable daily telephone calls are made for the weather forecasts, the time, and other information pertaining to this office.

The weather bulletin received each week-day morning from Toronto has been issued with the least possible delay, is posted in public places, distributed through the mails and published by the evening papers. The synopsis, giving movement of important changes throughout the continent and prevailing weather and atmospheric conditions at the different stations adjacent to our

coasts, and the forecasts for following days are of the highest importance to mariners, shippers of perishable goods and various other commercial and personal interests. Numerous telephone calls are daily received for the forecasts and other information pertaining to the weather.

In addition to our daily local report the press is frequently furnished with information, especially during the stormy season or when periods of extreme or unusual conditions prevail.

TIME SERVICE.

Observations for time with the 3-inch O. G. Troughton & Simms transit telescope have been made on clear nights. All observations are made with the transit micrometer, reversing to eliminate collimation and pivot error on each star, nine contacts being made in each position of the axis and records from these contacts recorded on the chronograph along with the seconds of the observing clock in the usual manner.

The rates of the sidereal clocks have been small and steady, particularly that of the primary sidereal, which is run under constant pressure and temperature. The sealing of this clock has remained absolutely perfect, and no use of the air pump has been required for the past three years.

Comparisons of the mean time and sidereal clocks are made on the chronograph and any small correction necessary to the mean time transmitting clock is made by the electrical application of small weights as heretofore reported.

The Time Balls at St. John and Halifax have continued in operation each weekday throughout the year. With the introduction of the so-called Daylight Saving time authorized by Parliament, our mean time clocks were advanced one hour from Atlantic Standard Time and the Time Balls dropped accordingly. But, owing to the objections of the Admiralty, the Time Balls reverted to Atlantic Standard Time on the 1st of August, and have since been dropped by that standard.

The master clock in Halifax was cleaned and adjusted in September, and has since continued to give most satisfactory service. While the clock is not of the highest order of precision, it has a well compensated pendulum, and its error, which is daily corrected by the synchronizing signal from our standard mean time clock, is inappreciable for its duty of automatically dropping the Time Ball, firing the time gun and hourly synchronizing clocks electrically connected with it in Halifax.

The daily time signal has been telegraphed to all Western Union offices in the Maritime Provinces and is the standard time for this portion of the Dominion.

The principal chronometer and watch adjusters in Halifax have sounders on their premises connected by wire with the Western Union office there and receive our 10 a.m. time signal daily. Some installations of electric clocks in Halifax use this signal to automatically synchronize their master clocks. In St. John the system of hourly synchronizing tower, street, and office clocks continues to give most satisfactory and useful results. A special wire from the Observatory to the local telephone office operates the various clock line relays. The telephone company makes a nominal charge for this wire service, which is well taken care of.

APPENDIX " C."

The Director of the Gonzales Heights Observatory, Victoria, B.C., reports as follows:—

During the past year the regular meteorological observations have been taken and the weather forecasts have been issued twice daily, except on Sundays. The sphere of usefulness of the latter has been considerably extended, for since May, 1918, these forecasts have been issued daily for the Kamloops and Kootenay

districts, as well as being published in the press of Vancouver island and the Lower mainland. These forecasts are of particular value to fruit growers respecting the probable advent of early and late frosts. Storm warnings have been displayed at Victoria, Nanaimo, and Vancouver, in advance of important ocean storms, and special weather reports sent to owners of small towing and fishing craft.

A monthly summary of the weather conditions obtained from our British Columbia telegraph stations has been regularly published in the press of the province.

During the summer months the Provincial Forestry Department was advised of coming hot spells which were likely to cause an increase in the number of forest fires.

Daily river observations were taken at Yale during the past spring and summer months, and information during certain periods of probable flooding in the Lower Fraser valley was given to the press of the Lower mainland.

The monthly weather reports received here from 135 stations in British Columbia have been regularly checked, entered in our register, then forwarded to you for publication. Weather reports are also received from seventy-three provincial stations. These are treated in a similar manner.

TIME SERVICE.

Regular star transit observations have been taken, and accurate time has been maintained. The time-ball on the Belmont building has been regularly dropped daily at 1 p.m. (Sundays included) from this office. Time is also frequently furnished by telephone to certain large institutions who are not able to see the ball, including the Dominion Astrophysical Observatory.

At 10 a.m. daily the time is sent by wireless through this office to all wireless stations within a radius of 300 miles. This time is also picked up by the various ships both at sea and in the harbours within the above radius.

During the past year nearly 1,000 visitors, including many students, have been shown through this observatory; they have been delighted with the magnificent view from the roof, and were deeply interested in the delicate instruments installed here.

The correspondence here is steadily increasing, including numerous inquiries respecting climatic conditions in various parts of the province.

SEISMOLOGY.

During the past year 130 earthquakes were recorded here, while in 1917-18 the number was 114. The greatest number occurred in September, 1918, and was seventeen, while the smallest monthly number was four in February, 1919.

On December 31, 1918, the East–West Milne seismograph has been in continuous operation for twenty years, and during that period 1,624 quakes have been recorded here. I have also obtained from this instrument the slow daily movement of the pendulum for the entire period amounting to 7,300 observations. These readings have been reduced to monthly and annual means, and from the latter a normal for these twenty years has been obtained. The following table shows the yearly departure from normal, the plus sign represents an easterly movement and the minus a westerly swing. The annual number of recorded quakes is also shown in another column.

From these figures it appears that generally during years when the pendulum is farthest from the normal or zero that the largest number of quakes are recorded. The most marked correspondence is shown in 1900, 1906, 1910, and 1918. These may be termed years of abnormal earth unrest; while in 1904, 1908, and 1913 normal conditions prevail and fewer quakes are recorded. The

larger number of quakes recorded from 1914 to 1918 is partly due to the ideal rock foundation obtained at the present site, which had been in use since April, 1914.

Respecting the vertical seismograph, which records on smoked paper, I have designed and installed for it a very sensitive electro-thermostat, which automatically keeps the temperature of the inner chamber (75 degrees) constant to within one-tenth of one degree F. This fine adjustment ensures a constant record throughout all seasons of the year.

In conclusion, I would respectfully urge that the Milne-Shaw type of British seismograph asked for last year in my previous report be purchased, in order that even more efficient results may be obtained. In connection with this, I may say that special cushioned floors were introduced in all the basement rooms, and fine cement piers erected for these delicate seismographs when the Observatory was built.

Appendix "D".

The Director of the McGill University Observatory, Montreal, reports as follows:—

The uninterrupted routine required for systematic meteorological observations has been followed. "Carry on" has been the watchword of the year. The unrest of the times and minor considerations prompted a rigid observance of economics, without which we should have been glad to note additions to our equipment and activities.

The work, as in former years, has been in the making of the meteorological observations and regular reports prescribed by the Meteorological Service, the supplying of time signals to a very large public and the meeting of growing demands from a large city for such information as may be expected from such a station in its midst.

Continuous records of the pressure and temperature of the air, the direction and velocity of the wind, the rainfall, humidity, and hours of bright sunshine have been taken from the automatic registers. The regular readings of the

standard instruments have been made and the telegraphic reports and returns on prescribed forms to the Meteorological Office we trust have been satisfactory.

The local press has been regularly supplied with summaries of each day's weather in the form of bi-hourly readings. Special information on any question involving questions of local weather or climatic data is given the press or public on demand. One hundred monthly abstracts of the weather are printed for free distribution.

The daily forecast, received from the Toronto office is available for the public by 11 a.m. The Daily Bulletin follows a few hours later. The Daily and Monthly Weather maps and the Monthly Record are accessible. All demands for information are immediately attended to. In a large city the requests are various.

Progress has been made on the digesting of accumulated data of the past forty-five years into a systematic arrangement of the numerical climatic normals for Montreal. The question of publication of this will be broached later.

The revenues and expenditures of the observatory pass through the hands of the Bursar of the University; the former, consisting of the grants and rentals given from the Meteorological Service and the subscriptions for time signals from the corporations and parties receiving them, under former arrangements at times were insufficient to prevent a deficit. The cost of materials and living has increased. Without growing revenues, economy, which is irksome, has been necessary.

The financial statement of the Bursar cannot be completed before June 30, but we are hopeful of seeing no discredit.

The offices prove sufficient for present activities. The question of drastic heating re-arrangement must be met. During the past comparatively mild winter, the steam radiators required supplementing by gas grates and electric heater. The fuel charge is thus much too high for the comfort attained in cubic feet. The heating engineer of the University is now convinced of the fact.

The writer has rented his quarters in the observatory residence and finds this of advantage. An extension telephone to his quarters gives frequent opportunities of answering inquiries out of office hours.

The staff consists of a young lady in the office, the writer and assistant who is a science graduate of the University and acts part time as Demonstrator in the Surveying Department.

The promptness with which all requisitions of needed supplies from the Meteorological office or the University have been met is appreciated. The services of the G.N.W. Telegraphic Company have been more satisfactory than in the past. The honour of several visits from the Director of the Meteorological Service is recalled with pleasure.

The adoption of the Daylight Saving Time proves of no inconvenience. Those records from which the more important diurnal values may be derived are recorded as formerly, on Standard solar time.

The Callendar Patent Electrical record of differences of temperature between the summit of Mount Royal and the observatory thermometer screen, is kept in operation. New and more efficient storage batteries have been installed. Tests are intended to ascertain the reliability of the record under the cable conditions, and further analyses of the records may remove a present suspicion that the investigation is somewhat futile.

The outstanding features of the weather have been the wet period in September and October of 1918 and the mildness and uniformity of the winter just past.

In connection with the rainfall records, valuable information, especially from an engineering standpoint, would be derived from the installation of gauges at scattered points in the city and suburbs. Competent parties to attend these,

engineers and others, would gladly give their services gratis and comparison of synchronous records would be most interesting. Hellmann's results from measures made within a 10-mile radius at Berlin give some idea of discrepancies met elsewhere. The great differences in rainfall over various parts of the island of Montreal are not unknown but as yet insufficiently investigated. Time Service: Determinations of clock errors have been made by observations of 560 star transits on 104 nights. The sidereal clocks, Riefler No. 191 and Ballou No. 102 have performed satisfactorily. The Riefler clock is kept sealed and allowed to run on a present rate of 0.030s. per hour. The high rate presents no disadvantage as it keeps nicely. A much smaller rate may of course be attained by changing the air pressure on the pendulum. An electrical heater installed in the clock basement has been of advantage. The passage of tunnel trains, a few hundred feet distant, may be heard but, since the cessation of blasting operations, an assignable effect on the clocks has not been found.

The Troughton & Simms transit with electrically recording micrometer, enables careful time determinations to be readily made in which the probable error of the mean may not, at times, exceed —0·02 sec. for a set of 6 or 8 stars.

The Howard clock, which is regulated to transmit the Standard Time signals, is still in service. The pendulum is a very heavy one with steel and zinc compensation and a most faithful time keeper. The clock has been running steadily for 43 years, subject only to minor repairs, the additions of various contact breaks for the signals and clearings. It is showing certain defects, which we propose to remedy, and a second Howard clock is at present being fitted with similar attachments for the signals, to afford opportunities for experimentation with the old one.

The Canadian Pacific and Grand Trunk railways continue, as in the past, to utilize our signals, and, as well, a number of city jewellers, the various city stations, and the shipping.

The dropping of the Harbour Commissioners' noon time-ball has been carefully observed on all week-days. At certain times in the past winter no current in the loop made our good intentions to give the signals fruitless, but the responsibility, in each case, was found to rest with the outside lines. We again recommend that the Harbour Commissioners expose this time-ball at a site visible to the shipping. The present site is obscured from the view of a great part of the vessels in port at any time.

The results of sixteen time exchanges with Toronto Observatory have been recently submitted.

In times of peace ahead and among those measures of reconstruction to come, we hope for this observatory a larger place in the sun.

To this end, as one of the chief stations of the Meteorological Service of Canada, we trust that that Service prospers as it deserves.

REPORT OF THE MEDICAL SUPERINTENDENT OF MARINE HOSPITALS SERVICE FOR THE FISCAL YEAR 1918-19.

In the whole history of this branch of the Public Service, the year which terminated on the 31st March, 1919, was unquestionably the most active. Spanish influenza and its resultant diseases, which caused such terrific ravages throughout Canada and other countries in the latter part of September and during October and November, 1918, was very seriously felt amongst mariners, both on the Atlantic and Pacific coasts. On certain vessels as many as two-thirds of the crews were stricken with the disease.

As the epidemic occurred at the very time when shipping was most active, a large fleet of vessels being then employed in carrying foods and war materials for the troops overseas, there was a great danger that navigation would be tied up; however, on account of the great energies displayed by our medical officers and port physicians, such a disaster was avoided, and shipping experienced very little delay. I beg leave to be allowed to submit that great praise and credit is due to these officials for their excellent work.

It is also very gratifying to report that the death-rate amongst mariners, from the epidemic, was remarkably low. The greatest number of cases in which the result was fatal were those of seamen who were taken ill at sea, several days before they could be landed and taken to the hospitals. They were therefore deprived of proper care and treatment at the very time when these were most essential to promote recovery.

Soon after the outbreak of the epidemic our regular hospitals filled up to capacity, and in order to accommodate the ever-increasing number of new patients it became necessary to open emergency hospitals. In other instances surgical cases had to be removed to private hospitals, to prevent the patients from contracting the disease.

Owing to this epidemic, and in view also of the fact that at some of the larger ports, viz., Halifax, St. John, Montreal, etc., the per diem rate for hospital treatment had to be increased in order to meet the increasing cost of foods, help, etc., the amount of $75,000 voted by Parliament was insufficient to cover the whole expenditure, and consequently a great number of accounts had to be transferred and paid out of the appropriation for 1919-20. However, an amount of $22,500 was placed in the estimates for this year to cover this unforeseen expenditure.

The number of sick mariners who received treatment during the year 1918-19 was 3,167, as compared with 2,102 for the previous year.

The total number of hospital days was 34,340.

The number of vessels which paid Sick Mariners' Dues was 2,985, and the membership of crews 68,920.

The following statement gives the number of seamen treated, and the number of days of hospital treatment, at the larger ports.—

	Seamen.	Days.
Montreal—		
General Hospital	609	5,464
Notre Dame Hospital	103	1,316
Harbour Emergency Hospital	123	1,782
Quebec—		
Jeffrey Hale Hospital	140	2,181
Hotel Dieu Hospital	14	317
Civic Hospital	4	39
Levis, Hotel Dieu Hospital	26	348
New Brunswick—		
St. John General Public Hospital	178	2,530
Board of Health	32	469

	Seamen.	Days.
Nova Scotia—		
Sydney Marine Hospital	324	7,664
Halifax Victoria General Hospital	163	2,446
Yarmouth	124	1,179
Prince Edward Island—		
Charlottetown Hospital	12	261
Prince Edward Island Hospital	5	28
British Columbia—		
Prince Rupert General Hospital	70	705
Vancouver St. Paul's Hospital	144	2,837
Victoria St. Joseph's Hospital	83	1,239

The total expenditure on account of Marine Hospital Service for 1918–19 was $73,291.17, with the following distribution, by provinces:—

Quebec	$ 22,883 15
New Brunswick	7,170 43
Nova Scotia	28,171 51
Prince Edward Island	1,456 10
British Columbia	9,145 85
General Account	428 59
Naval Service	3,921 94
Ship Channel	113 60
Total	$ 73,291 17

REPORT OF L. A. DEMERS, WRECK COMMISSIONER.

Formal investigations during the year	31
Departmental investigation	1

During the calendar year 1918 there were 226 casualties reported to the department, the tonnage of the same being 312,928, and the stated damage $1,818,895, while 402 lives were lost.

Of this total number of casualties 180 were to coasting and sea-going vessels, the tonnage of the same being 280,528, and the stated damage $1,713,795, 402 lives were lost, 46 of the casualties were to inland vessels, the tonnage of the same being 32,400, and the stated damage $105,100.

In 129 cases of casualties to coasting and sea-going vessels and 24 cases of casualties to inland vessels the amount of damage is not stated; 70 of the casualties to coasting and sea-going vessels, made up of 27 steam and 43 sailing vessels, resulted in total losses, and of this number 60 were Canadian, two British and eight foreign vessels.

Seven of the casualties to inland vessels resulted in total losses; all were Canadian vessels.

Casualties are given under the following headings:—

Coasting and Sea-going Vessels.

Collisions	30
Founderings	28
Missing vessels	3
Miscellaneous accidents: fire, loss of sails, etc	20
Strandings	79
Vessels sunk by submarines	20

Inland Vessels.

Collisions	17
Founderings	4
Miscellaneous accidents	8
Strandings	17

STATEMENT of investigations into wrecks and casualties which occurred to Canadian, British and Foreign vessels, held during the fiscal year 1918-1919.

Name of Ship. Official Number and Registered Port.	Remarks.
Aikoku Maru..... Japanese.	On June 12 stranded on Kelp reef, Hare straits, British Columbia. Formal investigation was held at Victoria on June 21 and 22, before Capt. John D. Macpherson, Wreck Commissioner for British Columbia, assisted by Capt. D. S. Jones-Evans and Capt. A. C. Cooper, acting as nautical assessors. *Finding.*—No one to blame; accident due to abnormal strong ebb tide.
Afghan Prince..... 118617 Newcastle.	On July 30 stranded near Guion island, Cape Breton. Formal investigation was held at Sydney, on September 13, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Capt. A. J. Morrison and Lieut. H. C. Owen, acting as nautical assessors. *Finding.*—Master, Robert Milliken, severely reprimanded and advised to be more cautions in future.
Brookdale (barge)..... 137968 Montreal. Escort (tug)..... 97010 St. Catharines.	On June 8 barge *Brookdale* collided with N.S. & T. Bridge, at Thorold, Welland canal, whilst in tow of tug *Escort*. Formal investigation was held at Toronto on November 21 and 22, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Capt. J. R. Foote and Capt. Jas. McMaugh, acting as nautical assessors. *Finding.*—Master of the tug *Escort*, William Wright, found in default for not ascertaining that bridge was not opened. His certificate is suspended for six months.
Boeroe (transport).....	Her cargo was damaged by water, between Montreal and Quebec. Formal investigation was held at Quebec on September 26, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Captains Chs. Koenig, Chas. Lapierre and W. F. Fletcher, acting as assessors. *Finding.*—Damage to floor in Nos. 2 and 3 holds due to the fact that a connection had been made from the sea through the main bilge lines to No. 2 hold.
Brookdale (barge)..... 137968 Montreal and Escort (tug)..... 79010 St. Catharines.	On June 7 collided with Welland bridge. Formal investigation was held at Toronto on November 21, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Capt. J. A. Foote and Capt. Jas. McMaugh, acting as nautical assessors. *Finding.*—Both masters severely reprimanded.
City of Vienna..... 135577 Liverpool.	On July 2 stranded near Sister ledges, Sambro, N.S. Formal investigation was held at Halifax on July 8 and 9, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Com'dr. G. E. Bridge, R.N.R., and Lieut. J. L. Poppleton, R.N., acting as nautical assessors. *Finding.*—Master not in fault, but he committed an excusable error of judgment in not stopping his ship when hearing Sambro fog signal.
Celtic Prince..... 140718 Newcastle.	On July 8 stranded on Barnaby islands. Formal investigation was held at Montreal on July 31 and August 9, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Capt. Chs. Lapierre and Capt. F. Nash, acting as nautical assessors. *Finding.*—Master, Alf. H. McKegg, censured for error of judgment in proceeding at half speed in such shallow waters.
Corinthian..... 111257 Glasgow.	On December 14 wrecked on Briar island. Formal investigation was held at St. John, N.B., on December 29, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Capt. Jas. Everett and Capt. A. J. Mulcahy, acting as nautical assessors. *Finding.*—Loss of vessel directly attributed to indifferent navigation on part of master and first officer. D. T. Tannock's certificate as master is suspended for three months, and also certificate of chief officer, Bland B. Simpson, for six months.
Dornfontein..... St. John, N.B.	On August 2 was shelled by submarine in the bay of Fundy. Formal investigation was held at St. John on September 14, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Capt. A. J. Mulcahy and Capt. Jas. Hayes, acting as nautical assessors. *Finding.*—Master, Chs. E. Dagnell, gravely negligent in not destroying papers. His certificate is suspended for the duration of the war.

SESSIONAL PAPER No. 21

STATEMENT of investigations into wrecks and casualties which occurred to Canadian, British and Foreign vessels, held during the fiscal year 1918-1919—*Continued.*

Name of Ship, Official Number and Registered Port.	Remarks.
Dartmouth (ferry) 90889 Halifax and Pacific (transport).	On December 18 collided in Halifax harbour. Formal investigation was held at Halifax on January 3 and 4, before Com'dr. H. St. Geo. Lindsay, R.D., R.N.R., assisted by Capt. A. J. Whyte and Capt F. Dodd, acting as nautical assessors. *Finding.*—Dartmouth entirely to blame, master, M. P. Murphy, failing to carry regulations regarding rules of the road. He is severely censured and ordered to pay cost of investigation.
Eugenia John Diacaki Grecian.	On July 2 stranded on Transport ledges, Egg island, Nova Scotia. Formal investigation was held at Halifax on July 11, 12 and 13, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Com'dr. G. E. Bridge, R.N.R., and Lieut. J. L. Poppleton, R.N., acting as nautical assessors. *Finding.*—Master, Minas Constantino, and mate, E. Moschos, found in default. Copy of finding is transmitted to Grecian government.
G. M. Cochrane St. John, N.B.	On February 26 foundered in the bay of Fundy. Formal investigation was held at Halifax on March 5, before Com'dr. H. St. Geo. Lindsay, R.D., R.N.R., assisted by Capt. Wm. A. Poole and Capt. H. M. O'Hara, acting as nautical assessors. *Finding.*—No one to blame; loss of the vessel caused by the carrying away of the turnbuckles on the jigger rigging.
Hochelaga 102730 Halifax.	On June 5 stranded at Port au Port bay, Nova Scotia. Formal investigation was held at Sydney on June 17, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Lieut. H. C. Owen, R.N.R., and Capt. A. J. Morrison, acting as nautical assessors. *Finding.*—Master, Geo. Tudor, committed a grave error of judgment in assuming a position which he could not exactly define, owing to atmospheric conditions and absence of log to determine distance run. On account of his previous good records, his certificate is not dealt with.
Lycaon 135467 Liverpool.	On May 7 stranded near cape Dog, St. Lawrence river. Formal investigation was held at Montreal on May 21, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Capt. Chs. Lapierre and Capt. F. Nash, acting as nautical assessors. *Finding.*—Pilot, Arthur Larochelle, alone to blame. He is severely reprimanded and fined $400.
Louisbourg 43582 Montreal.	On May 5 stranded near cape English, St. Mary's bay, Newfoundland. Formal investigation was held at Sydney on May 14, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Lieut. Com'dr. J. H. Knight and Lieut. H. C. Owen, acting as nautical assessors. *Finding.*—Master, James Kemp, in default for not having exercised necessary precaution under foggy condition. His certificate is suspended for six months, but court recommend that a mate's certificate be granted him during suspension of his master's certificate.
Lake Como American.	On May 9 stranded near Pointe des Monts, gulf St. Lawrence. Formal investigation was held at Montreal on May 29, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Capt. F. Nash and Capt. Chs. Lapierre, acting as nautical assessors. *Finding.*—Master, John H. Dizer, found in default for careless navigation. Copy of finding forwarded to American Consul.
Lake Manitoba 113497 Liverpool.	On August 26 partially destroyed by fire, in Montreal harbour. Formal investigation was held at Montreal on August 30, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Capt. F. Nash and Capt. Chs. Lapierre, acting as nautical assessors. *Finding.*—No one to blame; fire purely accidental.
Largo Law 124163 Glasgow and Samnanger (transport).	On September 18 collided in Quebec harbour. Formal investigation was held at Montreal on September 24 and 25, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Capt. F. Nash and Capt. Chs. Koenig, acting as nautical assessors. *Finding.*—Pilot of *Largo Law*, Moise Blouin, solely to blame. His license is cancelled.
Lightship No. 15	On November 2 burnt in Yarmouth, N.S. harbour. Departmental inquiry was held at Yarmouth on November 15, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner. *Finding.*—Fire caused by defective stove. Chief officer and second officer charged with neglect and incompetency.

STATEMENT of investigations into wrecks and casualties wich occurred to Canadian, and British and Foreign vessels, held during the fiscal year 1918-1919—*Continued.*

Name of Ship, Official Number and Registered Port.	Remarks.
Mulgrave 103042 Ottawa and King Malcolm (barge).	On February 15 stranded near Middle shoal, Nova Scotia. Formal investigation was held at Halifax on March 17, before Com'dr. H. St. Geo. Lindsay, R.D., R.N.R., assisted by Capt. H. M. O'Hara and Capt. Wm. A. Poole, acting as nautical assessors. *Finding.*—Accident due to error of judgment on part of master of tug *Mulgrave*, Emmanuel Ford, who is cautioned to be careful in future.
Okenfels American.	On June 30 stranded near Lower Prospect, N.S. Formal investigation was held at Halifax on July 19, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Com'dr. G. E. Bridge, R.N.R., and Lieut. J. L. Poppleton, R.N., acting as nautical assessors. *Finding.*—No one to blame. Copy of finding forwarded to United States Government.
Princess Adelaide 126948 Victoria.	On October 13 stranded near Georgina point, gulf of Georgia. Formal investigation was held at Victoria on November 4, 5, 6 and 8, before Capt. John D. Macpherson, Wreck Commissioner for British Columbia, assisted by Capt. D. S. Jones-Evans and Capt. Geo. F. Cross, acting as nautical assessors. *Finding.*—Master and second officer in default, master for not being in charge of vessel when approaching dangerous locality, in heavy weather, and second officer for neglecting to take necessary precautions to insure safety of ship. Certificate of master, R. A. Hunter, is suspended for two months, and certificate of second officer, H. A. Ormiston, for six months.
Princess Sophia 110620 Victoria.	On October 25 stranded and subsequently lost on Vanderbilt reef, Lynn canal, Alaska. Three hundred and fifty lives were lost. Formal investigation was held at Victoria on January 10, February 10 and 11, March 10, 13 and 20; at Vancouver January 31 and at Juneau February 25 and 27, before Judge Aulcy Morrison, assisted by Capt. John D. Macpherson, Wreck Commissioner for British Columbia, and Capt. E. H. Martin, C.M.G., R.N., acting as nautical assessors. *Finding.*—No one to blame; ship lost through perils of the sea.
Renfrew 138682 Vancouver.	On November 10 wrecked in Nitignat river and thirteen lives were lost. Formal investigation was held at Victoria on November 20 and 21, before Capt. John D. Macpherson, Wreck Commissioner for British Columbia, assisted by Capt. Geo. Simpson and Capt. Wm. Kernahan, acting as nautical assessors. *Finding.*—No one to blame: accident due to perils of the sea.
Siberian Prince 135729 Newcastle.	On June 28 stranded near Lawrencetown, Nova Scotia. Formal investigation was held at Halifax on July 22, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Com'dr. G. E. Bridge and Com'dr. C. J. Stuart, acting as nautical assessors. *Finding.*—Master, H. A. Camp, shown bad judgment and lack of proper seamanship.
Sewalls Point American.	On July 2 stranded at Shag Rock point, Nova Scotia. Formal investigation was held at Halifax on July 15, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Com'dr. G. E. Bridge, R.N.R., and Lieut. L. Poppleton, R.N., acting as nautical assessors. *Finding.*—Master, R. M. French, found in default for lack of prudence. Copy of the finding is forwarded to United States Government.
Sicilian 111225 Glasgow and Canora (car ferry).	On August 7 collided in Quebec harbour. Formal investigation was held at Montreal on August 13, 14 and 15, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Capt. F. Nash and Capt. Chs. Lapierre, acting as nautical assessors. *Finding.*—Both master and pilot of *Sicilian* in default. Master, J. M. Reith, is severely reprimanded, and pilot, Jules Lamarre, is fined $100 and to pay his travelling expenses.
Samoli 114056 Greenwich.	October 5 damaged by fire whilst in Quebec. Formal investigation was held at Quebec on October 17, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Capt. Chs. Koenig and Capt. G. Houlgrave, acting as nautical assessors. *Finding.*—Inflammable material was wilfully placed amongst cases of lard stowed in No. 1 lower hold.
Troja 138215	On September 21 stranded near Pointe Citrouille, St. Lawrence river. Formal investigation was held at Montreal on September 25 and 27

SESSIONAL PAPER No. 21

STATEMENT of investigations into wrecks and casualties which occurred to Canadian, British and Foreign vessels, held during the fiscal year 1918-1919—*Concluded.*

Name of Ship, Official Number and Registered Port.	Remarks.
Montreal and Berrima 135332 Greenock.	and October 1, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Capt. F. Nash and Capt. Chs. Lapierre, acting as nautical assessors. *Finding.*—Pilot of *Berrima*, Joseph Leveille, solely to blame for violating rules of the road. His license is suspended for two years. Certificate of second officer, Harold Beament, is suspended for two months for marked indifference to his responsibility. Second officer of *Troja*, Charles Adey, cautioned to use better judgment in future and call master when something abnormal is apparent.
Troja 138215 Montreal.	On March 18 stranded on Old Proprietor ledge, bay of Fundy. Formal investigation was held at St. John, N.B., on March 25, before Com'dr. H. St. Geo. Lindsay, R.D., R.N.R., assisted by Capt. J. Gillies and Capt. Chs. H. Hodder, acting as nautical assessors. *Finding.*—Accident caused by action of master, J. C. Cains, neglecting to use deep sea lead. He is severely censured and ordered to pay cost of investigation. On account of his previous good record his certificate is not dealt with.
Wotan and Montreal (barge) in tow of tug Weaver American.	On July 15 collided in Soulanges canal. Formal investigation was held at Montreal on October 18, 19 and 31 and November 8, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Capt. F. Nash and Capt. Chs. Lapierre, acting as nautical assessors. *Finding.*—*Weaver*, *Montreal* and *David Mills* (which was following tug *Weaver* and tow) to blame. Master of *Weaver*, Joseph Seguin, lacked judgment in obeying orders of master of barge *Montreal*, of which barge he was the servant. His certificate is suspended for one month. Masters of *Montreal* and *David Mills* having certificates which cannot be dealt with by the court, are severely reprimanded for attempting to pass a vessel having precedence.
Winifredian 110584 Liverpool.	On August 25 stranded on St. Mary's island, strait of Belle Isle. Formal investigation was held at Montreal on October 18, 19 and 20, before Capt. L. A. Demers, F.R.A.S., Dominion Wreck Commissioner, assisted by Capt. J. O. Grey and Capt. Chs. Lapierre, acting as nautical assessors. *Finding.*—Master, F. Shepherd, erred in judgment in placing implicit reliance in the magnetic correctness of his compass and proceeding with undiminished speed in fog. He is severely reprimanded.

STATEMENT of wrecks and casualties reported as having occurred to British, Canadian and Foreign vessels in Canadian waters and to Canadian vessels in other waters, from January 1 to December 31, 1918.

MASTERS AND SEAMEN BRANCH.

Report of B. F. Burnett, Superintendent.

During the fiscal year 1918-19, navigation schools were in operation at St. John, Halifax, North Sydney, Yarmouth, Quebec and Kingston. And marine lectures were delivered at Yarmouth, N.S. The total expenditure on account of these services was $5,120.62.

Examinations for masters and mates certificates were held at Halifax, Yarmouth, North Sydney, Charlottetown, St. John, Quebec, Montreal, Ottawa, Kingston, Toronto, Collingwood, Port Arthur, West Selkirk, Edmonton, Nelson, Prince Rupert, Vancouver and Victoria.

Issued during the year: 13 masters', 15 mates' and 22 second mates' seagoing certificates of competency; 76 masters' and 96 mates' coasting certificates, 44 masters' and 36 mates' inland waters certificates of competency and 40 masters' temporary certificates. Fees paid $3,372.97. Total expenditure, $12,921.26.

PILOTAGE.

A regular pilotage service is in operation at forty-one ports in Canada. The total expenditure on account of this service during the fiscal year 1918-19 was $101,695.30.

SIGNAL STATION, CITADEL, HALIFAX, N.S.

Record of shipping from April 1, 1918, to March 31, 1919, by F. C. Kilburn, Major, R.C.E., Superintendent of Signals:—

Total vessels reported	1,824
" arrived	1,821
" passed	3

SABLE ISLAND.

Mr. J. U. Blakeney, superintendent, reports that the repairs recommended in last year's report, have been carried out.

Boats on hand: three life boats, three surf boats, one motor boat, two dories.

Live stock on hand: 36 horses, 55 horned cattle, one pig; received from the mainland during the year three cows, one stud horse, one bull, and one boar.

On December 28 the new pig-house and ten pigs were destroyed by fire.

Total population, 46.

Number of times rounds were made during thick weather: 59, 36 a.m., 23 p.m.

Number of boat drills: 10, rocket drills, 5.

Crops normal.

Wrecks: The four masted schooner *M. P. Connolly* which was stranded on August 5 on Wet bar, eight miles eastward from East light, became a total wreck. Crew were all saved, and a portion of the provisions.

REPORTS OF AGENCIES.

HALIFAX AGENCY.

During the fiscal year 1918-19 the following aids to navigation were in operation in the agency, 258 lighthouses, 35 pole lights, 14 electric lights, two lightships, *Barrington* and *Halifax*, one explosive fog alarm, 23 diaphones, one Reed trumpet, three steam fog whistles, 57 hand horns, six mechanical fog bells, 24 combined gas and whistling buoys, 11 combined gas and bell buoys, seven gas buoys, 17 automatic whistling buoys, 45 automatic bell buoys, five submarine bells attached to buoys, 192 can and conical buoys, 1,135 spar buoys, and 15 day beacons.

Two humane establishments, one at Sable island and the other at St. Pauls island are maintained by the agency.

Three Government steamers the *Lady Laurier*, *Aranmore* and *Stanley* were employed during the season in the work of the agency.

New aids to navigation were established as follows: one combined gas and whistling buoy moored in position 3·7 miles off Chebucto lighthouse. Halifax approach fairway bell buoy placed in position three cables from "Neverfail" shoal buoy.

Sydney harbour iron conical buoy placed off Edward point, Margaree harbour wooden spar buoy placed at entrance. East Dover two wooden spar buoys.

Repairs have been made at the following light stations: Cape Race, Sydney harbour front, Scattarie, Black rock, Chebucto head, Sheet rock, Isaac harbour, Three Top island, Petit-de-grat, North Canso, McNabs island, and Outique island; a number of lights have been changed and improved.

SYDNEY, N.S., SUB-AGENCY.

Alterations and improvements were made to the Louisburg marine hospital. Arrangements were made for the transportation of the crews of two torpedoed vessels landed in Sydney. A temporary wharfinger was appointed at Port Hastings. Three extra buoys were placed in Glace Bay harbour.

For the year ended March 31, 1919, coastwise arrivals numbered 1,652, tonnage 1,357,253, foreign vessels 552, tonnage 1,228,120, total arrivals 2,204, total tonnage 2,585,373.

PICTOU, N.S., SUB-AGENCY.

Early in May buoys after having been repaired and painted, were placed in position by the steamer *Brant*, in December these were taken up and replaced by winter spar buoys.

Steamers calling at different times were given required assistance.

Steamers arriving 136, tonnage 24,277, steamers departing 135, tonnage 25,406, sailing vessels arriving 430, tonnage 27,282, sailing vessels departing 445, tonnage 28,820.

Navigation opened May 3 and closed December 18.

ST. JOHN AGENCY.

The agency maintained during the year in the bay of Fundy 153 light-stations, 33 of them being range lights, 16 fog alarm plants, one lightship marking the "Lurcher" shoal, equipped with submarine bell, diaphone and modern lighting apparatus and carrying a crew of 16 men, 17 gas and whistling buoys, eight automatic whistling buoys, 28 bell buoys, 69 steel can and conical buoys, and 49 spar buoys.

In the northern part of the province there were maintained 96 can and conical buoys, three bell buoys, 12 gas buoys, and one gas and bell buoy.

A new concrete tower was erected at cape Spencer, and a new oil pumping outfit installed. A new concrete tower was also built at Coxs point, Grand lake.

At Bathurst, bay of Chaleurs, a new wooden pier was built with mast and shed at base for back range light.

The range light towers on lower Fox island, one blown down and the other damaged in a heavy gale, were renewed.

A number of improvements have been made to various other lights and new oil pumping outfits installed.

The Brier island station, bay of Fundy, signalled 79 steamers inward bound and 83 outward bound, 44 schooners inward bound and 51 outward bound; 138 schooners arrived at Brier island harbour and 30 steamers and patrol boats.

The Escuminac, N.B., station, Northumberland straits, reported 28 schooners inward and 31 outward, 10 steamers inward, 6 outward, tugs down the straits 18, up 3 patrol boats down the straits 22, up 2, steamers down the straits 6, up 2.

The Partridge island station, St. John, N.B., signalled 72 steamers, tonnage 229,447, and 30 sailing vessels tonnage 11,008, total tonnage 240,453.

The C.G.S. *Aberdeen* was employed during the year on Agency work.

CHARLOTTETOWN AGENCY.

Repairs to the marine wharf at Charlottetown were continued, part of the East side was built up and planks laid, the part between warehouses Nos. one and four was also repaired; the office was moved further up the wharf.

The agency maintained during the year 53 lightstations, five gas and whistling buoys, four Courtney whistling buoys, and four American pattern bell buoys.

The C.G.S. *Brant* was employed on agency work during the season.

QUEBEC AGENCY.

The district extends from point Platon to Belle Isle, and includes the Saguenay river, Lake St. John and Chaleurs bay, a total coastal service of 2,050 miles.

Vessels under the control of the agency during the season were the ice-breakers *Montcalm* and *Champlain*, the steamers *Druid*, *Eureka* and *Rouville*, the lightships *Red Islet No. 3*, *Prince Shoal No. 7*, *White Island No. 5*, and *Lower Traverse No. 20;* for winter repairs and supplies the icebreaker *Lady Grey* and the steamers *Bellechasse* and *Princess* were employed.

The ferry service between river Ouelle wharf and the north shore of the river St. Lawrence was maintained during the summer and winter months.

New fog-alarm plants were established at Cap Chatte, Ile au Marteau, Little Metis, Perroquet island, Pointe des Monts, and Table head, Anticosti.

New towers were erected at Table head, Anticosti, North point, Anticosti, and part of the new tower was built at Port Daniel West; all buildings were kept in repair and a number of improvements made to different lights.

MONTREAL AGENCY.

New apparatus was installed at Caron point, Dorval, and Pointe Claire light; the buoys in the ship channel were maintained in first class condition. The Dominion steamers *Argenteuil*, *Dollard*, *Reserve*, *Shamrock*, *Vercheres* and *De Leris* were employed during the season in the work of the agency.

EXPENDITURE.

Agencies, rents and contingencies	$ 16,742 18
Miscellaneous vote 419, 1918-19 (bonus)	1,254 19
War Appropriation, 1918-19 (bonus)	1,651 61
Construction of lights	14,166 99
Construction buoy service	953 85
Dominion steamers	115,247 19
Maintenance buoy service	85,095 75
Maintenance of lights	20,145 34
Lightkeepers' salaries	33,032 54
Maintenance and repairs to wharves	198 82
	$ 288,488,46

DOMINION LIGHTHOUSE DEPOT, PRESCOTT, ONT.

The general work of the depot was somewhat less than last year, but a considerable amount of lighthouse materials was made up and assembled at the various agencies and lighthouses of the department, and all necessary work in connection with the maintenance of lights and the buoy service in the Prescott division was performed. There was a considerable saving of fuel at the depot during winter as compared with former years. The work was somewhat hampered by a lack of skilled machinists.

The machine shop completed about 150 production orders, as well as doing some work on orders not yet completed, the orders included the manufacture of Standard Diamond vapour burner parts, lighthouse stairs, railings, trapdoors, etc., submarine bell buoy parts and diaphone instruments.

The carpenter shop made all necessary repairs to Government steamers, lighthouse and fog alarm buildings, etc., necessary forgings for all apparatus were made in the blacksmith shop; buoy and hoisting gears were overhauled, and a quantity of chain repaired; castings were made in the brass foundry for lighthouse and fog alarm apparatus and also for Government steamers.

As usual in the photometric room tests were made of the various burners, also of petroleum oil and Pintsch gas, and acetylene gas.

The Canadian Government steamers *Grenville*, *Scout* and *Compresia* (the last purchased in October, 1918, a single-screw vessel, 126 feet long, tonnage 320), were employed during the season in the work of the agency.

FORT WILLIAM, ONT., SUB-AGENCY.

The usual work in connection with the lighthouse and supply services and icebreaking was carried on; the Government steamers *Dollard* and *Lambton* were employed in the agency at different times. On April 20 the first vessels left for eastern ports and the last on December 12.

KENORA, ONT., SUB-AGENCY.

Navigation on lake of the Woods in the spring of 1918 did not open until late in May, all lightstations, outbuildings, etc., were kept in repair as usual, and all buoys repaired and painted; a number of these were painted twice owing to the action of the logs rubbing off the paint. The lake of the Woods Milling Company's steamer was used for the replacing of buoys in the lake of the Woods, and Capt. J. W. Short's steamer for work in the White Fish channel.

VICTORIA, B.C., AGENCY.

A reinforced concrete tower is being built at Dryad point replacing the former wooden one, at Nanaimo harbour a new pile beacon was erected on the Middle bank, an electrically operated fog alarm was installed at Ogden point, a new beacon with concrete base was erected on the extremity of Pelly island

and the submarine cable connected to the new beacon; an automatic fog bell was established at Powell river.

The agency maintained 19 can buoys, 15 conical buoys, 20 platform buoys, 31 spar buoys, and 47 day beacons; 39 buoys are maintained on Fraser and Pitt rivers, 7 spar buoys on Kootenay lakes, and 16 spar buoys on the Arrow lakes.

The C.G.S. steamers *Estevan*, *Newington*, and *Leebro* were employed in the agency during the season.

PRINCE RUPERT, B.C., SUB-AGENCY.

This sub-agency maintained during the season nine lightstations and nine acetylene gas buoys, 16 acetylene gas beacons, five Aga gas beacons, 4 can buoys, 6 conical buoys, 15 spar buoys, 2 platform buoys, and 16 day beacons.

PARRY SOUND, ONT., AGENCY.

No repairs or improvements on a large scale were made to outlying stations or agency plant during the year, and strict economy was exercised. The agency maintained during the season 15 gas buoys, two Trinity Bell iron buoys, one conical can buoy, and 178 spar buoys.

The C.G.S. *Dollard* and the C.G.S. *Lambton* were employed on agency work during the season, and the tug *Primrose* was used on buoy work in the shallow channels between Parry Sound and Penetangueshene.

At the close of navigation the usual work in connection with cleaning, overhauling, and repairing gas buoys, testing lanterns, and preparing spars was carried on.

REPORTS OF HARBOUR COMMISSIONERS.

Montreal Harbour Commission.

PERSONNEL.

The Board for the year 1918 was, President W. G. Ross, Esq., Commissioners Farquhar Robertson, Esq., and A. E. Labelle, Esq., Secretary-Treasurer M. P. Fennell, Jr., Esq., Chief Engineer F. W. Cowie, Esq., C.E.; other officials Cashier T. F. Trihey, Consulting Engineer Sir John Kennedy, Assistant Chief Engineer T. W. Harvie, Superintendent of Grain Elevators J. Nehin, Mechanical Superintendent George Gendron, Harbour Master Capt. T. Bourassa, Deputy Harbour Master Capt. J. F. Symons, Comptroller George E. Smart, Pay Master and Wharfinger Robert A. Eakin, Superintendent of Railway Terminals J. Vaughan, Assistant Superintendent of Railway Terminals R. L. Mercier, Purchasing Agent L. H. A. Archambault.

CHIEF FEATURES OF 1918.

1. The number of transatlantic vessels arriving at the port of Montreal in 1918, viz., 644, was greater than that of any other year in the history of the harbour. The month of October, 1918, established a record. In that month 34 transports and 45 liners cleared from the port, total tonnage 500,000; in October, 1917, 32 liners and 17 transports cleared, total tonnage 208,000.

2. The gross revenue of the port was larger than ever before reached.

3. Larger vessels and greater draft than ever before sailed from Montreal.

4. Heaviest export shipments ever recorded.

5. Large number of merchant vessels flying United States flag sailing from the port of Montreal.

6. Minimum of grain arrived in Montreal by water, maximum by railway.

7. Maximum record of operations of harbour railways, and the success of the Harbour Marginal Railway in connection with industrial development.

8. Minimum of marine accidents in the harbour of Montreal and river St. Lawrence ship channel.

9. Hay-pressing for the United States Government.

10. Extensive handling of heavy packages by the Harbour Commissioners' floating crane.

11. Shipments of fuel oil.

12. Latest closing of navigation on record.

PRESENT CAPACITY OF MONTREAL HARBOUR.

The harbour has eight miles of completed wharfage at this date, capable of accommodating one hundred vessels, as follows:—

For vessels of 500 feet in length, and drawing 30 feet of water	28	berths.
For vessels about 400 feet long, with draught of 25 to 30 feet of water	36	"
For vessels 300 feet long, with draught of 20 feet of water	17	"
For vessels 200 feet long, with draught of 10 feet and over	19	"

Eighteen vessels of 1,000 feet long could be berthed in the harbour at one time.

Twenty-one large well-lighted double-storey transit sheds, about 500 feet long by 100 feet wide, are available for goods destined for shipment.

ENGINEERING DEPARTMENT.

The High Level railway which at the end of last year had been completed to Desmarteau street, Longue Point, has been extended to the lower side of the Imperial Oil Company's wharf at Montreal East, a further length of one and a half miles, completing the final section from Vulcan wharf to Pointe-aux-Trembles, a total length of three miles, linking up these two large industrial plants with the Harbour railway system.

The terminus of the High Level railway now completed is nine miles from McGill street, four miles from Racine wharf, and three miles from Vulcan wharf.

The embankment as far as Vulcan wharf has been built for double track, and the remainder to the Imperial Oil Company's wharf has been made almost wide enough for three tracks. Single track has been laid to Meese street, Longue Pointe, and below that double track to the terminus, except at the crossing at the Canada Cement wharf. A third track has been laid for the full length of this wharf, and a spur connecting it with the wharf front. The embankment measured 270,000 cubic yards composed of rock and clay.

The total amount of track laid was 14,348 linear feet, about two and three-quarter miles. Access to the river at Meese street is by a timber subway of 12 feet span, 10 feet headroom, and at Desmarteau and Hector streets by level crossings with ramps.

Only two of the Commission's dredges were engaged in the harbour at one time, and for part of the season only one, but six of the eight floating derricks were kept fully employed, the deficiency in dredged material being balanced by the unloading of ships ballast and clay excavation. The dredges worked only by day, and were employed chiefly in rock dredging for the Bickerdike pier extension. Dredge No. 3 of the Department of Marine completed the work on the 28-foot channel at the Imperial Oil Company's wharf, Montreal East, begun in 1917.

The Commission's floating crane lightered and handled 18,855 tons during the season, and has proved a valuable adjunct to the port.

Electrical equipment, dredging fleet, transit sheds, grain elevators, engine shops, and sub-stations were maintained and improved.

The wooden wharf of the Dominion Coal Company, Windmill point, for a length of 800 feet and a depth of four courses, was rebuilt, and the Longueuil ferry slip reconstructed for a depth of 11 feet. The Canada Cement Company's wharf at Montreal East was extended by cribwork and refilled at both return ends. On section 42 crib wharfing for a length of 300 feet was rebuilt for a depth of seven feet. The outer end of Sutherland pier for a length of 350 feet and a depth of five feet was rebuilt. Doran wharf at Longue Pointe was generally overhauled.

The life saving equipment was improved by the erection of railings and the distribution of ropes, gaffs, and life preservers at 115 different stations.

The maximum number of workmen employed during the season was 1,101, and the average 915.

RAILWAY TRAFFIC DEPARTMENT.

The extension of the Commission's Marginal railway eastward along the river front has increased industrial activity from Hochelaga to Pointe-aux-Trembles; the following are some of the important industrial developments in this vicinity in recent years:—Asphalt and Supply Co., Ltd., St. Lawrence Sugar Refineries, Ltd., The Canadian Spool Cotton Co., Ltd., Canadian Vickers, Ltd., Canadian Steel Foundries, Ltd., Montreal Locomotive Works, Ltd., The Shell Company of Canada, P. Lyall & Sons Construction Co., Ltd., The National Bridge Company of Canada, Ltd., The Canada Cement Co., Ltd., (Vulcan and Lakefield plants), Imperial Oil Company, Ltd.

The total mileage of the harbour railway track is now 55·35, an increase of three miles since 1917, and about double the mileage of 1909.

During the season there was an average inward and outward movement of 900 cars per day, and an increase of 25,000 cars handled over the season of 1917. The total number of cars handled by the Commission during the year was 247,009 as against 215,394 for 1917.

GRAIN ELEVATOR SYSTEM.

Prior to the war 75 per cent of the grain arriving in Montreal was transported by water, and 25 per cent by rail, in 1918 only 12 per cent was carried by water, and the remaining 88 per cent by rail.

The capacity of the Commission's Elevator system is as follows: Elevator No. 1, 4,000,000 bushels; Elevator No. 2, 2,662,000 bushels, and of the Grand Trunk elevators, 2,150,000 bushels.

The total quantity of grain handled by the Commission's elevators Nos. 1 and 2 during 1918 was 45,520,688 bushels as compared with 42,831,504 bushels for 1917.

POLICE DEPARTMENT.

The Harbour Police Force in 1918 comprised five officers and 84 men, all uniformed and armed, who regulated the traffic, maintained order, and protected life and property within the harbour limits. No accidents of even a minor nature occurred during the season in the area under their care. During the season 215 persons were arrested and brought before magistrates and recorders for different offences.

FINANCIAL STATEMENT.

Receipts on Revenue Account amounted to $2,104,191.48, an increase of $253,554.55 over the previous year. Cost of operations, maintenance, interest, etc., was $2,026,542.07, leaving a balance to the credit of the Revenue Account of $77,649.61. Interest charges amounted to $903,585.17, an increase of $10,833.32 on new loans due to carrying out improvement works.

From the Dominion Government loans of $380,000 on capital expenditure, and $300,000 to retire public debentures maturing on July 5th, were received.

The disbursements on capital account for 1918 were $271,239.31.

GENERAL.

A plan has been developed for the building of an absolutely up to date warehouse and coal storage plant for the port of Montreal similar to those already in operation in Boston and New York; this proposed plant will have the advantages of a site on the harbour front, railway and trucking facilities, electric power, economical handling facilities, required temperatures, and special stores for provisioning ships.

The structure will be divided into two parts, 1—Cold Storage 256 feet by 108 feet by 105 feet. 2—Dry Storage 166 feet by 110 feet by 105 feet, total cubic contents 4,751,040 feet, the estimated cost of the structure is $1,400,000.

As this warehouse will be directly connected with rail and ship, handling charges will be reduced and required temperatures will be secured for the proper protection of perishable goods awaiting transportation; the erection of this plant will be of special advantage to the beef and bacon, and dairying industries.

In 1914 a scheme for the electrification of the steam operated harbour railway of the Commission was considered, and the Commissioners paid visits to electrified freight terminals in New York and Philadelphia, with a view to adopting a similar system for the port of Montreal; during the war the plan

was temporarily abandoned, owing, however, to the increased economy and safety of electrically operated roads it has now been revived, and the Commission has consulted the electrical experts of railways with terminals in Montreal with a view to affecting an additional improvement in the harbour of Montreal by substituting electricity for steam in the present Harbour Railway system.

Quebec Harbour Commission.

CHIEF ENGINEER'S REPORT.

As a large area at the west end of the embankment between the old and the new St. Charles river quay walls was under rental to the Quebec Shipbuilding and Repair Company, for use as a shipyard, the work of grading and paving had to be suspended, and can only be resumed when the site under lease reverts to the Commission.

The first of the two fireproof landing sheds, 1,000 feet by 104 feet, on the St. Charles river quay front, with the grain galleries was taken over from the contractor last season. A railway line was laid along the shore side of this shed and an additional Gantry locomotive crane provided for use along the dock front.

The structural steel work of the second of these landing sheds, 775 feet by 75 feet, and dock front grain gallery is now about completed.

A grain bagging shed was built at the west end of the new annex to the elevator, and a temporary wooden office building placed near the elevator for the accommodation of the staff.

Quarrying operations at the Victoria Cove quarry have been discontinued, and the remaining plant removed.

The river end of the long wharf at Indian cove for seven feet down from coping level, and for a length of 131 feet has been rebuilt and filled with wharf stone, giving a length of 300 feet. The saw mill on this wharf has been dismantled.

On the nights of November 18 and 19 high tides with a strong east wind caused considerable damage to the Commissioners' property at Pier No. 1, Pointe-a-Carey pier, and Indian cove long pier; the highest of these tides on the evening of November 19 rose to 23 feet two inches above the Commissioners' low-water mark, and five feet two inches above the normal level of spring tides.

WHARFINGER'S REPORT.

The traffic in connection with the St. Charles docks and wharves was: inward 424 vessels, 461,170 tons register; outward 266 vessels, 594,979 tons register; lower port steamers 61, 19,481 tons register.

HARBOUR MASTER'S REPORT.

Port of Quebec—Record of shipping arrivals, 1918:—

	Number of vessels.	Gross tonnage.
Coasting vessels from seaward	128	129,550
Coasting vessels from Montreal and lake boats	361	619,391
Ocean Steamships inward	153	1,150,147
Ocean Steamships outward from Montreal	115	865,761
	757	2,764,849

The unusual large amount of tonnage from Montreal is due to government shipments.

As compared with the returns for 1917 there is an increase of 76 ships, and 599,975 tons.

Vessels built at Quebec in 1918 were *War Mohawk*, launched May 11, ferry *Conora* launched June 10, *War Seneca* launched June 13, *War Quebec* launched June 28, *War Gaspe* launched July 27, *War Sorel* launched September 7, *War Matane* launched September 23, schooner *Edgewood* launched November 4.

REVENUE AND EXPENDITURE.

The revenue for 1918 was $437,496.31, an increase of $169,688.63 as compared with 1917, the total expenditure was $418,252.04, leaving a surplus for the year of $19,244.27.

TRAFFIC MANAGER'S REPORT.

During the course of the year 52,311 cars were handled by the Commissioners' locomotives as against 43,590 in 1917, an increase of 8,721 cars.

PRESENT EQUIPMENT OF THE PORT OF QUEBEC.

The port of Quebec is spacious, deep, and well protected, it has modern landing sheds containing 523,000 square feet of floor area, deep water berths at low tide for 22 vessels drawing 40 feet, 53-ton floating crane, Gantry dock cranes and locomotive cranes available at all times for handling cargoes, a grain elevator with a capacity of 250,000 bushels, a fireproof concrete grain elevator with a capacity of 2,000,000 bushels with grain galleries and conveyors, and grain drier, Richardson separator, and bagging shed, two graving docks, one 600 feet by 62 feet wide at the entrance, and one (new) 1,150 feet by 120 feet wide at the entrance, capable of taking the largest vessels, and with repair shops attached; the port can accommodate vessels of large draught for a period of eight consecutive months.

THREE RIVERS HARBOUR COMMISSION.

The receipts from harbour dues amounted to $10,272.22, while the expenditures were $17,113.65, leaving a deficit of $6,841.43. The harbour during the year was visited by one seagoing vessel only, the barge *Conolly*, afterwards lost off the coast of Newfoundland; the commercial fleet depleted by the war has evidently confined itself to visiting commercial centres. Shipbuilding, however, foundries, and business firms have been greatly extended.

Raw material instead of being brought in through the natural and cheapest channel, the river, came by rail, for the same reason exportation was not carried out to the fullest extent.

STATEMENT of number and tonnage of steamers and other vessels reported inward and outward of the port of Three Rivers for the year 1918.

VANCOUVER HARBOUR COMMISSION.

The period covered by this report is for the nine months from April 1st to December 31st, 1918; it is now made out for the calendar year instead of the fiscal year as formerly.

SHIPBUILDING.

During 1917-18 Coughlan & Sons, Limited, completed six steel steamers of 8,800 tons each, and the firm has under contract four more ships of the same tonnage as well as four of 8,100 tons each, for the Dominion Government. Wallace Shipyards, Limited, completed three steel steamers of 4,800 tons each, and have two more of the same tonnage, and two of 5,100 tons on the ways; other yards have built twelve wooden steamers of 2,800 tons each, thirteen of 1,500 tons, and six auxiliary schooners. A measured mile had been marked off by the Commission on Spanish banks for testing the speed of new ships.

GRANVILLE ISLAND.

The industrial area reclaimed by the commission has been laid out into 79 lots of which 49 are at present occupied, and of the remainder a number are at present under consideration by industrial firms, among other companies using this site are the Vulcan Iron Works, and the Wallace Foundry, Limited, subsidiary to the Wallace Shipyards.

SHIPPING RETURNS.

	Vessels.	Tonnage.
Coastwise, inward	9,882	3,413,790
" outward	10,199	3,853,161
Foreign, inward	1,432	1,759,073
" outward	1,377	1,443,306
	22,890	10,469,330

In 1917 the number of vessels was 23,017, tonnage 10,639,507.

GOVERNMENT WHARF.

During the nine months covered by the report 71 vessels berthed at the wharf, the volume of business amounted to 74,100 tons of freight and 4,082,817 feet of lumber B.M. The total revenue amounted to $25,375.71, the operating expenses were $9,091.30, leaving a surplus of $16,284.41. The completion of the new warehouse 843 feet by 98 feet was of assistance to the salmon packing industry. In the autumn of 1918, 200,000 cases of canned salmon were stored in the warehouse for shipment.

RECEIPTS AND EXPENDITURES.

Total operating receipts $72,811.15, total operating expenditures $49,586.10, surplus for nine months ended December 31, 1918, $23,225.05.

HARBOUR DEVELOPMENT.

In December, 1918, Mr. A. B. Swan, M.S.C.E., was instructed by the Government to make a report on harbour development; after making an exhaustive study of the harbour and interviewing leading representatives of shipping and commerce, Mr. Swan made a report which, when carried out, will enable the port to adequately safeguard Canadian commercial interests on the Pacific.

PORT WARDENS' REPORTS FOR THE YEAR ENDED DECEMBER 31, 1918.

Returns have been received from sixteen port wardens, eight from Nova Scotia, two from New Brunswick, two from Quebec, and four from British Columbia.

The total amount of fees collected by port wardens was $39,408.48.

The number of foreign-going ships reported at the port of Montreal was 518, total tonnage 1,819,884, an increase of eight vessels over last year, and a decrease of 31,158 tons; from the lower ports 14 steamers, tonnage 15,410, and eight sailing vessels, tonnage 680 entered, total 160 vessels, 16,090 tons, a decrease of 38 vessels and 28,168 tons as compared with 1917.

The amount of grain shipped was wheat 21,303,414 bushels, peas 27,038 bushels, barley 2,741,595 bushels, oats 35,153,871 bushels, rye 206,012 bushels, total shipments of grain 59,431,930 bushels, an increase of 305,172 bushels over the shipments for 1917.

At the port of Montreal navigation opened on April 20th, and closed on December 14th.

Casualties during the year between Montreal and Father Point were: SS. *Lycaon* stranded May 8th off cape Dogs, repaired temporarily at Canadian Vickers, Limited, in Montreal, and proceeded to New York; SS. *Celtic Prince* stranded on Barnaby island July 8, permanently repaired at Quebec and cleared for Hull, Eng., on November 28; SS. *Lake Manitoba*, caught fire when loading fuel oil at Imperial Oil Company's wharf on August 26, completely gutted.

The only other serious casualty reported by any of the port wardens was the stranding of the SS. *Corinthian* on December 15, on Batsons ledge, four miles N.W. of Briar island, part of cargo salved. This casualty was reported by the Westport, N.S., port warden.

During 1918 there was a marked increase in the exports of fuel oil from the port of Montreal, 145 vessels having loaded 63,665,000 gallons, as against 72 vessels and 16,794,083 gallons for 1917, an increase of 73 vessels and 46,870,917 gallons.

Canadian Vickers, Limited, launched during the year the following ocean steamers:—

Name of Ship.	Tonnage Deadweight.	Date of Launching.
War Earl	7,200	8th June.
War Duchess	7,200	2nd July.
Sammanger	7,200	3rd August.
War Faith	7,200	28th September.
War Joy	7,200	29th October.
Canadian Voyageur	4,350	23rd November.
Canadian Pioneer	8,100	3rd December.

Report of the Quebec Salvage and Wrecking Company.

Assistance was rendered to vessels as follows:—

1918.

May 8 to 12.—British steamer *Lycaon* ashore near cape Dog, salved and brought to Montreal.

May 13 to 26.—SS. *Lake Como* (American) ashore between Godbout and Pointe-des-Monts, among boulders, boulders blasted and ship salved and brought to Buffalo.

June 16 to July 3.—Went to assistance of British steamer *Ascania* stranded 32 miles to the east of cape Ray; a gale springing up with heavy sea prevented salving; steamer became a total wreck.

July 8 to 14.—British steamer *Celtic Prince* ashore on Barnaby island, salved and brought to dry dock, Montreal.

August 28 to September 26.—Went to assistance of British steamer *Winnifredian* ashore at St. Marys island, with assistance of anchor and SS. *Lord Strathcona* floated her and towed her to Quebec and then to dry dock, Montreal.

October 12.—H.M.S. *Kildonan Castle* struck bottom on her way from Father Point to Quebec, bottom examined and declaration given before notary public enabling her to proceed.

October 4 to 13.—Wooden drifter No. 57 ashore off cape Gaspe, attempt to float her failed owing to falling tide and intricate position of ship.

October 29 to November 25.—Towed British steamer *Lake Manitoba* in a damaged condition from Quebec to Halifax.

December 3 to 9.—New Canadian steamer *Canadian Pioneer* towed in an unfinished condition from Montreal to Quebec.

The SS. *Lord Strathcona* and the schooner *G.T.D.* properly manned, with salving gear in good order, were kept in commission all season.

Returns of Shipping Masters for the Year ending December 31, 1918.

Note.—The collector of Customs acts as shipping master where no other shipping master is appointed.

Province.	Seamen Shipped.	Seamen Discharged	Amount.
			$ cts.
Quebec	4,313	2,132	3,204 85
New Brunswick	857	429	561 70
Nova Scotia	5,548	4,757	4,354 60
Prince Edward Island	120	60	77 10
British Columbia	5,678	5,552	4,504 60
Total	16,516	12,930	12,702 85

Expenditure and Revenue.

The parliamentary appropriation for the fiscal year 1918-19 was $5,432,-064.55, the expenditure $4,459,165.45, leaving an unexpended balance of $972,899.10. The net revenue was $397,012.79.

Correspondence.

The number of letters received during the fiscal year 1918-19 was 66,601 as against 57,562 in 1917-18, an increase of 9,039 or about 16 per cent.

The number of letters sent out was 39,116 as against 33,229 in 1917-18, an increase of 5,887 or about 17 per cent.

This increase is chiefly due to correspondence relating to the new Canadian shipbuilding programme, the control of shipping during the war, and the new system of making appointments to the outside service through the Civil Service Commission.

Advertisements to the number of 207 were issued inviting applications for vacancies in the department, 52 of which were sent from the records branch.

SEASON OF NAVIGATION.

At the port of Montreal navigation opened on April 20, 1918, a week earlier than in 1917, and closed on December 14, 1918, a week later than in 1917.

NEW LEGISLATION.

During the parliamentary session of 1918-19 the following new legislation affecting the department was enacted:—

1. Section 432 of the *Canada Shipping Act*, Revised Statutes of Canada, 1906, Chapter 113, a portion of the Act respecting Pilotage is repealed and the following is substituted therefor:—

> "432. Notwithstanding anything in this Part, the Governor in Council may, when it appears to him to be in the interest of navigation, appoint the Minister to be the pilotage authority for any pilotage district or for any part thereof; and the said Minister shall thereupon supersede the then existing pilotage authority for that district or part of a district: Provided that nothing in this Part shall authorize the Minister to sit as a tribunal for the trial of offences of which pilots may be accused before the pilotage authority; but such Minister may, in any case not provided for by Part X of this Act, designate a tribunal or officer to try any such offence."

2. Paragraph (h) of section 862 of the said Act, relating to harbour masters' fees, is repealed, and the following paragraphs are added at the end of the said section:

> "(h) for every ship over seven hundred tons and not over one thousand tons register, five dollars;
>
> "(i) for every ship over one thousand tons register, seven dollars."

3. Section 865 of the said Act relating to harbour masters' salaries is repealed and the following is substituted therefor:—

> "865. The salary or remuneration of each harbour master shall from time to time be fixed by the Governor in Council, but shall not exceed the rate of one thousand two hundred dollars per annum, and shall be subject to the conditions hereinafter contained."

An Act transferring certain rights and powers in and over the harbour of St. John formerly vested in the Corporation in the City of St. John to a Board of three Commissioners appointed by the Governor in Council; this Act is termed "The St. John Harbour Commissioners' Act."

An Act to provide for a loan not exceeding five million dollars to the Vancouver Harbour Commissioners termed "The Vancouver Harbour Advances Act, 1919."

An Act fixing the rate of interest to be paid on loans by His Majesty to the Harbour Commissioners of Montreal and Quebec at five per cent after April 1, 1919.

An Act to amend the Canada Shipping Act (Transfers and Mortgages of Ships).

1. (1) A transfer, or a mortgage or a transfer of a mortgage of a British ship registered in Canada to a person not qualified to own a British ship, or to a foreign controlled company, shall not have any effect unless the same is approved by the Minister of Marine and Fisheries on behalf of His Majesty.

(2) Any person who makes or purports to make such a transfer, mortgage or transfer of mortgage without this approval shall, in respect of each offence, incur a penalty of a fine not exceeding five thousand dollars or imprisonment for any term not exceeding five years, or both fine and imprisonment, and such penalty may be imposed either upon summary conviction or upon indictment.

(3) The expression "foreign controlled company" means any corporation,—

(a) where the majority of the directors or persons occupying the position of directors by whatever name called, are not British subjects; or,

(b) where the majority of the voting power is in the hands of persons who are not British subjects, or who exercise their voting powers directly or indirectly on behalf of persons who are not British subjects; or,

(c) where the control is by any other means whatever in the hands of persons who are not British subjects; or,

(d) where the executive is a foreign controlled company, or where the majority of the executive are appointed by a foreign controlled company.

A corporation shall not be deemed to be a British subject for the purpose of this section unless it is established in and subject to the laws of some part of His Majesty's Dominions, or of some British Protectorate, and has its principal place of business therein.

(4) The said Minister may require any person who is the owner or mortgagee of a British ship registered in Canada, or who applies to be registered as the owner or mortgagee of a British ship registered in Canada, to furnish to him such particulars as appear necessary to him for the purpose of ascertaining whether or not that person is, or is a trustee for, or otherwise represents, a foreign controlled company, and, in the case of a corporation, may also require the secretary, or any other officer of the corporation performing the duties of secretary, to furnish those particulars.

If any person fails to supply such particulars as it is in his power to give when required, or furnishes particulars which are false in any material particular, he shall be guilty of an offence and shall incur a penalty of a fine not exceeding five thousand dollars or imprisonment for any term not exceeding five years, or both fine and imprisonment, and such penalty may be imposed either upon summary conviction or upon indictment.

2. Where, after the passing of this Act, any person who is the owner or mortgagee of a British ship registered in Canada ceases to be a British subject or becomes a foreign controlled company, that ship, or, in the case of a mortgagee of a ship, the interest of the mortgagee, shall be subject to forfeiture under Part 1 of the Merchant Shipping Act, 1894.

3. In this Act, unless the context otherwise required any reference to a ship shall include a reference to a share in a ship.

4. This Act shall continue in operation for three years.

An Act to amend the Act respecting the appointment of a Harbour Master at the Port of Halifax.

1. Section two of chapter seventy-eight of the statutes of 1885, entitled An Act to amend the Acts respecting the appointment of a Harbour Master of the Port of Halifax, is repealed, and the following is substituted therefor:—

"2. The Harbour Master of the port of Halifax may, out of the moneys received by him for fees, retain for his own remuneration such sum, not exceeding three thousand dollars per annum, as the Governor in Council may authorize;

and if the moneys received by him for fees in any calendar year amount to a less sum than that allowed by him to the Governor in Council, then such sum shall be his remuneration for that year."

2. Section seven of chapter forty-nine of the statutes of 1882, entitled An Act to amend the Act thirty-fifth Victoria, chapter forty-two, respecting the appointment of a Harbour Master for the Port of Halifax, is repealed and the following is substituted therefor:—

"7. (1) The Harbour Master for the port of Halifax shall be remunerated for his service solely by the fees, or the portion hereinafter mentioned of the fees, which he may from time to time be authorized, by the rules and regulations to be made as hereinbefore provided for, to collect, in respect of all ships over twenty tons register, entering the port of Halifax, but which shall not at any time exceed the following rates, that is to say:—

"(a) For every ship over twenty tons and not over fifty tons register, fifty cents;

"(b) For every ship over fifty tons and not over one hundred tons register, one dollar;

"(c) For every ship over one hundred tons and not over two hundred tons register, one dollar and fifty cents;

"(d) For every ship over two hundred tons and not over three hundred tons register, two dollars;

"(e) For every ship over three hundred tons and not over four hundred tons register, two dollars and fifty cents;

"(f) For every ship over four hundred tons and not over five hundred tons register, three dollars;

"(g) For every ship over five hundred tons and not over seven hundred tons register, four dollars;

"(h) For every ship over seven hundred tons and not over one thousand tons register, five dollars;

"(i) For every ship over one thousand tons register, seven dollars".

"(2) Ships of twenty tons register and under shall not be subject to any duty under this Act, nor ships engaged in trading or plying between ports and places in the Dominion of Canada."

In accordance with Section 854, Part XII, of the Canada Shipping Act, relating to Public Harbours and Harbour Masters, a number of By-Laws have been framed respecting the loading and handling of explosives in harbours.

Steamboat Inspection.

The report of the Chairman of the Board of Steamboat Inspection is published as a supplement to the annual report.

A. JOHNSTON,
Deputy Minister of Marine and Fisheries.

RULES OF THE ROAD

FOR

PREVENTING COLLISIONS AT SEA AND ON THE GREAT LAKES

Issued by the Department of Marine and Fisheries, under the provisions of Part XIV of the Canada Shipping Act, Chapter 113, Revised Statutes of Canada, 1906

RÈGLEMENTS

POUR

PRÉVENIR LES ABORDAGES EN MER ET SUR LES GRANDS LACS

Publiés par le ministère de la Marine et des Pêcheries, en vertu des dispositions de la partie XIV de la loi de la marine marchande du Canada, chapitre 113, des Statuts revisés du Canada, 1906

INTERNATIONAL RULES OF THE ROAD

IN FORCE IN ALL NAVIGABLE WATERS WITHIN CANADA OR WITHIN THE JURISDICTION OF THE PARLIAMENT THEREOF, EXCEPT THE WATERS OF LAKES SUPERIOR AND HURON, GEORGIAN BAY, LAKES ERIE AND ONTARIO, THEIR CONNECTING AND TRIBUTARY WATERS, AND THE ST. LAWRENCE RIVER AS FAR EAST AS THE LOWER EXIT OF THE LACHINE CANAL AND THE VICTORIA BRIDGE AT MONTREAL

ORDERS IN COUNCIL.

AT THE GOVERNMENT HOUSE AT OTTAWA.

TUESDAY, the 9th day of February, 1897.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

Whereas, by the fourteenth section of the Act intituled "An Act respecting navigation of Canadian Waters," being chapter 79 of the Revised Statutes of Canada, it is enacted, that if Her Majesty, by Order in Council, annuls or modifies any of the regulations for preventing collisions on navigable waters which, by order of Her Majesty in Council of the fourteenth day of August, 1879, were substituted for those theretofore in force for like purposes in the United Kingdom, or makes new regulations in addition thereto, or in substitution therefor, the Governor in Council may from time to time make corresponding changes, as respects Canadian waters, in the regulations contained in the second section of the Act hereinbefore quoted:

And whereas, by an order of Her Majesty in Council, dated the 27th day of November, 1896, the existing regulations for preventing collisions at sea were annulled, and new regulations submitted therefor:

His Excellency, under the provisions of the fourteenth section of the said Act, chapter 79 of the Revised Statutes, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the following Rules and Regulations, which are in conformity with the regulations approved by the order of Her Majesty in Council of the 27th of November, 1896, be substituted for the existing second section of the said Act, chapter 79 of the Revised Statutes; and that the said new Rules and Regulations shall come into operation on and from the first day of July, 1897:

And His Excellency doth further order that the Minister of Marine and Fisheries do bring the provisions of the sections thus amended to the notice of the owners and masters of Canadian vessels.

RÈGLEMENTS INTERNATIONAUX POUR PRÉVENIR LES ABORDAGES

EN VIGUEUR DANS TOUTES LES EAUX NAVIGABLES DU CANADA OU SOUS LA JURIDICTION DU PARLEMENT CANADIEN, SAUF LES EAUX DES LACS SUPÉRIEUR ET HURON, LA BAIE GEORGIENNE, LES LACS ÉRIÉ ET ONTARIO, LEURS EAUX TRIBUTAIRES ET LE FLEUVE SAINT-LAURENT, AUSSI LOIN À L'EST QUE LA SORTIE DU CANAL LACHINE ET LE PONT VICTORIA À MONTRÉAL.

ARRÊTÉS EN CONSEIL

HÔTEL DU GOUVERNEMENT À OTTAWA.

MARDI, le 9e jour de février 1897.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Considérant que par le quatorzième article de l'acte intitulé "Acte concernant la navigation dans les eaux canadiennes", étant le chapitre 79 des Statuts revisés du Canada, il est statué que si Sa Majesté, suspend ou annule, par un arrêté en conseil, l'opération de certaines dispositions des règles pour prévenir les abordages sur les eaux navigables, qui, par un arrêté de Sa Majesté en conseil portant la date du quatorzième jour d'août 1879, avaient été substituées à celles jusque-là en vigueur au même effet dans le Royaume-Uni, ou établit de nouvelles règles par voie d'addition ou de substitution auxdites règles, le Gouverneur en conseil pourra, au besoin, faire des changements correspondants, relativement aux eaux canadiennes, aux règles contenues dans l'article 2 du présent acte.

Et considérant que par un arrêté de Sa Majesté en conseil, en date du 27e jour de novembre 1896, les règlements actuels pour prévenir les abordages en mer ont été annulés et remplacés par de nouveaux règlements,—

Il plaît à Son Excellence, en vertu des dispositions du quatorzième article dudit acte, chapitre 79 des Statuts revisés, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que les règles et règlements suivants, qui sont en conformité des règlements approuvés par l'arrêté de Sa Majesté en conseil du 27 novembre 1896, soient substitués au présent deuxième article dudit acte, chapitre 79 des Statuts revisés; et que lesdits nouveaux règlements et règles deviennent en vigueur à compter du premier jour de juillet 1897;

Et Son Excellence ordonne de plus que le ministre de la Marine et des Pêcheries fasse connaître aux propriétaires et capitaines de vaisseaux canadiens les dispositions de l'article qui sont ainsi modifiées.

REGULATIONS FOR PREVENTING COLLISIONS AND FOR DISTRESS SIGNALS.

The following rules with respect to lights for signals, distress signals, steering and sailing, and rafts shall apply to all rivers, lakes and other navigable waters within Canada, or within the jurisdiction of the Parliament thereof, that is to say:—

Preliminary.

In the following rules every steam vessel which is under sail and not under steam is to be considered a sailing vessel, and every vessel under steam, whether under sail or not, is to be considered a steam vessel.

The word "steam vessel" shall include any vessel propelled by machinery.

A vessel is "under way" within the meaning of these rules, when she is not at anchor, or made fast to the shore or aground.

Rules concerning lights, etc.

The word "visible" in these rules, when applied to lights, shall mean visible on a dark night with clear atmosphere.

ARTICLE 1. The rules concerning lights shall be complied with in all weathers from sunset to sunrise, and during such time no other lights which may be mistaken for the prescribed lights shall be exhibited.

ARTICLE 2. A steam vessel when under way shall carry.

(*a*) On or in front of the foremast, or if a vessel without a foremast, then in the forepart of the vessel, at a height above the hull of not less than 20 feet, and if the breadth of the vessel exceeds 20 feet, then at a height above the hull not less than such breadth, so, however, that the light need not be carried at a greater height above the hull than 40 feet, a bright white light, so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the light 10 points on each side of the vessel, viz., from right ahead to 2 points abaft the beam on either side, and of such a character as to be visible at a distance of at least 5 miles.

(*b*) On the starboard side a green light, so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 2 miles.

(*c*) On the port side, a red light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side, and of such a character as to be visible at a distance of at least 2 miles.

(*d*) The said green and red side-lights shall be fitted with inboard screens projecting at least 3 feet forward from the light, so as to prevent these lights from being seen across the bow.

(*e*) A steam vessel when under way may carry an additional white light similar in construction to the light mentioned in subdivision (*a*). These two lights shall be so placed in line with the keel that one shall be at least 15 feet higher than the other, and in such a position with reference to each other that the lower light shall be forward of the upper one. The vertical distance between these lights shall be less than the horizontal distance.

ARTICLE 3. A steam vessel when towing another vessel shall, in addition to her side-lights, carry two bright white lights in a vertical line one over the other, not less

SESSIONAL PAPER No. 22

RÈGLEMENTS POUR PRÉVENIR LES ABORDAGES ET CONCERNANT LES SIGNAUX DE DÉTRESSE.

Les règlements suivants concernant les feux, les signaux en temps de brume, les signaux de détresse, la route à tenir, et les trains de bois, s'appliqueront à tous les fleuves, rivières, lacs et autres eaux navigables du Canada, ou tombant sous la juridiction de son parlement, savoir:—

Disposition préliminaire.

Dans les règles qui suivent, tout navire à vapeur, qui ne marche qu'à l'aide de ses voiles, est considéré comme un navire à voiles; et tout navire à vapeur dont la machine est en action est considéré comme navire à vapeur, qu'il se serve de ses voiles ou ne s'en serve pas.

L'expression "navire à vapeur" comprend tout navire mû par des machines.

Un navire est en "marche" dans le sens des présents règlements lorsqu'il n'est pas à l'ancre ou amarré au rivage ou échoué.

Règle concernant les feux, etc.

L'expression "visible" employée dans les présents règlements, au sujet des feux, signifie visible par une nuit sombre, mais sans brume.

ARTICLE 1. Les règlements concernant les feux seront suivis par tous les temps entre le coucher et le lever du soleil, et durant ce temps il ne sera exhibé aucun autre feu qui pourrait être pris par erreur pour un feu réglementaire.

ARTICLE 2. Un navire à vapeur, lorsqu'il est en marche, portera les feux suivants:

(*a*) Sur ou en avant du mât de misaine, ou si c'est un navire sans mât de misaine, alors à l'avant du navire, à une hauteur de pas moins de 20 pieds au-dessus de la coque, et, si le navire a plus de 20 pieds de largeur, alors à une hauteur au-dessus de la coque au moins égale à cette largeur, de façon toutefois qu'il ne soit pas besoin de porter le feu à plus de 40 pieds au-dessus de la coque, un feu blanc placé de manière à fournir un rayonnement uniforme et non interrompu dans tout le parcours d'un arc horizontal de 20 quarts de compas,—établi de façon à projeter la lumière de 10 quarts de chaque côté du navire, c'est-à-dire, depuis l'avant jusqu'à 2 quarts en arrière du travers de chaque bord, et d'une portée telle qu'il puisse être visible à 5 milles au moins de distance;

(*b*) A tribord, un feu vert, établi de façon à projeter une lumière uniforme et non interrompue sur un arc horizontal de 10 quarts de compas,—placé de manière à projeter la lumière depuis l'avant jusqu'à deux quarts sur l'arrière du travers à tribord, et d'une portée telle qu'il puisse être visible à deux milles au moins de distance;

(*c*) A bâbord, un feu rouge établi de façon à projeter une lumière uniforme et non interrompue sur un arc horizontal de 10 quarts de compas,—placé de manière à projeter la lumière depuis l'avant jusqu'à 2 quarts sur l'arrière du travers à bâbord, et d'une portée telle qu'il puisse être visible à 2 milles au moins de distance;

(*d*) Ces feux de côté vert et rouge doivent être munis, en dedans du bord, d'écrans dirigés de l'arrière à l'avant et s'étendant à 3 pieds au moins en avant de la lumière, afin que le feu vert ne puisse pas être aperçu de bâbord avant, et le feu rouge de tribord avant;

(*e*) Un navire à vapeur lorsqu'il est en marche peut porter un feu blanc supplémentaire semblable dans la forme au feu mentionné dans la subdivision (*a*). Ces deux feux seront placés en ligne avec la quille de telle façon qu'un feu sera au moins 15 pieds plus haut que l'autre, et dans une position telle relativement l'un à l'autre que le feu d'en bas soit en avant de celui d'en haut. La distance verticale entre ces deux feux sera moindre que la distance horizontale.

ARTICLE 3. Un navire à vapeur, lorsqu'il remorque un autre navire, doit, indépendamment de ses feux de côté, porter deux feux blancs placés verticalement l'un au-

than 6 feet apart, and when towing more than one vessel shall carry an additional bright white light 6 feet above or below such lights, if the length of the tow, measuring from the stern of the towing vessel to the stern of the last vessel towed, exceeds 600 feet. Each of these lights shall be of the same construction and character, and shall be carried in the same position as the white light mentioned in article 2 (*a*), except the additional light, which may be carried at a height of not less than 14 feet above the hull.

Such steam vessel may carry a small white light abaft the funnel or aftermast for the vessel towed to steer by, but such light shall not be visible forward of the beam.

Article 4. (a). A vessel which from any accident is not under command shall carry at the same height as the white light mentioned in article 2 (*a*), where they can best be seen, and, if a steam vessel, in lieu of that light, two red lights, in a vertical line one over the other, not less than 6 feet apart, and of such a character as to be visible all round the horizon at a distance of at least 2 miles; and shall by day carry in a vertical line one over the other, not less than 6 feet apart, where they can best be seen, two black balls or shapes each 2 feet in diameter.

(*b*) A vessel employed in laying or in picking up a telegraph cable shall carry in the same position as the white light mentioned in article 2 (*a*), and if a steam vessel in lieu of that light, three lights in a vertical line one over the other, not less than 6 feet apart. The highest and lowest of these lights shall be red, and the middle light shall be white, and they shall be of such a character as to be visible all round the horizon, at a distance of at least 2 miles. By day she shall carry in a vertical line one over the other, not less than 6 feet apart, where they can best be seen, three shapes not less than 2 feet in diameter, of which the highest and lowest shall be globular in shape and red in colour, and the middle one diamond in shape and white.

(*c*) The vessel referred to in this article when not making way through the water, shall not carry side-lights, but when making way shall carry them.

(*d*) The lights and shapes required to be shown by this article are to be taken by other vessels as signals that the vessel showing them is not under command, and cannot therefore get out of the way.

These signals are not signals of vessels in distress and requiring assistance. Such signals are contained in article 31.

Article 5. A sailing vessel under way, and any vessel being towed, shall carry the same lights as are prescribed by article 2 for a steam vessel under way, with the exception of the white lights mentioned therein, which they shall never carry.

Article 6. Whenever, as in the case of small vessels under way during bad weather, the green and red side-lights cannot be fixed, these lights shall be kept at hand lighted and ready for use; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision in such manner as to make them most visible, and so that the green light shall not be seen on the port side nor the red light on the starboard side, nor, if practicable, more than 2 points abaft the beam on their respective sides.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

Article 7. Steam vessels of less than 40, and vessels under oars or sails of less than 20, tons gross tonnage, respectively, and rowing boats, when under way, shall not be obliged to carry the lights mentioned in article 2 (*a*), (*b*) and (*c*), but if they do not carry them, they shall be provided with the following lights:—

1. Steam vessels of less than 40 tons shall carry:—

dessus de l'autre, à pas moins de 6 pieds de distance, et lorsqu'il remorque plus d'un navire il portera un feu brillant supplémentaire placé à 6 pieds au-dessus ou au-dessous desdits feux, si la longueur de la remorque mesurée depuis l'arrière du remorqueur jusqu'à l'arrière du dernier navire remorqué excède 600 pieds. Chacun de ces feux doit être de la même construction et de la même portée et placé dans la même position que le feu blanc mentionné à l'article 2 (*a*), sauf le feu supplémentaire qui peut être porté à une hauteur d'au moins 14 pieds au-dessus de la coque.

Ce navire à vapeur peut porter un petit feu blanc en arrière de la cheminée ou de l'arrière-mât pour servir de guide au navire remorqué, mais ce feu ne doit pas être visible en avant du bau.

ARTICLE 4 (*a*). Un navire qui, à raison de quelque accident, n'obéit pas à la manœuvre, portera à la même hauteur que le feu blanc mentionné à l'article 2 (*a*), à l'endroit le plus visible, et, si c'est un navire à vapeur, au lieu de ce feu, deux feux rouges placés verticalement l'un au-dessus de l'autre à pas moins de 6 pieds de distance, et d'une nature à pouvoir être visibles tout autour de l'horizon à une distance d'au moins 2 milles; et durant le jour il portera placées verticalement l'une au-dessus de l'autre à 6 pieds au moins de distance, là où elles seront le plus visibles, deux boules ou formes noires de 2 pieds de diamètre chacune.

(*b*) Un navire employé à poser ou relever un câble télégraphique, portera, dans la même position que le feu blanc mentionné à l'article 2 (*a*), et si c'est un navire à vapeur, à la place de ce feu, trois feux placés verticalement l'un au-dessus de l'autre. Le plus haut et le plus bas de ces feux seront rouges, et celui du milieu sera blanc, et ils seront d'une nature telle à pouvoir être visibles tout autour de l'horizon, à une distance d'au moins deux milles. Le jour il portera sur une ligne verticale et l'une au-dessus de l'autre là où elles seront le plus visibles, trois formes d'au moins 2 pieds de diamètre, dont la plus haute et la plus basse seront rondes et de couleur rouge, et celle du milieu en forme de losange et blanche.

(*c*) Le navire ci-dessus, lorsqu'il est stationnaire, ne portera pas de feux de côté, mais lorsqu'il sera en marche il devra les porter.

(*d*) Ces feux et boules mentionnés au présent article seront regardés par les autres navires comme étant un signal que le navire qui les porte n'obéit plus à la manœuvre, et ne peut, par conséquent, s'écarter de leur route.

Ces signaux ne sont pas des signaux de navires en détresse et ayant besoin de secours. De tels signaux sont contenus à l'article 31.

ARTICLE 5. Un navire à voiles en marche, et tout navire à la remorque, doit porter les mêmes feux que ceux prescrits par l'article 2 pour les navires à vapeur en marche, à l'exception des feux blancs, dont il ne doit jamais faire usage.

ARTICLE 6. Lorsqu'un bâtiment à voiles est d'assez faibles dimensions pour que ses feux vert et rouge ne puissent pas être fixés d'une manière permanente, par un mauvais temps, ces feux doivent néanmoins être tenus allumés sur le pont à leurs bords respectifs, et prêts à servir; et ils seront montrés à tout navire dont il s'approchera ou qui s'en approchera, chacun de leur côté, assez à temps pour prévenir l'abordage, de manière qu'ils soient autant en vue que possible, et présentés de telle sorte que le feu vert ne puisse être aperçu du côté de bâbord, ni le feu rouge du côté de tribord, ni, si la chose est praticable, à plus de deux quarts en arrière du travers de leurs bords respectifs.

Pour rendre ces prescriptions d'une application plus certaine et plus facile, les fanaux seront peints extérieurement de la couleur du feu qu'ils contiennent, et doivent être pourvus d'écrans convenables.

ARTICLE 7. Les navires à vapeur de moins de 40 tonneaux, et les vaisseaux à rames ou à voiles de moins de 20 tonneaux de tonnage brut, respectivement, et les chaloupes à rames, en marche, ne seront pas obligés de porter les feux mentionnés à l'article (*a*), (*b*) et (*c*), mais s'ils ne les portent pas, ils seront munis des feux suivants:—

1. Les navires à vapeur jaugeant moins de 40 tonneaux porteront—

(*a*) In the forepart of the vessel, or on or in front of the funnel, where it can best be seen, and at a height above the gunwale of not less than 9 feet, a bright white light constructed and fixed as prescribed in article 2 (*a*), and of such a character as to be visible at a distance of at least 2 miles.

(*b*) Green and red side-lights constructed and fixed as prescribed in article 2 (*b*) and (*c*), and of such a character as to be visible at a distance of at least one mile, or a combined lantern showing a green light and a red light from right head to 2 points abaft the beam on their respective sides. Such lantern shall be carried not less than 3 feet below the white light.

2. Small steamboats, such as are carried by sea-going vessels, may carry the white light at a less height than 9 feet above the gunwale, but it shall be carried above the combined lantern, mentioned in subdivision 1 (*b*).

3. Vessels under oars or sails, of less than 20 tons, shall have ready at hand a lantern with a green glass on one side and a red glass on the other, which, on the approach of or to the other vessels, shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

4. Rowing boats, whether under oars or sail, shall have ready at hand a lantern showing a white light, which shall be temporarily exhibited in sufficient time to prevent collision.

The vessels referred to in this article shall not be obliged to carry the lights prescribed by article 4 (*a*) and article 11, last paragraph.

ARTICLE 8. Pilot vessels, when engaged on their station on pilotage duty, shall not show the lights required for other vessels, but shall carry a white light at the masthead, visible all round the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals, which shall never exceed 15 minutes. On the near approach of or to other vessels they shall have their side-lights lighted, ready for use, and shall flash or show them at short intervals, to indicate the direction in which they are heading, but the green light shall not be shown on the port side, nor the red light on the starboard side.

A pilot vessel of such a class as to be obliged to go alongside of a vessel to put a pilot on board, may show a white light instead of carrying it at the masthead, and may, instead of the coloured lights above mentioned, have at hand ready for use a lantern with a green glass on the one side and a red glass on the other, to be used as prescribed above.

Pilot vessels, when engaged on their station on pilotage duty, shall carry lights similar to those of other vessels of their tonnage.

ARTICLE 9.[1]

ARTICLE 10. A vessel which is being overtaken by another shall show from her stern to such last-mentioned vessel a white light or a flare-up light.

The white light required to be shown by this article may be fixed and carried in a lantern, but in such case the lantern shall be so constructed, fitted and screened that it shall throw an unbroken light over an arc of the horizon of 12 points of the compass, viz., for 6 points from right aft on each side of the vessel so as to be visible at a distance of at least one mile. Such light shall be carried as nearly as practicable on the same level as the side-lights.

ARTICLE 11. A vessel under 150 feet in length, when at anchor, shall carry forward where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light in a lantern so constructed as to show a clear, uniform, and unbroken light visible all round the horizon at a distance of at least one mile.

[1] Amended by Order in Council of June 28, 1909. (See p. 24)

(*a*) A l'avant du navire, ou sur ou en avant de la cheminée, à l'endroit où il sera le plus en vue, et à une hauteur au-dessus du plat-bord d'au moins 9 pieds, un feu brillant blanc construit et fixé tel que prescrit à l'article 2 (*a*), et de nature à être visible d'une distance d'au moins 2 milles.

(*b*) Des feux de côté vert et rouge tels que prescrits à l'article (*b*) et (*c*), et de nature à être visibles à une distance d'au moins 1 mille, ou un fanal combiné exhibant un feu vert et un feu rouge depuis l'avant jusqu'à deux quarts en arrière du travers de leurs bords respectifs. Ce fanal sera porté à au moins 3 pieds plus bas que le feu blanc.

2. Les petites chaloupes à vapeur que portent les navires de long cours pourront porter le feu blanc à une moindre hauteur que 9 pieds au-dessus du plat-bord, mais il sera porté au-dessus du fanal combiné mentionné au paragraphe 1 (*b*).

3. Les bâtiments à rames ou à voiles, jaugeant moins de 20 tonneaux, tiendront toujours prêt un fanal ayant d'un côté un verre de couleur verte, et de l'autre côté un verre de couleur rouge, et à l'approche d'un autre bâtiment ce fanal sera montré en temps opportun pour prévenir l'abordage, en ayant soin que le feu vert ne puisse être aperçu de bâbord, ni le feu rouge de tribord.

4. Les chaloupes à rames, qu'elles marchent à la rame ou à la voile, tiendront toujours prêt un fanal montrant un feu blanc qui sera temporairement exhibé en temps suffisant pour prévenir l'abordage.

Les vaisseaux mentionnés dans le présent article ne seront pas obligés de porter les feux prescrits par l'article 4 (*a*) et l'article 11, dernier paragraphe.

ARTICLE 8. Les bateaux-pilotes, lorsqu'ils sont occupés au service du pilotage dans leurs circonscriptions, ne porteront pas les mêmes feux que ceux exigés pour les autres bâtiments, mais ils porteront en tête du mât un feu blanc visible de tous les points de l'horizon, et montreront de plus un feu ou des feux intermittents à de courts intervalles qui ne devront pas être de plus de quinze minutes. A l'approche ou en approchant de tout navire, ils allumeront leurs feux de côtés, prêts à servir, et les exhiberont à de courts intervalles, pour indiquer la direction dans laquelle ils marchent, mais le feu vert ne sera pas montré du côté de bâbord, ni le feu rouge du côté de tribord.

Un bateau-pilote d'une classe qui l'oblige de se rendre le long d'un navire pour mettre un pilote à bord, peut montrer un feu blanc au lieu de le porter en tête du mât et peut, au lieu des feux de couleur mentionnés ci-dessus, tenir toujours prêt à servir, un fanal ayant un verre vert d'un côté et un verre rouge de l'autre, pour être employé tel que prescrit ci-dessus.

Les bateaux-pilotes qui ne seront pas occupés au service de pilotage dans leurs circonscriptions, porteront des feux semblables à ceux des autres navires de leur tonnage.

ARTICLE 9. (1).

ARTICLE 10. Lorsqu'un navire est prêt d'être atteint par un autre, il doit de sa poupe montrer à ce dernier un feu blanc ou un feu intermittent.

Le feu blanc que le présent article exige de montrer peut être fixé et porté dans un fanal, mais dans ce cas, le fanal sera construit, agencé et muni d'écrans de façon à projeter une lumière non interrompue sur un arc horizontal de 12 quarts de compas, savoir: pour 6 quarts depuis l'avant de chaque côté du vaisseau, et d'une portée telle qu'il puisse être visible à une distance d'au moins un mille. Ce feu sera porté autant que possible sur le même niveau que les feux de côté.

ARTICLE 11. Un navire de moins de 150 pieds de longueur, lorsqu'il est à l'ancre, portera à l'avant, à l'endroit le plus en vue, mais à une hauteur n'excédant pas 20 pieds au-dessus de la coque, un feu blanc dans un fanal construit de façon à projeter une lumière claire, uniforme et non interrompue visible de tous les points de l'horizon à une distance d'au moins 1 mille.

(1) Amendé par Arrêté en Conseil du 28 juin 1909.

A vessel of 150 feet or upwards in length, when at anchor, shall carry in the forward part of the vessel, at a height of not less than 20 and not exceeding 40 feet above the hull, one such light, and at or near the stern of the vessel, and at such a height that it shall be not less than 15 feet lower than the forward light, another such light.

The length of a vessel shall be deemed to be the length appearing in her certificate of registry.

A vessel aground in or near a fairway shall carry the above light or lights, and the two red lights prescribed by article 4 (*a*).

Article 12. Every vessel may, if necessary in order to attract attention, in addition to the lights which she is by these rules required to carry, show a flare-up light or use any detonating signal that cannot be mistaken for a distress signal.

Article 13. Nothing in these rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by ship-owners, which have been authorized by their respective governments and duly registered and published .

Article 14. A steam vessel proceeding under sail only, but having her funnel up, shall carry in daytime forward, where it can best be seen, one black ball or shape 2 feet in diameter.

Sound signals for fog, etc.

Article 15. All signals prescribed by this article for vessels under way shall be given:

1. By "steam vessels," on the whistle or siren.

2. By "sailing vessels and vessels towed," on the fog horn.

The words "prolonged blast" used in this article shall mean a blast of from 4 to 6 seconds' duration.

A steam vessel shall be provided with an efficient whistle or siren, sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and with an efficient fog horn, to be sounded by mechanical means, and also with an efficient bell.* A sailing vessel of 20 tons gross tonnage or upwards shall be provided with a similar fog horn and bell. In fog, mist, falling snow, or heavy rainstorms, whether by day or night, the signals described in this article shall be used as follows, viz.:—

(*a*) A steam vessel having way upon her, shall sound, at intervals of not more than 2 minutes, a prolonged blast.

(*b*) A steam vessel under way, but stopped and having no way upon her, shall sound at intervals of not more than 2 minutes, two prolonged blasts, with an interval of about one second between them.

(*c*) A sailing vessel under way shall sound, at intervals of not more than one minute, when on the starboard tack one blast, when on the port tack two blasts in succession, and when with the wind abaft the beam three blasts in succession.

(*d*) A vessel when at anchor, shall, at intervals of not more than one minute, ring the bell rapidly for about five seconds.

(*e*) A vessel, when towing, a vessel employed in laying or in picking up a telegraph cable, and a vessel under way, which is unable to get out of the way of an approaching vessel through being not under command, or unable to manœuvre as required by these

* In all cases where the Rules require a bell to be used a drum may be substituted on board Turkish vessels, or a gong where such articles are used on board small sea-going vessels.

Un navire de 150 pieds ou plus de longueur, lorsqu'il est à l'ancre, portera à l'avant, à une hauteur d'au moins 20 et ne dépassant pas 40 pieds au-dessus de la coque, un semblable feu, et à la poupe ou près de la poupe, et à une hauteur qui ne sera pas moins que 15 pieds plus bas que le feu d'avant, un autre feu semblable.

La longueur du navire sera censée être celle indiquée sur son certificat d'enregistrement.

Un navire échoué dans ou près d'une passe, portera le feu ou les feux ci-dessus et les deux feux rouges prescrits par l'article 4 (*a*).

ARTICLE 12. Chaque navire peut, si c'est nécessaire, pour attirer l'attention, en sus des feux que les présents règlements l'obligent de porter, montrer un feu intermittent, ou employer tout signal résonnant qui ne peut être pris erronément pour un signal de détresse.

ARTICLE 13. Rien de contenu dans les présents règlements n'interviendra dans l'opération de toutes règles spéciales établies par le gouvernement d'une nation quelconque au sujet de feux supplémentaires de station et de signal pour deux navires de guerre ou plus, ou pour des vaisseaux à voiles naviguant de conserve, ou dans les signaux particuliers adoptés par les propriétaires de navires et qui sont autorisés par leurs gouvernements respectifs et dûment enregistrés et publiés.

ARTICLE 14. Un navire à vapeur marchant à la voile seulement, mais ayant sa cheminée debout, portera à l'avant, pendant le jour, à l'endroit le plus en vue, une boule ou forme noire de 2 pieds de diamètre.

Signaux phoniques pour temps de brume, etc.

ARTICLE 15. Tous les signaux prescrits par le présent article pour les navires en marche, seront donnés—

1. Par les "navires à vapeur" par le sifflet ou la sirène;
2. Par les "navires à voiles et les navires remorqués" par le cornet de brume.

Les mots "coup prolongé" employés dans le présent article signifient un coup de 4 à 6 secondes.

Un navire à vapeur doit être pourvu d'un sifflet à vapeur ou de quelque autre moyen efficace de faire entendre un signal produit par la vapeur ou quelque substitut à la vapeur, lequel sera placé de manière à ce que le son ne puisse être intercepté par aucune obstruction et d'un cor de brume actionné par un appareil mécanique, et aussi d'une forte cloche;* un navire à voiles d'un tonnage brut de 20 tonneaux ou plus doit être pourvu d'un fort cornet actionné par un soufflet ou autre appareil mécanique, et aussi d'une forte cloche; en temps de brume, de brouillard ou de neige, soit de jour soit de nuit, les navires feront usage des signaux décrits dans le présent article, comme suit, savoir:—

(*a*) Un navire à vapeur en marche donnera, à des intervalles de pas plus de 2 minutes, un coup prolongé;

(*b*) Un navire à vapeur en marche, mais arrêté et sans mouvement, sonnera à des intervalles de deux minutes au plus, 2 coups prolongés, avec un intervalle d'environ une seconde entre chacun;

(*c*) Un navire à voiles en marche donnera, au moyen de son cornet, à des intervalles de pas plus d'une minute, s'il est amuré sur tribord, un coup, s'il est amuré sur bâbord deux coups de suite, et s'il est vent arrière, trois coups de suite;

(*d*) Un navire à l'ancre, à des intervalles de pas plus d'une minute, sonnera rapidement la cloche pendant à peu près cinq secondes.

(*e*) Un navire qui en remorque un autre employé à poser ou relever un câble télégraphique, et un navire en marche, qui est incapable de s'écarter du chemin d'un navire qui approche parce qu'il n'obéit pas à la manœuvre, ou qu'il est incapable de manœuvrer tel que requis par les présents règlements, sonnera, au lieu des signaux

* Chaque fois que ces règlements exigent l'emploi d'une cloche, celle-ci pourra être remplacée par un tambour sur les navires turcs, ou par un gong à bord des petits navires de mer qui se servent de ces instruments.

rules shall, instead of the signals prescribed in subdivisions (*a*) and (*c*) of this article, at intervals of not more than 2 minutes, sound three blasts in succession, viz.: one prolonged blast, followed by two short blasts. A vessel towed may give this signal and she shall not give any other.

Sailing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the above mentioned signals, but if they do not, they shall make some other efficient sound-signal at intervals of not more than one minute.

Speed of ships to be moderate in fog, etc.

ARTICLE 16. Every vessel shall, in a fog, mist, falling snow, or heavy rainstorms, go at moderate speed, having careful regard to the existing circumstances and conditions.

A steam vessel hearing, apparently forward of her beam, the fog-signal of a vessel the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

STEERING AND SAILING RULES.

Preliminary—Risk of collision.

Risk of collision can, when circumstances permit, be ascertained by carefully watching the compass bearing of an approaching vessel. If the bearing does not appreciably change, such risk shall be deemed to exist.

ARTICLE 17. When two sailing vessels are approaching one another so as to involve risk of collision, one of them shall keep out of the way of the other, as follows, viz.:—

(*a*) A vessel which is running free shall keep out of the way of a vessel which is close hauled.

(*b*) A vessel which is close hauled on the port tack shall keep out of the way of a vessel which is close hauled on the starboard tack.

(*c*) When both are running free, with the wind on different sides, the vessel which has the wind on the port side shall keep out of the way of the other.

(*d*) When both are running free, with the wind on the same side, the vessel which is to the windward shall keep out of the way of the vessel which is to leeward.

(*e*) A vessel which has the wind aft shall keep out of the way of the other vessel.

ARTICLE 18. When two steam vessels are meeting end on, or nearly end on, so as to involve risks of collision, each shall alter her course to starboard so that each may pass on the port side of the other.

This article only applies to cases where vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other; in other words, to cases in which, by day, each vessel sees the masts of the other in a line, or nearly in a line, with her own; and, by night, to cases in which each vessel is in such a position as to see both the side-lights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course; or by night, to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green

NOTE.—When, in consequence of thick weather or other causes, such vessel finds herself so close that collision cannot be avoided by the action of the giving-way vessel alone, she also shall take such action as will best aid to avert collision.
(*See* articles 27 and 29.)

prescrits dans les subdivisions (*a*) et (*c*) du présent article, à des intervalles de pas plus de 2 minutes, sonnera trois coups successifs, savoir: un coup prolongé suivi de deux coups brefs. Un navire remorqué peut donner ce signal et n'en donnera pas d'autre.

Les navires à voiles et les bateaux jaugeant moins que 20 tonneaux de tonnage brut, ne seront pas obligés de donner les signaux ci-dessus mentionnés, mais s'ils ne le font pas, ils donneront quelque autre signal sonore à des intervalles de pas plus d'une minute.

En temps de brume la vitesse des navires sera modérée, etc.

ARTICLE 16. Tout navire doit, en temps de brume, de brouillard, de neige, ou de pluie, aller à une vitesse modérée, tenant compte des circonstances et conditions du moment.

Un navire à vapeur qui entend, apparemment en avant de son travers, le signal de brume d'un vaisseau dont la position est incertaine, doit, selon les circonstances, arrêter ses machines, et ensuite naviguer avec prudence jusqu'à ce que tout danger d'abordage soit passé.

RÈGLES DE NAVIGATION POUR PRÉVENIR LES ABORDAGES.

Notions préliminaires—Risques d'abordage.

On peut s'assurer des risques d'abordage, lorsque les circonstances le permettent, en guettant soigneusement l'orientation d'un navire qui approche. Si l'orientation ne change pas sensiblement, ce risque est censé exister.

ARTICLE 17. Lorsque deux navires à voiles s'approchent l'un de l'autre de manière qu'il y ait risque d'abordage, l'un d'eux doit s'écarter du chemin de l'autre comme il suit, savoir:—

(*a*) Celui qui a du largue doit s'écarter de la route du navire naviguant au plus près.

(*b*) Celui qui est au plus près et a les amures à bâbord, doit s'écarter de la route du navire au plus près dont les amures sont à tribord.

(*c*) Si tous deux courent largue et ont le vent de côtés différents celui qui a le vent à bâbord doit s'écarter de la route de l'autre;

(*d*) Si tous deux courent largue et ont le vent du même bord, celui qui est au vent doit se tenir hors de la route de celui qui est sous le vent;

(*e*) Celui qui est vent arrière doit s'écarter de la route de l'autre navire.

ARTICLE 18. Si deux navires sous vapeur se rencontrent courant l'un vers l'autre, directement ou à peu près, et qu'il y ait risque d'abordage, tous deux doivent venir sur tribord pour passer à bâbord l'un de l'autre.

Cet article ne s'applique que dans les cas où les navires courent l'un vers l'autre, directement ou à peu près, et où il y a risque d'abordage, mais ne s'applique pas à deux navires qui doivent, en conservant chacun leur allure, s'éviter l'un l'autre;

Les seuls cas auxquels il s'applique sont lorsque chacun des deux navires court vers l'autre, directement ou à peu près, ou, en d'autres termes, lorsque, de jour, chaque navire voit les mâts de l'autre en ligne droite, ou à peu près, avec les siens propres; et, de nuit, lorsque chaque navire est dans une position telle qu'il peut voir les deux feux de côté de l'autre;

Il ne s'applique pas lorsque, de jour, un navire en voit un autre croiser sa route en avant, ou. de nuit, lorsque le feu rouge d'un navire est opposé au feu rouge de

NOTE.—Si, en raison de gros temps ou autre causes, ce navire se trouve tellement rapproché que l'abordage ne peut être évité par la seule action du navire qui cède la route, alors il agira de la meilleure manière possible pour éviter l'abordage.
(*Voir* articles 27 et 29.)

light of the other, or where a red light without a green light, or a green light without a red light is seen ahead, or where both green and red lights are seen anywhere but ahead.

ARTICLE 19. When two steam vessels are crossing so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

ARTICLE 20. When a steam vessel and a sailing vessel are proceeding in such directions as to involve risk of collision, the steam vessel shall keep out of the way of the sailing vessel.

ARTICLE 21. Where by any of these rules one or two vessels is to keep out of the way, the other shall keep her course and speed.

ARTICLE 22. Every vessel which is directed by these rules to keep out of the way of another vessel shall, if the circumstances of the case admit, avoid crossing ahead of the other.

ARTICLE 23. Every steam vessel which is directed by these rules to keep out of the way of another vessel shall, on approaching her, if necessary, slacken her speed or stop or reverse.

ARTICLE 24. Notwithstanding anything, contained in these rules, every vessel, overtaking any other, shall keep out of the way of the overtaken vessel.

Every vessel coming up with another vessel from any direction more than 2 points abaft her beam, i.e., in such a position, in reference to the vessel which she is overtaking, that at night she would be unable to see either of that vessel's side-lights, shall be deemed to be an overtaking vessel; and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing within the meanmeaning of these rules, or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

As by day the overtaking vessel cannot always know with certainty whether she is forward of or abaft this direction from the other vessel, she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

ARTICLE 25. In narrow channels every steam vessel shall, when it is safe and practicable, keep to that side of the fairway or mid-channel which lies on the starboard side of such vessel.

ARTICLE 26. Sailing vessels under way shall keep out of the way of sailing vessels or boats fishing with nets, or lines, or trawls. This rule shall not give to any vessel or boat engaged in fishing the right of obstructing a fairway used by vessels other than fishing vessels or boats.

ARTICLE 27. In obeying and construing these rules, due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

Sound signals for vessels in sight of one another.

ARTICLE 28. The words "short blast" used in this article shall mean a blast of about one second's duration.

When vessels are in sight of one another, a steam vessel under way, in taking any course authorized or required by these rules, shall indicate that course by the following signals on her whistle or siren, viz.:—

One short blast to mean: "I am directing my course to starboard."

Two short blasts to mean: "I am directing my course to port."

Three short blasts to mean: "My engines are going full speed astern."

l'autre, ou lorsque le feu vert de l'un est opposé au feu vert de l'autre, ou lorsque l'un d'eux voit en avant un feu rouge sans voir le feu vert, ou un feu vert sans voir le feu rouge, ni lorsque les deux feux verts et rouges sont visibles partout ailleurs qu'en avant.

ARTICLE 19. Si deux navires sous vapeur font des routes qui se croisent et les exposent à s'aborder, celui qui voit l'autre par tribord doit manœuvrer de manière à ne pas gêner la route de ce dernier.

ARTICLE 20. Si deux navires, l'un à voiles, l'autre sous vapeur, font des routes qui les exposent à s'aborder, le navire sous vapeur doit manœuvrer de manière à ne pas gêner la route du navire à voiles.

ARTICLE 21. Lorsque, d'après les règles qui précèdent, l'un des deux navires doit s'écarter de la route de l'autre, celui-ci poursuivra sa route sans ralentir sa vitesse.

ARTICLE 22. Tout navire qui, d'après les présents, doit céder la route à un autre navire, doit, si les circonstances le permettent, éviter de croiser la route de l'autre.

ARTICLE 23. Tout navire à vapeur qui, d'après les présents règlements, doit céder la route à un autre navire, doit en l'approchant, si c'est nécessaire, ralentir sa vitesse, ou stopper ou faire machine en arrière.

ARTICLE 24. Nonobstant tout ce qui est contenu aux présents règlements, chaque navire qui en atteint un autre, doit s'écarter du navire atteint.

Chaque navire atteignant un autre navire d'une direction quelconque plus que deux quarts en arrière de son travers, *i.e.*, dans une position telle, relativement au navire atteint, que pendant la nuit le premier navire serait incapable de voir aucun des feux de côté du dernier navire, sera censé être un navire atteignant, et nul changement subséquent dans l'orientation entre les deux navires ne rendra un navire atteignant un navire croisant dans le sens des présents règlements, ni ne l'exemptera du devoir de s'écarter de la route du navire atteint, tant que le premier ne sera pas passé et libre.

Vu que pendant le jour le navire atteignant ne peut pas toujours savoir avec certitude s'il est en avant ou en arrière de cette direction d'après l'autre navire, il doit, dans le doute, présumer qu'il est un navire atteignant, et s'écarter de la route.

ARTICLE 25. Dans les passages ou chenaux étroits, tout navire à vapeur doit, si la chose est sûre et praticable, se tenir du côté du passage ou du milieu du chenal qui se trouve à tribord de ce navire.

ARTICLE 26. Les bâtiments à voiles en marche s'écarteront de la route des vaisseaux ou bateaux à voiles pêchant avec des rets, ou des lignes, ou des lignes dormantes. Cette présente règle ne donnera pas à tout vaisseau ou bateau engagé à pêcher, le droit d'obstruer un passage fréquenté par d'autres vaisseaux que des vaisseaux ou bateaux de pêche.

ARTICLE 27. En se conformant aux règles qui précèdent et les interprétant, il faut tenir compte de tous les dangers de la navigation, et avoir égard à toutes les circonstances particulières qui peuvent rendre nécessaire une dérogation à ces règles, afin de parer à un péril immédiat.

Signaux par sons pour les navires en vue l'un de l'autre.

ARTICLE 28. Les mots "coup bref" employés dans le présent article, signifient un coup d'environ une seconde.

Lorsque des navires sont en vue les uns des autres, un navire à vapeur en marche, en prenant toute direction autorisée ou requise par les présents règlements, indiquera cette direction au moyen des signaux suivants, sur sifflet ou sirène, savoir:—

Un coup bref signifie: "Je me dirige à tribord."

Deux coups brefs signifient: "Je me dirige à bâbord."

Trois coups brefs signifient: "Je recule à toute vitesse."

No vessel under any circumstances to neglect proper precautions.

ARTICLE 29. Nothing in these rules shall exonerate any vessel, or the owner, or master, or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

Reservation of rules for harbours and inland navigation.

ARTICLE 30. Nothing in these rules shall interfere with the operation of a special rule, duly made by local authority, relative to the navigation of any harbour, river, or inland waters.

Distress signals.

ARTICLE 31. When a vessel is in distress and requires assistance from other vessels or from the shore, the following shall be the signal to be used or displayed by her, either together or separately, viz.:—

In daytime—

1. A gun or other explosive signal fired at intervals of about a minute;
2. The International Code signal of distress indicated by N.C.;
3. The distant signal, consisting of a square flag, having either above or below it a ball or anything resembling a ball;
4. A continuous sounding with any fog-signal apparatus.

At night—

1. A gun or other explosive signal fired at intervals of about a minute;
2. Flames on the vessel (as from a burning tar-barrel, oil-barrel, etc.);
3. Rockets or shells, throwing stars of any colour or description, fired one at a time, at short intervals;
4. A continuous sounding with any fog-signal apparatus.

Rafts and Harbour of Sorel.

ARTICLE 32. Rafts, while drifting or at anchor on any of the waters of Canada, shall have a bright fire kept burning on them from sunset to sunrise. Whenever any raft is going in the same direction as another which is ahead, the one shall be so navigated as not to come within 20 yards of the other, and every vessel meeting or overtaking a raft shall keep out of the way thereof.

Rafts shall be so navigated and anchored as not to cause any unnecessary impediment or obstruction to vessels navigating the same waters.

ARTICLE 33. Unless it is otherwise directed by the Harbour Commissioners of Montreal, ships and vessels entering or leaving the harbour of Sorel shall take the port side, anything in the preceding articles to the contrary notwithstanding.

ARTICLE 34. The rules of navigation contained in articles 32 and 33 shall be subject to the provisions contained in articles 27 and 29.

JOHN J. McGEE,
Clerk of the Privy Council.

Nul navire ne doit, sous aucun prétexte, négliger les précautions nécessaires.

ARTICLE 29. Rien dans ces règles ne saurait affranchir un navire, quel qu'il soit, son propriétaire, son capitaine ou son équipage, des conséquences d'une omission de porter des feux ou signaux, d'un défaut de surveillance convenable, ou enfin d'une négligence quelconque des précautions commandées par la pratique ordinaire de la navigation ou par les circonstances particulières de la situation.

Réserve à l'égard des règles pour les ports et la navigation intérieure.

ARTICLE 30. Rien dans ces règles n'entravera l'opération d'une règle spéciale, régulièrement établie par une autorité locale, au sujet de la navigation d'un port, d'un fleuve, d'une rivière, ou d'eaux intérieures.

Signaux de détresse.

ARTICLE 31. Lorsqu'un navire est en détresse et a besoin du secours d'autres navires, ou de la terre, les signaux suivants seront employés et déployés par ce navire, soit ensemble soit séparément, savoir:—

Pendant le jour:—

1. Un canon ou autre signal explosif, tiré à des intervalles d'environ une minute;
2. Le signal de détresse indiqué par N.C. dans le Code international de signaux;
3. Le signal éloigné, composé d'un pavillon carré ayant, soit en haut ou en bas, une boule ou quelque chose ressemblant à une boule;
4. Un son continu produit par un appareil de signal de brume.

Pendant la nuit:—

1. Un canon ou autre signal explosif tiré à des intervalles d'environ une minute;
2. Des flammes sur le navire (telles que produites par des barils de goudron, ou d'huile, etc.);
3. Des fusées ou obus, jetant des étoiles de toute couleur ou description, tirés un à la fois, à de courts intervalles;
4. Un son continu par un appareil de signal de brume.

Trains de bois—Port de Sorel.

ARTICLE 32. Les trains de bois en dérive ou à l'ancre dans les eaux du Canada doivent tenir allumé un feu brillant depuis le coucher jusqu'au lever du soleil; tout train de bois qui suit la même route qu'un autre qui le précède doit naviguer de manière à se tenir à vingt verges de distance de l'autre, et tout bâtiment qui rencontre ou passe un train de bois doit manœuvrer de manière à ne pas gêner la route de ce train de bois.

Les trains de bois doivent naviguer et mouiller de manière à ne pas gêner inutilement la route des navires qui fréquentent les mêmes eaux.

ARTICLE 33. A moins qu'il n'en soit autrement ordonné par les Commissaires du Havre de Montréal, les navires et bâtiments entrant dans le port de Sorel ou en sortant, doivent naviguer à bâbord, nonobstant tout article ci-dessus à ce contraire.

ARTICLE 34. Les règles de navigation exprimées dans les articles 32 et 33 sont sujettes aux dispositions contenues dans les articles 27 et 29.

JOHN J. McGEE,
Greffier du Conseil privé.

AT THE GOVERNMENT HOUSE AT OTTAWA,

Monday, the 28th day of June, 1909.

PRESENT:

His Excellency the Administrator in Council.

Whereas by an order of His Majesty in Council, dated the 4th day of April, 1906, His Majesty was pleased to amend article 9, regarding lights and signals of fishing vessels and boats, of the regulations for the prevention of collisions at sea and as to signals of distress;

And whereas, it is desirable that such provisions of the said article 9 as are applicable should be incorporated in the regulations for preventing collisions in Canadian waters;

Therefore His Excellency in Council is pleased, under the provisions of Part XIV of the Canada Shipping Act, chapter 113, Revised Statutes of Canada, 1906, to order and direct that article number 9 of the regulations for preventing collisions, as established by Order in Council of the 9th day of February, 1897, shall be and the same is hereby rescinded, and the annexed article number 9, containing those provisions of the Imperial regulations in that regard as are applicable to Canadian waters, substituted therefor;

And His Excellency in Council is further pleased to order and declare, with a view to removing any doubt as to the waters in which the regulations for preventing collisions and as to signals of distress, annexed to the Order in Council of the 9th February, 1897, and as herein amended are in operation, that the said regulations shall apply to all the navigable waters within Canada or within the jurisdiction of the Parliament thereof, except the waters of Lakes Superior and Huron, Georgian bay, Lakes Erie and Ontario, their connecting and tributary waters, and the St. Lawrence river as far east as the lower exit of the Lachine canal and the Victoria bridge at Montreal.

RODOLPHE BOUDREAU,
Clerk of the Privy Council.

REGULATIONS FOR PREVENTING COLLISIONS OF SHIPS.

Article 9. Fishing vessels and fishing boats, when under way and when not required by this article to carry or show the lights hereinafter specified shall carry or show the lights prescribed for vessels of their tonnage under way.

(*a*) Open boats, by which it is to be understood boats not protected from the entry of sea water by means of a continuous deck, when engaged in any fishing at night with outlying tackle extending not more than 150 feet horizontally from the boat into the seaway, shall carry one all-round white light.

Open boats when fishing at night, with outlying tackle extending more than 150 feet horizontally from the boat into the seaway, shall carry one all-round white light, and in addition, on approaching or being approached by other vessels, shall show a second white light at least 3 feet below the first light and at a horizontal distance of at least 5 feet away from it in the direction in which the outlying tackle is attached.

(*b*) Vessels and boats, except open boats as defined in subdivision (*a*), when fishing with drift-nets, shall, so long as the nets are wholly or partly in the water, carry two white lights where they can best be seen. Such lights shall be placed so

SESSIONAL PAPER No. 22

HÔTEL DU GOUVERNEMENT À OTTAWA.

Lundi, le 28e jour de juin 1909.

PRÉSENT:

Son Excellence l'Administrateur en conseil.

Attendu que par un arrêté de Sa Majesté en conseil daté le 4e jour d'avril 1906, il a plu à Sa Majesté de modifier l'article 9 relatif aux feux et signaux que doivent porter les vaisseaux et bateaux de pêche, des règlements établis pour prévenir les abordages en mer et concernant les signaux de détresse;

Et attendu qu'il est opportun que les dites dispositions du dit article 9 qui sont applicables soient incorporées dans les règlements pour prévenir les abordages dans les eaux canadiennes,—

A ces causes, il plaît à Son Excellence en conseil, en vertu des dispositions de la partie XIV de la loi de la marine marchande au Canada, chapitre 113 des Statuts revisés du Canada, 1906, de décréter et ordonner que l'article 9 des règlements pour prévenir les abordages en mer, tels qu'établis par arrêté en conseil du 9 février 1897, soit et il est par le présent rescindé, et il est remplacé par l'article 9 ci-annexé, contenant les dispositions des règlements impériaux à ce sujet qui sont applicables aux eaux canadiennes;

Il plaît en outre à Son Excellence en conseil de décréter et déclarer, dans le but de lever tout doute quant aux eaux dans lesquelles sont en vigueur les règlements pour prévenir les abordages et concernant les signaux de détresse, annexés à l'arrêté en conseil du 9 février 1897, que les dits règlements s'appliquent à toutes les eaux navigables en Canada ou sous la juridiction du parlement canadien, sauf les eaux des lacs Supérieur et Huron, la baie Georgienne, les lacs Erié et Ontario, leurs eaux tributaires, et le fleuve Saint-Laurent aussi loin à l'est que la sortie du canal Lachine et le pont Victoria, à Montréal.

RODOLPHE BOUDREAU,
Greffier du Conseil privé.

RÈGLEMENTS POUR PRÉVENIR LES ABORDAGES DES NAVIRES.

Article 9. Les vaisseaux de pêche et bateaux de pêche, lorsqu'ils sont en marche, et qu'ils ne sont pas obligés par le présent article de porter ou montrer les feux ci-après spécifiés, porteront ou montreront les feux prescrits pour les vaisseaux de leur tonnage en marche.

(*a*) Les bateaux non pontés, par lesquels on entend les bateaux qui ne sont pas protégés contre l'entrée de l'eau au moyen d'un pont continu, lorsque la nuit ils sont occupés à pêcher avec des engins tendus à pas plus de 150 pieds horizontalement en mer, porteront un feu blanc visible de tous les points de l'horizon.

Les bateaux non pontés, lorsque la nuit ils pêchent avec des engins tendus à plus de 150 pieds horizontalement en mer, porteront un feu blanc visible de tous les points de l'horizon, et de plus, en approchant d'autres vaisseaux, ou que d'autres vaisseaux s'en approchent, montreront un deuxième feu blanc placé au moins 3 pieds plus bas que le premier feu, et à une distance horizontale d'au moins 5 pieds dans la direction dans laquelle est attaché l'engin de pêche tendu.

(*b*) Les vaisseaux et bateaux, sauf les bateaux non pontés définis à la subdivision (*a*), pêchant aux filets traînants, porteront, tant que les filets sont complètement ou partiellement dans l'eau, deux feux blancs, là où ils peuvent être le mieux vus. Ces feux doivent être placés de manière que la distance verticale entre eux ne soit pas de

that the vertical distance between them shall be not less than 6 feet and not more than 15 feet, and so that the horizontal distance between them, measured in a line with the keel, shall be not less than 5 feet and not more than 10 feet. The lower of these two lights shall be in the direction of the nets, and both of them shall be of such a character as to show all round the horizon, and to be visible at a distance of not less than 3 miles.

(*c*) Vessels and boats, except boats as defined in subdivision (*a*), when line-fishing, with their lines out and atached to or hauling their lines, and when not at anchor or stationary, within the meaning of subdivision (*g*), shall carry the same lights as vessels fishing with drift-nets. When shooting lines or fishing with towing lines, they shall carry the lights prescribed for a steam or sailing vessel under way, respectively.

(*d*) Oyster dredges and other vessels fishing with dredge nets, shall—

1. If steam vessels, carry in the same position as the white light mentioned in article 2 (*a*), a tri-coloured lantern so constructed and fixed as to show a white light from right ahead to 2 points on each bow, and a green light and a red light over an arc of the horizon from 2 points on each bow to 2 points abaft the beam on the starboard and port sides, respectively; and not less than 6 nor more than 12 feet below the tri-coloured lantern a white light in a lantern, so constructed as to show a clear uniform and unbroken light all round the horizon.

2. If sailing vessels, shall carry a white light in a lantern, so constructed as to show a clear uniform and unbroken light all round the horizon, and shall also, on the approach of or to other vessels, show where it can best be seen a white flare-up light or torch in sufficient time to prevent collision.

All lights mentioned in subdivision (d) 1 and 2 shall be visible at a distance of at least 2 miles.

(*e*) Fishing vessels and fishing boats may at any time use a flare-up light in addition to the lights which they are by this article required to carry and show, and they may also use working lights.

(f) Every fishing vessel and every fishing boat under 150 feet in length, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least one mile.

Every fishing vessel of 150 feet in length or upwards, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least one mile, and shall exhibit a second light as provided for vessels of such length by article 11.

Should any such vessel, whether under 150 feet in length or of 150 feet in length or upwards, be attached to net or other fishing gear, she shall on the approach of other vessels show an additional white light at least 3 feet below the anchor light, and at a horizontal distance of at least 5 feet away from it in the direction of the net or gear.

(*g*) If a vessel or boat when fishing becomes stationary in consequence of her gear getting fast to a rock or other obstruction, she shall in daytime haul down the day signal required by subdivision (*i*); at night show the light or lights prescribed for a vessel at anchor; and during fog, mist, falling snow, or heavy rainstorms, make the signal prescribed for a vessel at anchor. (See the last paragraph of article 15.)

(*h*) In fog, mist, falling snow, or heavy rainstorms, dirft-net vessels attached to their nets, and vessels when dredging, or when line-fishing with their lines out, shall, if of 20 tons gross tonnage or upwards, respectively, at intervals of not more than one minute, make a blast; if steam vessels with the whistle or siren, and if sailing vessels with the fog-horn; each blast to be followed by ringing the bell. Fishing vessels and

moins de 6 pieds ni de plus de 15 pieds, et de manière que la distance horizontale qui les sépare, mesurée en ligne avec la quille du navire, ne soit pas de moins de 5 pieds ni de plus de 10 pieds. Le plus bas de ces deux feux sera dans la direction des filets, et tous les deux doivent avoir une portée telle et placés dans des fanaux d'une construction telle qu'ils soient visibles de tous les points de l'horizon à une distance d'au moins 3 milles.

(*c*) Les vaisseaux et bateaux, sauf les bateaux non pontés tels que définis à la subdivision (*a*), pêchant à la ligne avec leurs lignes tendues et attachés à leurs lignes ou les retirant, et lorsqu'ils ne sont pas ancrés ou stationnaires dans le sens de la subdivision (*g*), porteront les mêmes feux que les vaisseaux pêchant aux filets traînants. Lorsqu'ils jettent leurs lignes ou pêchent avec des lignes traînantes, ils porteront les feux prescrits pour les vaisseaux à vapeur ou à voiles en marche respectivement.

(*d*) Les dragues aux huîtres et autres vaisseaux pêchant à la drague—

1. S'ils sont à vapeur, porteront dans la même position que le feu blanc mentionné à l'article 2 (*a*) un fanal tricolore, construit et fixé de manière à montrer un feu blanc depuis l'avant jusqu'aux quarts de chaque côté, et un feu vert et un feu rouge sur un arc horizontal de deux quarts de chaque côté jusqu'à deux quarts sur l'arrière du travers à tribord et bâbord respectivement; et pas moins de 6 ni plus de 12 pieds au-dessous du fanal tricolore un feu blanc dans un fanal construit de manière à projeter une lumière uniforme et non interrompue visible de tous les points de l'horizon.

2. S'ils sont à voiles, ils porteront un feu blanc dans un fanal, construit de manière à projeter une lumière uniforme et non interrompue tout autour de l'horizon, et à l'approche d'autres vaisseaux, ou en les approchant, ils montreront aussi, là où il sera le mieux aperçu, un feu blanc à éclats ou une torche en temps suffisant pour éviter l'abordage.

Tous les feux mentionnés à la subdivision (*d*) 1 et 2 seront visibles à une distance d'au moins 2 milles.

(*e*) Les vaisseaux et bateaux de pêche pourront en tout temps employer un feu à éclats en sus des feux que le présent article les oblige de porter et montrer, et ils pourront aussi se servir de feux portatifs.

(*f*) Chaque vaisseau de pêche et chaque bateau de moins de 150 pieds de longueur, à l'ancre, devra montrer un feu blanc visible de tous les points de l'horizon à une distance d'un mille au moins.

Chaque vaisseau de pêche de 150 pieds de longueur ou plus, à l'ancre, montrera un feu blanc visible de tous les points de l'horizon, à une distance d'au moins un mille, et montrera un deuxième feu tel que prescrit pour les vaisseaux de cette longueur par l'article 11.

Si un tel vaisseau, qu'il ait moins de 150 pieds de longueur, ou ait 150 pieds de longueur ou plus, est attaché à un filet ou autre engin de pêche, il montrera, à l'approche d'autres vaisseaux, un autre feu blanc placé 3 pieds au moins plus bas que le feu de mouillage, et à une distance horizontale d'au moins 5 pieds dans la direction du filet ou engin.

(*g*) Si un vaisseau qui fait la pêche devient stationnaire par suite de ce que son engin de pêche s'est accroché à une roche ou à quelque autre obstacle, le jour il descendra la marque prescrite par la subdivision (*i*), la nuit il montrera le feu ou les feux prescrits pour un vaisseau à l'ancre; et dans les temps de brume, de brouillard, de neige ou de grosses pluies il fera le signal prescrit pour un vaisseau à l'ancre. (Voir le dernier paragraphe de l'article 15.)

(*h*) Dans les temps de brume, de brouillard, de neige ou de grosses pluies, les vaisseaux à filets traînants attachés à leurs filets, et les vaisseaux pêchant à la traînée, ou à la ligne avec leurs lignes tendues, devront, s'ils sont de 20 tonneaux de tonnage brut ou plus, respectivement, à des intervalles d'une minute au plus, sonner le sifflet ou la sirène, s'ils sont à vapeur, ou faire résonner le cornet s'ils sont à voiles; chaque son

boats of less than 20 tons gross tonnage shall not be obliged to give the above-mentioned signals; but if they do not, they shall make some other efficient sound signal at intervals of not more than one minute.

(i) All vessels or boats fishing with nets or lines, when under way, shall in daytime indicate their occupation to an approaching vessel by displaying a basket or other efficient signal where it can best be seen. If vessels or boats at anchor have their gear out, they shall, on the approach of other vessels, show the same signal on the side on which those vessels can pass.

The vessels required by this article to carry or show the lights hereinbefore specified shall not be obliged to carry the lights prescribed by article 4 (*a*), and the last paragraph of article 11.

sera suivi d'un coup de cloche. Les vaisseaux de pêche et les bateaux de moins de 20 tonneaux de tonnage brut ne seront pas obligés de donner les signaux ci-dessus, mais sinon, ils feront d'autres signaux à des intervalles d'au moins une minute.

(*i*) Tous les bateaux ou bateaux pêchant aux filets ou lignes ou dragues, en marche, le jour indiqueront leur occupation à un vaisseau approchant, en déployant un panier ou autre bon signal où il sera le mieux aperçu. Si des vaisseaux ou bateaux à l'ancre ont leurs engins tendus, ils montreront à l'approche d'autres vaisseaux le même signal du côté où peuvent passer ces vaisseaux.

Les vaisseaux que le présent article oblige de porter ou de montrer les feux ci-dessus décrits, ne seront pas obligés de porter les feux prescrits par l'article 40 (*a*) et le dernier paragraphe de l'article 11.

RULES OF THE ROAD FOR THE GREAT LAKES

INCLUDING GEORGIAN BAY, THEIR CONNECTING AND TRIBUTARY WATERS, AND THE ST. LAWRENCE RIVER AS FAR EAST AS THE LOWER EXIT OF THE LACHINE CANAL AND THE VICTORIA BRIDGE AT MONTREAL.

ORDER IN COUNCIL

AT THE GOVERNMENT HOUSE AT OTTAWA.

FRIDAY, the 4th day of February, 1916.

PRESENT:

HIS ROYAL HIGHNESS THE GOVERNOR GENERAL IN COUNCIL.

Whereas it is considered necessary to revise the rules of the road for the Great Lakes including Georgian Bay, their connecting and tributary waters, etc., adopted by Order in Council of the 20th April, 1905, as owing to the increased use in recent years of motor boats and other small craft on the inland waters, the present rules have become inadequate to meet present conditions.

And whereas the present rules differ from the United States rules of the road for the same waters, and one of the principal objects of the revision is to harmonize the Canadian rules with the United States rules, which object has been accomplished in the revised rules hereto annexed.

And whereas the adoption of the said revised rules is desired by Canadian shipping interests on the Great Lakes.

Therefore His Royal Highness the Governor General in Council, in pursuance of the provisions of section 913 of the Canada Shipping Act, chapter 113 of the Revised Statutes of Canada, 1906, is pleased to order as follows:—

The annexed Revised Rules are hereby adopted as the Rules of the Road for navigating the Great Lakes including Georgian Bay, their connecting and tributary waters and the St. Lawrence river as far east as the lower exit of the Lachine canal and the Victoria bridge at Montreal, the same to take effect on and after the 1st day of March, 1916, and all other rules or regulations adopted by Order in Council governing the navigation of the said waters, and all Orders in Council previously passed adopting such rules or regulations are hereby repealed.

RODOLPHE BOUDREAU,
Clerk of the Privy Council.

RÈGLEMENTS POUR PRÉVENIR LES ABORDAGES SUR LES GRANDS LACS

SUR LES EAUX DE LA BAIE GEORGIENNE, SUR CELLES LES RELIANT OU EN ÉTANT TRIBUTAIRES, ET SUR LE FLEUVE SAINT-LAURENT, JUSQU'À LA LIMITE ORIENTALE DÉTERMINÉE PAR LA PORTE D'AVAL DE L'ÉCLUSE INFÉRIEURE DU CANAL LACHINE ET LE PONT VICTORIA, À MONTRÉAL.

ARRÊTÉ EN CONSEIL

HÔTEL DU GOUVERNEMENT À OTTAWA.

VENDREDI. le 4e jour de février 1916.

PRÉSENT:

SON ALTESSE ROYALE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Attendu qu'il est jugé nécessaire de reviser les règlements régissant la navigation sur les Grands lacs (y compris la baie Georgienne), ainsi que la navigation sur les eaux qui les relient et les eaux tributaires, etc., adoptés par un arrêté en conseil du 20 avril 1915, car à cause de l'augmentation en ces dernières années du nombre de bateaux à moteur et d'autre batellerie sur les eaux de l'intérieur, les présents règlements sont inadéquats dans les conditions actuelles.

Et attendu que les présents règlements diffèrent de ceux des Etats-Unis sur les mêmes eaux et qu'un des buts principaux de la révision est de rendre les règlements canadiens conformes à ceux des Etats-Unis, ce qui est fait dans les règlements revisés ci-annexés.

Et attendu que les intéressés dans la marine marchande sur les Grands lacs désirent l'adoption des dits règlements revisés.

Par conséquent, il plaît à Son Altesse Royale le Gouverneur en conseil, en vertu des dispositions de l'article 913 de la loi de la marine marchande au Canada, chapitre 113 des Statuts revisés du Canada, 1906, de décréter par ces présentes ce qui suit:—

Sont par ces présentes adoptés les règlements revisés ci-annexés concernant la navigation sur les Grands lacs (y compris la baie Georgienne), ainsi que la navigation sur les eaux qui les relient et les eaux tributaires, et le fleuve Saint-Laurent jusqu'à la limite orientale déterminée par la porte d'aval de l'écluse inférieure du canal Lachine et le pont Victoria, à Montréal. Ces règlements seront en vigueur à dater du premier jour de mars 1916, et tous les autres règlements adoptés par arrêté en conseil concernant la navigation des dites eaux, et tous les arrêtés en conseil antérieurs promulguant de tels règlements sont par ces présentes rescindés.

RODOLPHE BOUDREAU,
Greffier du Conseil Privé.

RULES FOR NAVIGATING THE GREAT LAKES,

Including Georgian Bay, their connecting and tributary waters and the St. Lawrence River as far East as the lower exit of the Lachine Canal and the Victoria Bridge at Montreal.

Preliminary.

In the following rules every steam vessel which is under sail and not under steam shall be considered a sail vessel; and every steam vessel which is under steam, whether under sail or not, shall be considered a steam vessel.

The words *steam vessel* and *steamer* shall include any vessel propelled by machinery.

A vessel is *under way* within the meaning of these rules, when she is not at anchor, or made fast to the shore or aground.

LIGHTS.

RULE 1. The lights mentioned in the following rules and no others shall be carried in all weathers from sunset to sunrise. The word visible in these rules when applied to lights shall mean visible on a dark night with a clear atmosphere.

RULE 2. Except in the cases hereinafter expressly provided for, a steam vessel when under way shall carry:—

(*a*) On or in front of the foremast, or if a vessel without a foremast, then in the forepart of the vessel, at a height above the hull of not less than twenty feet, and if the beam of the vessel exceeds twenty feet, then at a height above the hull not less than such beam, so, however, that such height need not exceed forty feet, a bright white light so constructed as to show an unbroken light over an arc of the horizon of twenty points of the compass, so fixed as to throw the light ten points on each side of vessel, namely, from right ahead to two points abaft the beam on either side, and of such character as to be visible at a distance of at least five miles.

(*b*) On the starboard side, a green light, so constructed as to throw an unbroken light over an arc of the horizon of ten points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least two miles.

(*c*) On the port side, a red light, so constructed as to show an unbroken light over an arc of the horizon of ten points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the port side, and of such a character as to be visible at a distance of at least two miles.

(*d*) The said green and red lights shall be fitted with inboard screens projecting at least three feet forward from the light, so as to prevent these lights from being seen across the bow.

(*e*) A steamer of over one hundred and fifty feet register length shall also carry when under way an additional bright light similar in construction to that mentioned in subdivision (*a*), so fixed as to throw the light all around the horizon and of such character as to be visible at a distance of at least three miles. Such additional light shall be placed in line with the keel at least fifteen feet higher from the deck and more than seventy-five feet abaft the light mentioned in subdivision (*a*).

RULE 3. A steam vessel having a tow other than a raft shall in addition to the forward bright light mentioned in subdivision (*a*) of rule two carry in a vertical line not less than six feet above or below that light a second bright light of the same con-

SESSIONAL PAPER No. 22

RÈGLEMENTS CONCERNANT LA NAVIGATION SUR LES GRANDS LACS.

Sur les eaux de la baie Georgienne, sur celles les reliant ou en étant tributaires, et sur le fleuve Saint-Laurent, jusqu'à la limite orientale déterminée par la porte d'aval de l'écluse inférieure du canal Lachine et le pont Victoria, à Montréal.

Dispositions préliminaires.

Pour l'application des articles du présent règlement, tout navire à vapeur faisant route uniquement à la voile, doit être considéré comme étant un navire à voiles; et tout navire à vapeur dont la machine est sous pression, doit être considéré comme navire à vapeur, qu'il se serve ou non de ses voiles.

L'expression "navire à vapeur" comprend tout navire mû par des machines.

Un navire "fait route" dans le sens du présent règlement, lorsqu'il n'est pas au mouillage, ou amarré au rivage, ou échoué.

FEUX

ARTICLE 1. Les feux dont il est fait mention dans les articles suivants du présent règlement, sont les seuls qui doivent être montrés depuis le coucher du soleil jusqu'au moment où il se lève.

L'expression "visible" employée dans le présent règlement au sujet des feux, signifie visible par une nuit noire et ciel clair.

ARTICLE 2. Excepté dans les cas expressément déterminés ci-après, tout navire à vapeur faisant route doit porter:—

(*a*) Au mât de misaine ou en avant de ce mât, ou bien, si le navire n'a pas de mât de misaine, sur la partie avant du navire, à une hauteur au-dessus du plat-bord qui ne soit pas inférieur à vingt pieds, et si la largeur du navire dépasse vingt pieds à une hauteur au-dessus du plat-bord au moins égale à cette largeur sans qu'il soit néanmoins nécessaire que cette hauteur au-dessus du plat-bord dépasse quarante pieds, un feu blanc brillant, disposé de manière à montrer une lumière ininterrompue sur tout le parcours d'un arc de l'horizon de vingt quarts or rumbs du compas, soit 10 quarts de chaque côté du navire, c'est-à-dire depuis l'avant jusqu'à 2 quarts sur l'arrière du travers de chaque bord. Ce feu doit être visible d'une distance d'au moins cinq milles.

(*b*) A tribord: un feu vert établi de manière à projeter une lumière ininterrompue sur tout le parcours d'un arc de l'horizon de 10 quarts ou rumbs du compas, c'est-à-dire depuis l'avant jusqu'à deux quarts sur l'arrière du travers à tribord. Ce feu doit être visible d'une distance d'au moins deux milles.

(*c*) A bâbord: un feu rouge établi de manière à projeter une lumière ininterrompue sur tout le parcours d'un arc de l'horizon de 10 quarts ou rumbs du compas, c'est-à-dire depuis l'avant jusqu'à deux quarts sur l'arrière du travers à bâbord. Ce feu doit être visible d'une distance d'au moins deux milles.

(*d*) Ces feux de côté, vert et rouge, doivent être mis sur des boîtes ouvertes, ou écrans, placés de chaque côté du navire, dépassant le feu d'au moins trois pieds vers la proue, et construits de manière que le feu vert ne puisse être aperçu de bâbord avant et le feu rouge de tribord avant.

(*e*) Tout navire à vapeur de plus de cent cinquante pieds de longueur faisant route doit porter un feu additionnel blanc, semblable à celui mentionné au paragraphe (*a*) disposé de manière à projeter tout autour de l'horizon une lumière claire à une distance d'au moins trois milles. Ce feu additionnel doit être placé dans le plan de la quille à quinze pieds au moins au-dessus du pont et à une distance de plus de soixante et quinze pieds en arrière du feu mentionné au paragraphe (*a*).

ARTICLE 3. Tout navire à vapeur qui remorque autre chose qu'un train de bois flotté, doit porter en outre du feu blanc brillant de l'avant, mentionné au paragraphe (*a*) de l'article deux, un deuxième feu blanc brillant semblable au feu susdit, men-

struction and character and fixed and carried in the same manner as the forward bright light mentioned in said subdivision (*a*) of rule two. Such steamer shall also carry a small bright light abaft the funnel or aftermast for the tow to steer by, but such light shall not be visible forward of the beam.

RULE 4. A steam vessel having a raft in tow shall, instead of the forward lights mentioned in rule three, carry on or in front of the foremast, or if a vessel without a foremast then in the forepart of the vessel, at a height above the hull of not less than twenty feet, and if the beam of the vessel exceeds twenty feet, then at a height above the hull not less than such beam, so however, that such height need not exceed forty feet, two bright lights in a horizontal line athwartships and not less than eight feet apart, each so fixed as to throw the light all around the horizon and of such character as to be visible at a distance of at least five miles. Such steamer shall also carry the small bright steering light aft, of the character and fixed as required in rule three.

RULE 5. A sailing vessel under way and any vessel being towed shall carry the side-lights mentioned in rule two.

A vessel in tow shall also carry a small bright light aft, but such light shall not be visible forward of the beam.

RULE 6. Whenever, as in the case of small vessels under way during bad weather, the green and red side-lights cannot be fixed, these lights shall be kept at hand lighted and ready for use, and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side, nor the red light on the starboard side, nor, if practicable, more than two points abaft the beam on their respective sides. To make the use of these portable lights more certain and easy, they shall be painted outside with the colour of the light they respectively contain, and shall be provided with suitable screens.

RULE 7. A vessel under one hundred and fifty feet register length, when at anchor, shall carry forward, where it can best be seen, but at a height not exceeding twenty feet above the hull, a white light in a lantern constructed so as to show a clear, uniform, and unbroken light, visible all around the horizon, at a distance of at least one mile.

A vessel of one hundred and fifty feet or upward in register length, when at anchor, shall carry in the forward part of the vessel, at a height of not less than twenty and not exceeding forty feet above the hull, one such light, and at or near the stern of the vessel, and at such a height that it shall not be less than fifteen feet lower than the forward light, another such light.

RULE 8 Open boats sall not be obliged to carry the side-lights required for other vessels, but shall, if they do not carry such lights, carry a lantern having a green slide on one side and a red slide on the other side; and on the approach of or to other vessels, such lantern shall be exhibited in sufficient time to prevent collision, and in such a manner that the green light shall not be on the port side, nor the red light on the starboard side. Open boats, when at anchor or stationary, shall exhibit a bright white light. They shall not, however, be prevented from using a flare-up in addition if considered expedient.

tionné au paragraphe (*a*) de l'article deux, et disposé verticalement à une distance de six pieds au moins au-dessus ou au dessous de ce premier feu. Tel navire à vapeur doit aussi porter un petit feu blanc brillant en arrière de la cheminée ou du mât d'artimon, pour permettre au navire remorqué de gouverner, mais ce feu ne doit pas être visible en avant du maître-bau.

Article 4. Tout navire à vapeur qui remorque un train de bois flotté, doit, au lieu des feux de l'avant mentionnés à l'article 3, porter au mât de misaine ou en avant de ce mât, ou bien si le navire n'a pas de mât de misaine, sur la partie avant du navire, à une hauteur au-dessus du plat-bord qui ne soit pas inférieure à vingt pieds, et si la largeur du navire dépasse vingt pieds à une hauteur au-dessus du plat-bord au moins égale à cette largeur, sans qu'il soit nécessaire que cette hauteur au-dessus du plat-bord dépasse quarante pieds, deux feux blancs brillants horizontaux, disposés en travers du navire, à une distance d'au moins huit pieds l'un de l'autre et de manière à projeter tout autour de l'horizon une lumière claire ininterrompue, à une distance d'au moins cinq milles. Tel navire à vapeur doit aussi porter le petit feu blanc brillant du mât d'artimon, mentionné à la fin de l'article 3.

Article 5. Tout voilier faisant route doit porter les feux de côté mentionnés à l'article 2; et, tout navire remorqué doit aussi porter ces mêmes feux.

Tout navire remorqué doit en outre porter à l'arrière un petit feu blanc brillant, feu qui ne doit pas être visible en avant du maître-bau.

Article 6. Lorsqu'un navire faisant route par gros temps a des dimensions trop petites pour que ses feux de côté, vert et rouge, puissent être fixés de manière permanente, ces feux doivent, néanmoins, être allumés sur le pont, chacun sur le côté réglementaire, afin que l'on puisse s'en servir instantanément. Ils doivent être montrés chacun, selon le besoin, et du bon côté, à tout bâtiment qui s'approcherait du navire qui les porte, ou dont ce dernier s'approcherait, et ce, assez à temps pour prévenir un abordage. Cette manœuvre doit être faite de telle manière que les feux de côté soient aussi visibles que possible, et présentés de telle manière que le feu vert ne puisse être aperçu du côté de bâbord, ni le feu rouge du côté du tribord, si la chose est praticable, à plus de deux quarts en arrière du travers de chacun des côtés du navire. Pour rendre l'application de cet article du règlement plus facile et plus certaine, les fanaux doivent être peints extérieurement de la couleur du feu qu'ils contiennent, et ils doivent, de plus, être pourvus d'écrans convenables.

Article 7. Un navire de moins de cent cinquante pieds de longueur, lorsqu'il est au mouillage, doit porter à l'avant, dans l'endroit où il peut être le plus apparent, mais à une hauteur n'excédant pas vingt pieds au-dessus du plat-bord, un feu blanc dans un fanal disposé de manière à projeter tout autour de l'horizon une lumière claire, uniforme et non interrompue à une distance d'au moins un mille.

Un navire de cent cinquante pieds ou plus de longueur, lorsqu'il est au mouillage, doit porter à la partie avant à une hauteur au-dessus du plat-bord de vingt pieds au moins, et de quarante pieds au plus, un feu semblable à celui mentionné plus haut, et à l'arrière ou près de l'arrière un second feu pareil qui doit être à une hauteur telle qu'il ne se trouve pas à moins de 15 pieds plus bas que celui de l'avant.

Article 8. Les embarcations ouvertes ne sont pas obligées de porter les feux de côté que l'on exige des navires, mais elles doivent, si elles ne les portent pas, porter un fanal émettant une lumière verte d'un côté et rouge de l'autre; fanal qui doit être présenté assez à temps pour éviter tout abordage et de telle sorte que le feu vert ne puisse être aperçu du côté de bâbord ni le feu rouge du côté du tribord. Les embarcations ouvertes, doivent, lorsqu'elles sont au mouillage ou stationnaires, montrer un feu blanc brillant. On ne les empêche pas cependant de montrer par surcroît un feu intermittent, si cela est opportun.

RULE 9. Sailing vessels shall at all times, on the approach of any steamer during the night-time, show a lighted torch upon that quarter to which such steamer shall be approaching.

Lights for tugs under 30 tons register (net) whose principal business is harbour towing.

RULE 10. Tugs under 30 tons register (net) whose principal business is harbour towing, shall carry the red and green side-lights carried by other steamers; and, at the foremast head, or, if the steamer has no foremast, then on top of the pilot house, a white light so constructed as to show a uniform and unbroken light over an arc of the horizon of 20 points of the compass, and so fixed as to throw the light 10 points on each side of the vessel, namely, from right ahead to 2 points abaft the beam on either side, and of such a character as to be visible at a distance of at least 3 miles; and *when towing, except when towing a raft,* shall carry an additional white light of same character and construction as the headlight, and hung not less than 3 feet vertically above or below the headlight.

When towing a raft, the two headlights shall be carried in a horizontal line athwartships not less than 4 feet apart, each so fixed as to throw the light all around the horizon, and of such a character as to be visible at a distance of at least 3 miles.

Lights to be carried by ferryboats.

RULE 11. Ferryboats propelled by steam or machinery shall carry the white light or lights and the coloured side-lights required by these rules to be carried on steam vessels, except that *double-end ferryboats* shall carry a central range of clear, bright, white lights, showing all around the horizon, placed at equal altitudes forward and aft, also on the starboard side a green light, and on the port side a red light, of such a character as to be visible on a dark night with a clear atmosphere at a distance of at least 2 miles, and so constructed as to show a uniform and unbroken light over an arc of the horizon of 10 points of the compass, and so fixed as to throw the light from right ahead to 2 points abaft the beam on their respective sides.

The green and red lights shall be fitted with inboard screens projecting at least 3 feet forward from the lights, so as to prevent them from being seen across the bow.

Lights for canal boats in tow of steam vessels.

RULE 12. Canal boats when in tow of steam vessels shall carry lights as follows:—

Canal boats when *towed astern of steam vessels and towed singly or tandem* shall each carry a green light on the starboard side, a red light on the port side, and a small bright white light aft.

When canal boats are *towed at a hawser in one or more tiers,* two or more abreast, the boat on the starboard side of each tier shall carry a green light on her starboard side, and the boat on the port side of each tier shall carry a red light on her port side, and each of the outside boats in the last tier shall also carry a small bright light aft.

When a canal boat is *towed alongside* and on the starboard side of a steamer, the boat towed shall carry a green light on the starboard side; and when towed on the port side of a steamer, the boat towed shall carry a red light on the port side.

ARTICLE 9. Les voiliers doivent en tout temps, durant la nuit, lorsqu'un navire à vapeur s'approche d'eux, montrer une torche allumée du côté où se trouve le vapeur qui approche.

Feux des remorqueurs ayant un tonnage net de moins de 30 tonneaux et principalement employés à faire du remorquage dans les ports.

ARTICLE 10. Les remorqueurs ayant un tonnage net de moins de 30 tonneaux et principalement employés à faire du remorquage dans les ports, doivent porter les feux de côté vert et rouge que portent les autres vapeurs, et, en tête du mât de misaine ou bien si ce remorqueur à vapeur n'a pas de mât de misaine, sur le haut du kiosque du pilote, un feu blanc brillant, disposé de manière à montrer une lumière ininterrompue sur tout le parcours d'un arc de l'horizon de 20 quarts ou rumbs du compas, soit 10 quarts de chaque côté du navire, c'est-à-dire, depuis l'avant jusqu'à 2 quarts sur l'arrière du travers de chaque bord. Ce feu doit être visible à une distance d'au moins 3 milles. Lorsqu'un remorqueur fait du *remorquage autre que celui d'un train de bois flotté,* il doit porter un feu blanc additionnel semblable au feu de tête de mât et suspendu verticalement à une distance d'au moins trois pieds au-dessus ou au-dessous du feu de tête de mât.

Lorsqu'un remorqueur *remorque un train de bois flotté,* les deux feux de tête de mât doivent être disposés horizontalement en travers du navire, à une distance d'au moins quatre pieds l'un de l'autre, de manière à projeter tout autour de l'horizon, une lumière claire, uniforme et ininterrompue à une distance d'au moins trois milles.

Feux que doivent porter les bacs.

ARTICLE 11. Les bacs dont la progression est obtenue par l'emploi de la vapeur ou de machines, doivent porter le ou les feux blancs et les feux de couleur des côtés que ce règlement exige des navires à vapeur; et *les bacs à proue double,* c'est-à-dire, dont la poupe est remplacée par une seconde proue, doivent porter dans le plan de leur ligne médiane longitudinale ou axe, un alignement de feux blancs brillants disposés de manière à projeter tout autour de l'horizon une lumière claire. Ces feux doivent être portés à une même hauteur à l'avant et à l'arrière du bac qui, de plus, doit porter sur ses côtés un feu vert à tribord et un feu rouge à bâbord. Ces derniers feux devront être visibles par nuit noire et ciel clair à une distance d'au moins deux milles. Ils doivent être disposés de manière à montrer une lumière ininterrompue sur tout le parcours d'un arc de l'horizon de 10 quarts ou rumbs du compas, c'est-à-dire depuis l'avant jusqu'à 2 quarts sur l'arrière du travers de chaque bord.

Ces feux de côtés, vert et rouge, doivent être mis sur des boîtes ouvertes, ou écrans, dépassant le feu d'au moins trois pieds vers la proue, et construits de manière que le feu vert ne puisse pas être aperçu de bâbord avant que le feu rouge de tribord avant.

Feux que doivent porter les bateaux naviguant sur les canaux, lorsqu'ils sont remorqués par des navires à vapeur.

ARTICLE 12. Les bateaux naviguant sur les canaux doivent, lorsqu'ils sont *remorqués un à la fois ou en tandam à l'arrière de navires à vapeur,* porter un feu vert du côté de tribord, un feu rouge du côté de bâbord et un petit feu blanc brillant à l'arrière.

Lorsque des bateaux naviguant sur les canaux sont *remorqués à l'aide d'une haussière sur plusieurs rangées,* de deux bateaux ou plus de front, le bateau se trouvant à tribord de chaque rangée doit porter un feu de côté vert à tribord, et le bateau se trouvant à bâbord de chaque rangée doit porter un feu de côté rouge à bâbord; cependant que chacun des bateaux se trouvant aux extrémités de la dernière rangée doit, en outre, porter à l'arrière un petit feu blanc brillant.

When *two canal boats are towed alongside of a steamer,* one on the starboard and one on the port side, the starboard boat shall carry a green light on the starboard side and the port boat shall carry a red light on the port side.

The *coloured side-lights* referred to in these rules for canal boat in tow of steam vessels shall be fitted with inboard screens, so as to prevent them from being seen across the bow, and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least 2 miles, and so constructed as to show a uniform and unbroken light over an arc of the horizon of 10 points of the compass, and so fixed as to throw the light from right ahead to 2 points abaft the beam on either side. The minimum size of glass globes shall not be less than 6 inches in diameter and 5 inches high in the clear.

The *small bright white light aft* required to be carried on canal boats in tow shall not be visible forward of the beam.

Lights for water craft propelled by hand power, horse-power, or by the current of the river.

RULE 13. *Any vessel propelled by hand power, horse-power, or by the current of the river,* navigating any bay, harbour, or river, or which shall be anchored or moored in or near the channel or fairway of any bay, harbour, or river, except rafts and rowing boats under oars, shall carry one white light forward not less than 8 feet above the surface of the water, which light shall be carried, from sunset to sunrise, in a lantern so fixed and constructed as to show a clear, uniform, and unbroken light, visible all around the horizon, and of such intensity as to be visible on a dark night with a clear atmosphere at a distance of at least 1 mile.

Rowing boats under oars shall have ready at hand a lantern showing a white light which shall be temporarily exhibited in sufficient time to prevent collision.

Lights for rafts.

RULE 14. Rafts propelled by hand power, horse-power, or by the current of the river, or in tow, or which shall be anchored or moored in or near a channel or fairway of other vessels, shall carry lights as follows:—

Rafts of one crib and not more than two in length shall carry one white light. Rafts of three or more cribs in length and one crib in width shall carry one white light at end of the raft. Rafts or more than one crib abreast shall carry one white light on each outside corner of the raft, making four lights in all.

Bag or boom rafts navigating or anchored in the fairway of any bay, harbour, or river shall carry a bright white light at each end of the raft, and one of such lights on each side midway between the forward and after ends.

The *white light* required by these rules for rafts shall be carried, from sunset to sunrise, in a lantern so fixed and constructed as to show a clear, uniform, and unbroken

Lorsqu'un bateau naviguant sur les canaux est *remorqué le long du bord* d'un vapeur du côté de tribord, ce bateau remorqué doit porter un feu de côté vert à tribord. Quand le bateau remorqué le long du bord d'un vapeur se trouve du côté de bâbord de ce vapeur, ce bateau remorqué doit porter un feu de côté rouge à bâbord.

Lorsque deux bateaux naviguant sur les canaux sont *remorqués le long des bords* d'un vapeur, l'un du côté de tribord et l'autre du côté de bâbord, le bateau à tribord doit porter un feu de côté vert à tribord et le bateau à bâbord un feu de côté rouge à bâbord.

Les feux de côté de couleur, dont il est question dans ce règlement, lorsqu'il s'agit de bateaux naviguant sur des canaux, mais qui sont remorqués par des vapeurs, doivent être pourvus de boîtes ouvertes ou écrans construits de telle sorte que le feu vert ne puisse être aperçu de bâbord avant, et le feu rouge de tribord avant. Ces feux de côté doivent être établis de manière à projeter une lumière ininterrompue sur tout le parcours d'un arc de l'horizon de 10 quarts ou rumbs du compas, c'est-à-dire, depuis l'avant jusqu'à deux quarts sur l'arrière du travers de chaque bord. Ils doivent, en outre, être visibles à une distance d'au moins deux milles, par nuit noire et ciel clair. Les globes des fanaux contenant ces feux ne doivent pas avoir moins de 6 pouces de diamètre et être découverts sur une hauteur d'au moins 5 pouces.

Quant *au petit feu blanc brillant* de l'arrière que doivent porter les bateaux naviguant sur les canaux, lorsqu'ils sont remorqués, il ne doit pas être aperçu en avant du maître-bau.

Feux que doivent porter les bâtiments dont la progression est due à la force humaine, à celle de chevaux ou au courant d'un cours d'eau.

Article 13. *Tout navire dont la progression est due à la force humaine, à celle de chevaux ou au courant d'un cours d'eau,* qui navigue dans une baie, dans un port ou sur un cours d'eau, ou qui est mouillé ou amarré dans ou près d'un chenal ou passe, d'une baie, d'un port ou d'un cours d'eau, exception étant faite quant aux trains de bois flotté et aux embarcations marchant à l'aviron, doit montrer à l'avant, depuis le coucher du soleil jusqu'au moment où il se lève, un feu blanc brillant, porté dans un fanal établi à une distance d'au moins 8 pieds au-dessus de la surface de l'eau, de manière à projeter tout autour de l'horizon une lumière claire à une distance d'au moins 1 mille, par nuit noire et ciel clair.

Les embarcations marchant à l'aviron doivent toujours avoir prêt un fanal garni, pour feu blanc, qui, au besoin, doit être montré assez à temps pour prévenir tout abordage.

Feux que doivent porter les trains de bois flotté.

Article 14. Les trains de bois flotté dont la progression est due à la force humaine, à celle de chevaux ou au courant d'un cours d'eau, ou qui sont remorqués, ou mouillés, ou amarrés dans ou près d'une passe ou chenal fréquenté par des navires, doivent porter les feux suivants:—

Les trains de bois flotté longs d'une part (crib) ou de deux parts au plus, doivent porter un feu blanc. Les trains de bois flotté longs de trois parts ou plus et de la largeur d'une part doivent porter un feu blanc à chacune des extrémités du train. Quant aux trains de bois flotté ayant une largeur supérieure à celle d'une part, dans le sens de leur progression, ils doivent porter un feu blanc à chacun de leurs angles extérieurs, c'est-à-dire, quatre feux en tout.

Les trains de bois flotté contenus dans une panne (boom) et qui se déplacent ou sont mouillés dans la passe d'une baie, dans un port, ou sur une rivière, doivent porter un feu blanc brillant à chacune de leurs extrémités, et un feu semblable sur chacun de leurs côtés, à mi-distance entre la tête et la queue de chaque train.

Tout *feu blanc,* dont cet article du règlement exige la présence sur les trains de bois flotté, depuis le coucher du soleil jusqu'au moment où il se lève, doit être émis par

light, visible all around the horizon, and of such intensity as to be visible on a dark night with a clear atmosphere at a distance of at least 1 mile; which lights shall be suspended from poles of such height that the light shall be not less than 8 feet above the surface of the water.

Lights and day marks for vessels not under command.

RULE 15. A vessel which from any accident is not under command shall carry at the same height as the white light mentioned in rule 2 (*a*), where they can best be seen, and, if a steam vessel, in lieu of that light, 2 red lights, in a vertical line, one over the other, not less than 6 feet apart, and of such a character as to be visible all around the horizon at a distance of at least 2 miles; and shall by day carry in a vertical line one over the other not less than 6 feet apart, where they can best be seen, 2 black balls or shapes each 2 feet in diameter.

Rules prohibiting the carrying of unauthorized lights on steam vessels.

RULE 16. No master or pilot of any steam vessel shall authorize or permit to be carried, any light, electric, or otherwise, not required by these rules, on the outside structure of the cabin or hull of the vessel that in any way will interfere with distinguishing the signal lights.

Rule relating to the use of Searchlights.

RULE 17. No master or pilot of any steam vessel shall flash or cause to be flashed the rays of the searchlight into the pilot house of any passing vessel.

FOG SIGNALS.

RULE 18. A steam vessel shall be provided with an efficient whistle, sounded by steam or by some substitute for steam, placed before the funnel not less than 8 feet from the deck, or in such other place where the sound will not be intercepted by an obstruction and of such character as to be heard in ordinary weather at a distance of at least 2 miles, and with an efficient bell, and, it is hereby made the duty of inspectors of steam vessels when inspecting the same to see that each steamer is furnished with such whistle and bell. A sailing vessel shall be provided with an efficient fog-horn and with an efficient bell.

Whenever there is thick weather by reason of fog, mist, falling snow, heavy rainstorms, or other causes, whether by day or by night, fog signals shall be used as follows:—

(*a*) A steam vessel under way, excepting only a steam vessel with raft in tow, shall sound at intervals of not more than one minute three distinct blasts of her whistle.

(*b*) Every vessel in tow of another vessel shall, at intervals of one minute, sound four bells on a good and efficient and properly placed bell as follows: By striking the bell twice in quick succession, followed by a little longer interval, and then again striking twice in quick succession (in the manner in which four bells is struck in indicating time).

(*c*) A steamer with a raft in tow shall sound at intervals of not more than one minute a screeching or Modoc whistle for from three to five seconds.

un fanal suspendu à une perche, de telle manière que le feu se trouve à une distance d'au moins 8 pieds au-dessus de l'eau, le fanal devant être établi de manière à projeter tout autour de l'horizon une lumière claire et ininterrompue, à une distance d'au moins 1 mille, par nuit noire et ciel clair.

Feux et voyants pour navires ne gouvernant pas.

ARTICLE 15. Tout navire qui par suite d'un accident ne gouverne pas, doit porter à la même hauteur que le feu blanc mentionné à l'article 2 (*a*) à l'endroit le plus apparent et si c'est un navire à vapeur au lieu dudit feu, deux feux rouges verticaux disposés l'un au-dessus de l'autre à une distance d'au moins 6 pieds, de manière à projeter une lumière visible tout autour de l'horizon à une distance d'au moins deux milles; et durant le jour il doit porter deux formes ou ballons noirs verticaux, de 2 pieds de diamètre chacun, à l'endroit le plus apparent et à une distance d'au moins 6 pieds l'un au-dessus de l'autre.

Il est défendu de porter sur les navires à vapeur des feux non autorisés.

ARTICLE 16. Nul capitaine ou pilote d'un navire à vapeur ne doit autoriser ou permettre de porter à l'extérieur des cabines ou de la coque de son bâtiment, un feu électrique ou autre non autorisé par ce règlement, et qui pourrait de quelque façon empêcher de bien reconnaître les feux de signaux du bord.

Article concernant l'emploi des projecteurs.

ARTICLE 17. Nul capitaine ou pilote d'un navire à vapeur ne doit projeter ou faire projeter les rayons d'un projecteur lumineux sur le kiosque du pilote d'un navire qu'il rencontre.

SIGNAUX DE BRUME.

ARTICLE 18. Tout navire à vapeur doit être pourvu d'un bon sifflet à vapeur, ou d'un bon dispositif analogue, établi en avant de la cheminée à une distance d'au moins huit pieds au dessus du pont, ou à tel autre endroit du bâtiment où les ondes sonores émises ne soient pas interceptées par des obstacles; la construction de ce sifflet doit être telle que par temps ordinaire le son qu'il émet puisse être entendu à une distance d'au moins deux milles. Tout vapeur doit, en outre, être pourvu d'une bonne cloche. Par les présentes il est enjoint aux inspecteurs des bateaux à vapeur de se rendre compte, au cours de leurs inspections, de la présence à bord de tout navire: du sifflet et de la cloche susmentionnés. Tout voilier doit être pourvu d'un bon cornet à bouquin et d'une bonne cloche.

Lorsque de jour ou de nuit le temps est gros, par suite de brume, de brouillard, de neige, de forte pluie, ou de toute autre cause, on doit faire les signaux suivants:—

(*a*) Tout navire à vapeur faisant route, doit, sauf s'il remorque un train de bois flotté, donner à intervalles ne dépassant pas une minute, trois sons distincts de son sifflet.

(*b*) Tout navire remorqué par un bâtiment doit, à intervalles d'une minute, piquer quatre coups de cloche sur une bonne cloche convenablement placée, et ce de la manière suivante: frapper deux coups brefs successifs, suivis d'un intervalle de temps un peu plus long, puis deux autres coups brefs successifs (ainsi qu'on le fait pour piquer les quatre coups de cloche de l'heure à bord).

(*c*) Tout vapeur qui remorque un train de bois flotté doit, à intervalles ne dépassant pas une minute, donner un coup de sifflet perçant—sifflet Modoc,—long de trois à cinq secondes.

(*d*) A sailing vessel under way and not in tow shall sound at intervals of not more than one minute—

If on the starboard tack with wind forward of a beam, one blast of her fog-horn;
If on the port tack with wind forward of the beam, two blasts of her fog-horn;
If she has the wind abaft the beam on either side, three blasts of her fog-horn.

(*e*) Any vessel at anchor and any vessel aground in or near a channel or fairway shall at intervals of not more than two minutes ring the bell rapidly for three to five seconds.

(*f*) Vessels of less than ten tons registered tonnage, not being steam vessels, shall not be obliged to give the above-mentioned signals, but if they do not they shall sound a fog-horn, or equivalent signal, at intervals of not more than one minute.

(*g*) Produce boats, fishing boats, rafts, or other water craft navigating by hand power or by the current of the river, or anchored or moored in or near the channel or fairway and not in any port, and not otherwise provided for in these rules, shall sound a fog-horn, or equivalent signal, at intervals of not more than one minute.

Speed to be moderate in fog, and so forth.

RULE 19. Every vessel shall, in thick weather, by reason of fog, falling snow, heavy rainstorms, or other causes, go at *moderate speed*. A steam vessel hearing, apparently not more than four points from right ahead, the fog-signal of another vessel shall at once reduce her speed to bare steerageway, and navigate with caution until the vessels shall have passed each other.

STEERING AND SAILING RULES.

Preliminary.

Risk of collision can, when circumstances permit, be ascertained by carefully watching the compass bearing of an approaching vessel, if the bearing does not appreciably change, such risk should be deemed to exist.

Sailing vessels.

RULE 20. When two sailing vessels are approaching one another so as to involve risk of collision one of them shall keep out of the way of the other, as follows, namely:—

(*a*) A vessel which is running free shall keep out of the way of a vessel which is closehauled.

(*b*) A vessel which is closehauled on the port tack shall keep out of the way of a vessel which is closehauled on the starboard tack.

(*c*) When both are running free, with the wind on different sides, the vessel which has the wind on the port side shall keep out of the way of the other.

(*d*) When they are running free, with the wind on the same side, the vessel which is to windward shall keep out of the way of the vessel which is to leeward.

(*d*) Tout voilier faisant route, sans être remorqué, doit, à intervalle ne dépassant pas une minute: (s'il a ses amures à tribord et le vent sur l'avant du travers, donner un son de son cornet à bouquin). (S'il a ses amures à bâbord et le vent sur l'avant du travers, donner deux sons de son cornet à bouquin.) S'il a le vent sur l'arrière du travers de l'un ou de l'autre bord, donner trois sons de son cornet à bouquin.)

(*e*) Tout navire au mouillage ou échoué dans ou près d'un chenal ou d'une passe doit à intervalles ne dépassant pas deux minutes, frapper des coups de cloche rapides pendant un laps de temps variant de trois à cinq secondes.

(*f*) Les navires, non à vapeur, qui jaugent moins de dix tonneaux nets, ne sont pas tenus de faire les signaux susmentionnés, toutefois s'ils ne font pas ces signaux, ils doivent faire un signal phonique quelconque à même d'être entendu, et qui soit répété à des intervalles de silence ne dépassant pas une minute.

(*g*) Les bateaux transportant des denrées, les bateaux de pêche, les trains de bois flotté et autres bâtiments, dont la progression est due à la force humaine ou au courant d'un cours d'eau, ou ceux qui sont mouillés ou amarrés dans ou près d'un chenal ou passe ne se trouvant pas dans un port, et pour lesquels aucun signal n'aurait été spécialement déterminé dans ce règlement, doivent donner des sons à l'aide d'un cornet à bouquin ou autre instrument analogue, à des intervalles de silence ne dépassant pas une minute.

Diminution de vitesse par temps brumeux, etc.

ARTICLE 19. Tout navire doit marcher à une *vitesse modérée*, lorsque le temps est gras (*thick weather*), c'est-à-dire lorsque l'horizon n'est pas entièrement visible, par suite de brume, de brouillard, de neige, d'une forte pluie ou de toute autre cause. Tout vapeur qui entend le signal phonique de brume d'un autre navire, provenant apparemment des quatre quarts d'un bord ou de l'autre de son avant (avant du navire entendant le son), doit immédiatement modérer sa vitesse, n'en conservant que juste assez pour obéir à l'action du gouvernail, et naviguer avec précaution jusqu'à ce que les deux bâtiments se soient dépassés.

RÈGLES DE NAVIGATION.

Notions préliminaires.

Risques d'abordage.—On peut s'assurer des risques d'abordage, lorsque les circonstances le permettent, en guettant soigneusement l'orientation d'un navire qui approche. Si cette orientation ne change pas sensiblement, ces risques sont censés exister.

Navires à voiles.

ARTICLE 20. Lorsque deux navires à voiles s'approchent l'un de l'autre de manière qu'il y ait risque d'abordage, l'un d'eux doit s'écarter de la route de l'autre, comme suit, savoir:—

(*a*) Tout navire qui a du largue doit s'écarter de la route d'un navire qui est au plus près.

(*b*) Tout navire qui est au plus près et a les amures à bâbord, doit s'écarter de la route d'un navire qui est aussi au plus près mais qui a les amures à tribord.

(*c*) Lorsque deux navires à voiles ont du largue et reçoivent le vent sur des côtés différents, celui qui reçoit le vent à bâbord doit s'écarter de la route de celui qui le reçoit à tribord.

(*d*) Lorsque deux navires à voiles ont du largue et reçoivent le vent du même côté, celui qui est au vent doit s'écarter de la route de celui qui est sous le vent.

Steam vessels.

SIGNALS.

RULE 21. In all weathers every steam vessel under way in taking any course authorized or required by these rules, shall indicate that course by the following SIGNALS on her whistle, to be accompanied, whenever required, by corresponding alteration of her helm, and every steam vessel receiving a signal from another shall promptly respond with the same signal or sound the danger signal as provided in Rule 22:—

One blast means: "I am directing my course to starboard," except when two steamers are approaching each other at right angles or obliquely, other than when one steamer is overtaking another, one short blast signifies intention of steamer which is to starboard of the other to hold course and speed.

Two blasts mean: "I am directing my course to port."

RULE 22. If, when steamers are approaching each other, the pilot of either vessel fails to understand the course or intention of the other, whether from signals being given or answered erroneously, or from other causes, the pilot so in doubt shall immediately signify the same by giving the DANGER SIGNAL of five or more short and rapid blasts of the whistle; and if both vessels shall have approached within half a mile of each other, both shall be immediately slowed to a speed barely sufficient for steerageway, and, if necessary, stopped and reversed, until the proper signals are given, answered, and understood, or until the vessels shall have passed each other.

RULE 23. Steam vessels are forbidden to use what has become technically known among pilots as "CROSS SIGNALS"—that is, answering one whistle with two, and answering two whistles with one. In all cases, and under all circumstances, a pilot receiving either of the whistle signals provided in the rules, which for any reason he deems injudicious to comply with, instead of answering it with a cross signal, shall at once sound the danger signal and observe the rule applying thereto (Rule 22).

RULE 24. The SIGNAL FOR PASSING, by the blowing of the whistle, shall be given and answered by pilots in compliance with these rules, not only when meeting " head and head," or nearly so, but at all times when passing or meeting at a distance within a half mile of each other, and whether passing to the starboard or port.

Situation.

RULE 25. When steamers are APPROACHING EACH OTHER "HEAD AND HEAD," OR NEARLY so, it shall be the duty of each steamer to pass on the port side of the other; and the pilot of either steamer may be first in determining to pursue this course, and thereupon shall give, as a signal of his intention, one short and distinct blast of his whistle, which the pilot of the other steamer shall answer promptly by a similar blast of his whistle, and thereupon such steamers shall pass on the port side of each other. But if the courses of such steamers are so far on the starboard of each other as not to be considered by pilots as meeting " head and head," or nearly so, the pilot so first deciding shall immediately give two short and distinct blasts of his whistle, which the pilot of

Navires à vapeur.

SIGNAUX.

ARTICLE 21. Par tous les temps tout vapeur faisant route doit, en prenant une route autorisée ou exigée par ce règlement, indiquer cette route à l'aide des *signaux* suivants, faits à l'aide de sons de son sifflet, signaux qui selon les besoins du moment doivent être immédiatement suivis de la manœuvre correspondante de la barre. Tout vapeur qui perçoit le signal phonique d'un autre navire doit y répondre par le même signal, ou donner les sons du signal du danger, tels que mentionnés à l'article 22 de ce règlement.

Un coup de sifflet signifie: "Je me dirige sur tribord", excepté s'il s'agit de deux vapeurs qui s'approchent l'un de l'autre à angle droit ou obliquement, mais non de deux vapeurs dont l'un atteindrait l'autre. Un coup de sifflet bref signifie que le vapeur qui se trouve à tribord de l'autre entend poursuivre sa route sans ralentir sa marche.

Deux coups de sifflet signifient: "Je me dirige sur bâbord."

ARTICLE 22. Si lorsque deux vapeurs s'approchent l'un de l'autre, l'homme de barre de l'un d'eux manque de comprendre la route que l'autre navire suit, ou a l'intention de suivre, soit que les signaux aient été mal faits ou mal compris, ou pour tout autre raison, l'homme de barre qui est dans le doute doit immédiatement faire part de son doute en faisant le signal *du danger*, c'est-à-dire, en donnant cinq coups de sifflet brefs, ou plus; que, si les deux navires se sont approchés l'un de l'autre à une distance d'un demi-mille, tous deux doivent alors ralentir leur marche de manière à pouvoir tout juste gouverner, et, si nécessaire, ils doivent stopper et renverser leur marche jusqu'à ce que les signaux convenables aient été faits, qu'il y ait été répondu, et qu'on les ait compris, ou jusqu'à ce que les navires se soient dépassés réciproquement.

ARTICLE 23. Il est défendu aux navires à vapeur de faire ce qu'on est convenu de nommer en termes techniques, parmi les navigateurs, des *signaux contraires "cross-signals,"* c'est-à-dire, répondre à un coup de sifflet par deux coups de sifflet, et à deux coups de sifflet par un coup de sifflet. Dans tous les cas et en toutes circonstances où un homme de barre entend un des soups de sifflet mentionnés dans ce règlement, et dont pour une raison quelconque il juge à propos de ne pas tenir compte, il doit au lieu de répondre par un signal contraire faire immédiatement le signal du danger et observer les dispositions prescrites ci-dessus (article 22).

ARTICLE 24. Les signaux phoniques au sifflet que doit faire un navire voulant en dépasser un autre, doivent être faits par les hommes de barre en conformité de ce règlement, et on doit y répondre aussi en conformité de ce règlement, non seulement lorsque deux navires se rencontrent faisant route "l'un sur l'autre" ou presque, mais en tout temps lorsque deux bâtiments se dépassent ou se rencontrent à un demi-mille l'un de l'autre, et ceci soit qu'un navire passe à tribord ou à bâbord de l'autre.

Position des bâtiments.

ARTICLE 25. Lorsque deux vapeurs *marchent "l'un sur l'autre"*, ou presque, chacun d'eux doit passer à bâbord de l'autre, et l'homme de barre de l'un ou de l'autre de ces bâtiments peut être le premier à se décider à manœuvrer de la sorte, en conséquence de quoi il doit faire le signal notifiant son intention, c'est-à-dire, donner un son bref et distinct de son sifflet à vapeur, auquel l'homme de barre de l'autre vapeur doit répondre promptement par un pareil coup de sifflet, et les deux vapeurs doivent alors passer à bâbord l'un de l'autre; que si les routes suivies par les deux vapeurs se trouvent tellement à tribord l'une de l'autre que les hommes de barre soient d'avis que les deux navires ne marchent pas *"l'un sur l'autre"*, ou presque, l'homme de barre qui le premier en arrive à cette conclusion doit donner immédiatement deux sons nets de son sifflet, auxquels l'homme de barre de l'autre navire doit répondre promptement par

the other steamer shall answer promptly by two similar blasts of his whistle, and they shall pass on the starboard side of each other: *Provided, however,* That in all NARROW CHANNELS where there is a current, and in the rivers Saint Mary, Saint Clair, Detroit, Niagara, and Saint Lawrence, when two steamers are meeting, the descending steamer shall have the right of way, and shall, before the vessels shall have arrived within the distance of one-half mile of each other, give the signal necessary to indicate which side she elects to take.

In the night, steamers will be considered as meeting "head and head" so long as both the coloured lights of each are in view of the other.

RULE 26. Whenever a steamer is NEARING A SHORT BEND OR CURVE in the channel, where, from the height of the banks or other cause, a steamer approaching from the opposite direction can not be seen for a distance of half a mile, the pilot of such steamer, when he shall have arrived within half a mile of such curve or bend, shall give a signal by one long blast of the whistle, which signal shall be answered by a similar blast given by the pilot of any steamer within hearing that may be approaching on the other side, and within half a mile of such bend or curve. Should such a signal be so answered by a steamer upon the farther side of such bend, then the ususal signals for meeting and passing shall immediately be given and answered; but, if the first signal of such pilot be not answered, he is to consider the channel clear and govern himself accordingly.

RULE 27. When a STEAMER IS MOVED FROM ITS DOCK OR BERTH, and other steamers are liable to approach such steamer from any direction, such steamer and any approaching steamer shall give the same signals as in case of steamers meeting at a bend; but immediately after clearing the dock or berth so as to be fully in sight they shall be governed by the rules for passing.

RULE 28. When one STEAMER IS OVERTAKING ANOTHER, and the pilot of a steamer which is astern shall desire to pass on the right or starboard hand of the steamer ahead, he shall give one short blast of the whistle, as a signal of such desire and intention, and shall put his helm to port; or if he shall desire to pass on the left or port side of the steamer ahead, he shall give two short blasts of the whistle as a signal of such desire and intention, and shall put his helm to starboard, and the pilot of the steamer ahead shall answer by the same signals; or if he does not think it safe for the steamer astern to attempt to pass at that point, he shall immediately signify the same by giving five or more short and rapid blasts of the whistle, and under no circumstances shall the steamer astern attempt to pass the steamer ahead until such time as they have reached a point where it can be safely done, when said steamer ahead shall signify her willingness by blowing the proper signals. The boat ahead shall in no case attempt to cross the bow or crowd upon the course of the passing steamer.

Every vessel coming up with another vessel from any direction more than two points abaft her beam—that is, in such a position, with reference to the vessel which she is overtaking, that at night she would be unable to see either of that vessel's side lights—shall be deemed to be *an overtaking vessel;* and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel

deux coups de sifflet pareils, et les deux navires doivent alors passer à tribord l'un de l'autre. Il est *toutefois stipulé* que dans tous les *chenaux étroits* où il existe un courant, et sur les rivières Sainte-Marie, Saint-Clair, Détroit, Niagara, et le fleuve Saint-Laurent, lorsque deux vapeurs se rencontrent le vapeur qui descend le cours d'eau a le droit de passage et doit, avant que les deux navires ne se trouvent à une distance d'un demi-mille l'un de l'autre, faire le signal de rigueur pour indiquer de quel côté de l'autre navire il a l'intention de passer. La nuit on doit admettre que deux vapeurs "*marchent l'un sur l'autre*", tant que les deux feux de couleur de l'un sont aperçus de l'autre.

Article 26. Quand un vapeur suit un chenal et s'approche *d'un coude accentué ou courbe de la voie d'eau,* dont la nature élevée de la rive, ou tout autre cause, empêche ledit navire puisse apercevoir un vapeur venant vers lui en sens opposé à une distance d'un demi-mille, l'homme de barre ainsi tenu dans l'ignorance de ce qui se passe au delà de la courbe, doit lorsque son navire arrive à un demi mille d'une telle courbe, donner un son long de son sifflet, signal auquel doit répondre par un signal pareil l'homme de barre de tout vapeur qui l'aurait entendu et marcherait à un demi-mille dudit coude ou courbe dans le sens opposé du bâtiment ayant fait le premier signal. Quand la réponse du long coup de sifflet est convenablement donnée par le navire dont on supposait la présence derrière l'obstacle, les deux navires s'approchant l'un de l'autre doivent faire immédiatement les signaux d'appel et de réponse que se font habituellement les vapeurs qui se rencontrent. Si l'homme de barre qui a fait le premier signal à l'approche d'une courbe ne reçoit pas de réponse, il est en droit de supposer que le chenal est libre et de gouverner en conséquence.

Article 27. Quand un *vapeur se déplace en quittant son bassin ou son poste d'amarrage* et que d'autres vapeurs peuvent avoir à s'en approcher en venant d'une direction quelconque, le vapeur qui se déplace et tout vapeur s'en approchant doivent faire les signaux que font les vapeurs qui se rencontrent sur le coude d'une voie d'eau; mais dès que le vapeur quittant son bassin ou son poste d'amarrage se trouve en pleine vue, on doit faire les signaux que le règlement exige des bâtiments qui se rencontrent normalement.

Article 28. Quand *deux vapeurs étant en marche l'un d'eux atteint l'autre* et que l'homme de barre du vapeur se trouvant en arrière désire passer à droite, c'est-à dire, à tribord du vapeur se trouvant en avant, il doit donner son son bref de son sifflet, afin de signaler son désir et son intention: il doit mettre sa barre à bâbord; et s'il désire passer à gauche, c'est-à-dire à bâbord du vapeur en avant de lui, il doit donner deux sons brefs de son sifflet, afin de signaler son désir et son intention et il doit mettre la barre à tribord, cependant que l'homme de barre du vapeur se trouvant en avant doit répondre en faisant le même signal, que, si ce dernier homme de barre est d'avis qu'il n'est pas prudent que le vapeur le suivant essaye de le dépasser sur ce point de leur route, il doit immédiatement en faire part au bâtiment en arrière en donnant cinq sons brefs et rapides ou plus de son sifflet, le vapeur en arrière ne devant alors dans aucun cas essayer de dépasser le vapeur qui se trouve en avant de lui, et ce jusqu'au moment où les deux vapeurs ont atteint un point de leur route ou l'un peut dépasser l'autre sans danger, alors que le vapeur se trouvant en avant signifiera à l'autre qu'il censent à être dépassé en faisant les signaux convenables. Dans aucune cas le navire en avant ne doit essayer de couper la route de celui qui le suit ou le gêner en trop se portant de son côté.

Tout navire qui en atteint un autre sous une direction de plus de deux quarts sur l'arrière de son travers, c'est-à-dire, qui se trouve dans une position telle, relativement au navire atteint, que pendant la nuit il ne pourrait apercevoir ses feux de côté, est censé être une navire qui *en atteint un autre;* quelque soit le changement subséquent de la route des deux navires celui qui atteint l'autre ne peut, d'après ce règlement, prétendre avoir le droit de couper la route du navire se trouvant en avant, ou être exempté du devoir de parer le navire atteint, jusqu'à ce que celui-ci soit passé et hors de danger.

within the meaning of these rules, or relieve her of her duty of keeping clear of the overtaken vessel until she is finally passed and clear.

As by day the overtaking vessel can not always know with certainty whether she is forward of or abaft this direction from the other vessel she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

RULE 29. IN ALL CHANNELS LESS THAN FIVE HUNDRED FEET IN WIDTH, no steam vessel shall pass another going in the same direction unless the steam vessel ahead be disabled or signify her willingness that the steam vessel astern shall pass, when the steam vessel astern may pass, subject, however, to the other rules applicable to such a situation. And when steam vessels proceeding in opposite directions are about to meet in such channels, both such vessels shall be slowed down to a moderate speed, according to the circumstances.

RULE 30. When two steamers are APPROACHING EACH OTHER AT RIGHT ANGLES OR OBLIQUELY SO AS TO INVOLVE RISK OF COLLISION, other than when one steamer is overtaking another the steamer which has the other on her own port side shall hold her course and speed; and the steamer which has the other on her own starboard side shall keep out of the way of the other by directing her course to starboard so as to cross the stern of the other steamer, or, if necessary to do so, slacken her speed or stop or reverse. The steamer having the other on her own port bow shall blow one blast of her whistle as a signal of her intention to cross the bow of the other, holding her course and speed, which signal shall be promptly answered by the other steamer by one short blast of her whistle as a signal of her intention to direct her course to starboard so as to cross the stern of the other steamer or otherwise keep clear.

If from any cause whatever the conditions covered by this situation are such as to prevent immediate compliance with each other's signals, the misunderstanding or objection shall be at once made apparent by blowing the danger signal, and both steamers shall be stopped, and backed if necessary, until signals for passing with safety are made and understood.

RULE 31. When two steam vessels are meeting end on, or nearly end on, so as to involve risk each shall alter her course to starboard, so that each shall pass on the port side of the other.

RULE 32. When two steam vessels are crossing so as to involve risk of collision the vessel which has the other on her own starboard side shall keep out of the way of the other.

RULE 33. When a STEAM VESSEL AND A SAILING VESSEL are proceeding in such directions as to involve risk of collision the steam vessel shall keep out of the way of the sailing vessel.

RULE 34. Where, by any of the rules herein prescribed, one of two vessels shall keep out of the way, the other shall keep her course and speed.

RULE 35. Every steam vessel which is directed by these rules to keep out of the way of another vessel shall, on approaching her, if necessary, slacken her speed or stop or reverse.

RULE 36. Notwithstanding anything contained in these rules every vessel overtaking any other shall keep out of the way of the overtaken vessel.

RULE 37. In obeying and construing these rules due regard shall be had to all DANGERS OF NAVIGATION AND COLLISION and to any SPECIAL CIRCUMSTANCES which may render a departure from the above rules necessary in order to avoid immediate danger.

Or, comme pendant le jour le navire qui en atteint un autre ne peut pas toujours savoir avec certitude s'il a dépassé ou non la direction mentionnée ci-dessus par rapport à l'autre navire, il doit dans le doute, présumer qu'il se trouve être positivement un navire qui en atteint un autre et parer la route de ce dernier.

ARTICLE 29 *Dans tous les chenaux ayant moins de cinq cents pieds de largeur* aucun navire à vapeur n'est autorisé à en dépasser un autre marchant dans la même direction, à moins que le vapeur se trouvant en avant ne soit désemparé ou n'ait signifié qu'il consent à ce que le navire à vapeur se trouvant derrière lui le dépasse, auquel cas ce dernier peut le dépasser pourvu, néanmoins, qu'il observe les dispositions du règlement auxquelles il est sujet dans ce cas. Lorsque deux navires à vapeur font route en sens opposé et sont sur le point de se rencontrer sur un chenal ayant moins de cinq cents pieds de largeur, ces deux navires doivent ralentir leur marche et marcher à une vitesse modérée, en tenant compte des circonstances.

ARTICLE 30. Lorsque deux navires à vapeur *s'approchent l'un de l'autre à angle droit ou obliquement, au risque d'un abordage,* de nature différente de celui pouvant se produire dans le cas d'un vapeur qui en atteint un autre, le vapeur qui a l'autre vapeur à bâbord ne doit ni modifier sa route ni ralentir sa marche, et le vapeur qui a l'autre vapeur à tribord doit se déranger pour ce dernier, et gouverner sur tribord de manière à couper la route de l'autre vapeur à l'arrière de celui-ci, ou, si nécessaire, ralentir sa marche, ou stopper ou renverser sa marche. Le vapeur qui a l'autre par le bossoir de bâbord doit donner un son de son sifflet, pour signaler qu'il a l'intention de couper sa route en passant devant lui, et le vapeur qui fait ce signal doit poursuivre sa route et ne pas ralentir sa marche. A ce signal l'autre vapeur doit répondre promptement par un son bref de son sifflet, pour signaler qu'il a l'intention de gouverner sur tribord de manière à couper la route de l'autre vapeur en passant en arrière de lui ou qu'il entend éviter tout danger d'abordage.

Si pour une raison quelconque l'état de choses considéré dans cet article est tel qu'il empêche d'obéir immédiatement aux manœuvres imposées par les signaux échangés entre les deux vapeurs, la méprise ou l'objection se présentant doivent être notifiées en faisant donner au sifflet le son propre au signal du danger, et les deux vapeurs doivent stopper et faire machine en arrière, si c'est nécessaire, jusqu'à ce que les signaux devant permettre de passer en toute sécurité soient compris.

ARTICLE 31. Lorsque deux navires sous vapeur courent lun sur l'autre ou à peu près, et qu'il y a risque d'abordage, tous deux doivent venir sur tribord pour passer à bâbord l'un de l'autre.

ARTICLE 32.— Si deux navires sous vapeur font des routes qui se croisent et les exposent à s'aborder, celui qui voit l'autre par tribord doit manœuvrer de manière à ne pas gêner la route de ce dernier.

ARTICLE 33. Si deux navires, l'un à voiles, l'autre sous vapeur, font des routes qui les exposent à s'aborder, le navire sous vapeur doit manœuvrer de manière à ne pas gêner la route du navire à voiles.

ARTICLE 34. Lorsque, d'après les articles de ce règlement, un navire doit s'écarter de la route d'un autre navire, celui-ci doit poursuivre sa route sans ralentir sa marche.

ARTICLE 35. Tout navire qui d'après les articles de ce règlement doit se déranger pour un autre navire, doit en l'approchant, si nécessaire, ralentir sa marche, ou stopper ou faire machine en arrière.

ARTICLE 36. Nonobstant tout ce qui est contenu au présent règlement, tout navire qui en atteint un autre, doit se déranger pour le navire qu'il atteint.

ARTICLE 37. En se conformant aux articles de ce règlement et en les interprétant il faut tenir compte des tous *les dangers de la navigation,* et avoir égard à toutes les *circonstances particulières* qui peuvent rendre nécessaire une dérogation aux dispositions de ce règlement, afin de parer à un péril immédiat.

RULE 38. Nothing in these rules shall exonerate any vessel, or the owner or master or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper lookout, or of a neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

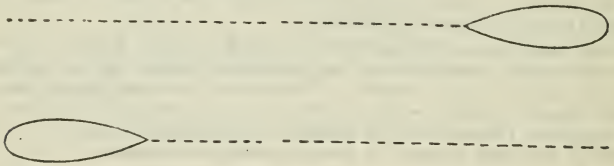
Diagrams.

The following diagrams are intended to illustrate the working of the system of coloured lights and pilot rules:—

First Situation.

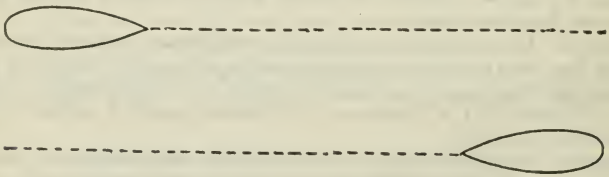
Here the two coloured lights visible to each other will indicate their direct approach "head and head" toward each other. In this situation it is a standing rule that both shall put their helms to port and pass on the port side of each other, each having previously given one blast of the whistle.

Second Situation.



In this situation the red light only will be visible to each, the screens preventing the green lights from being seen. Both vessels are evidently passing to port of each other, which is rulable in this situation, each pilot having previously signified his intention by one blast of the whistle.

Third Situation.



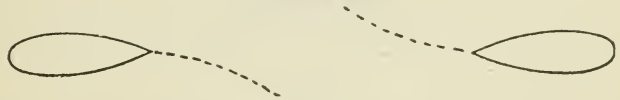
In this situation the green light only will be visible to each, the screens preventing the red light from being seen. They are therefore passing to starboard of each other, which is rulable in this stiuation, each pilot having previously signified his intention by two blasts of the whistle.

ARTICLE 38. Rien dans les articles de ce règlement ne saurait affranchir un navire quel qu'il soit, son propriétaire, son capitaine ou son équipage, des conséquences d'une omission de porter des feux ou signaux, d'un défaut de surveillance convenable, ou, enfin, d'une négligence quelconque des précautions commandées par la pratique ordinaire de la navigation ou par les circonstances particulières de la situation.

Diagrammes.

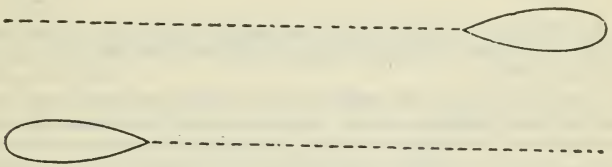
Les diagrammes suivants ont pour but de permettre d'interpréter la signification des feux de couleur et les règles qui doivent guider les hommes de barre.

Première position.



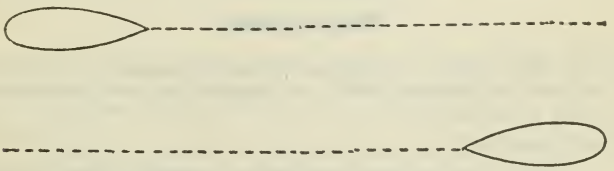
Dans ce cas les deux feux de couleur visibles de chacun des navires, indiquent qu'ils "courent l'un sur l'autre" en droite ligne. Dans cette position il est de règle établie que chaque navire doit mettre sa barre à bâbord et passer à bâbord de l'autre bâtiment, chacun d'eux ayant au préalable donné un son de son sifflet.

Deuxième position.



Dans ce cas chacun des navires ne peut voir que le feu rouge de l'autre, les écrans empêchant de voir les feux verts. Chacun des navires passe évidemment à bâbord de l'autre, ce qui est de règle. Dans cette position, chaque homme de barre doit au préalable signifier son intention de ce faire en donnant un son de son sifflet.

Troisième position.

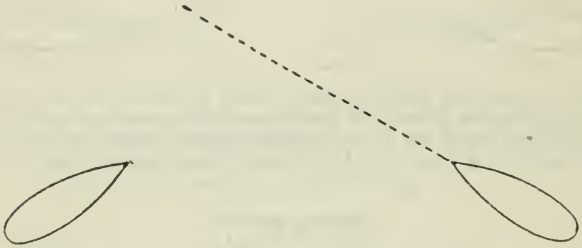


Dans ce cas chacun des navires ne peut voir que le feu vert de l'autre, les écrans empêchant de voir les feux rouges. Chacun des navires passe évidemment à tribord de l'autre, ce qui est de règle dans cette position, et chaque homme de barre doit au préalable signifier son intention de ce faire en donnant deux sons de son sifflet.

Fourth Situation.

In this situation one steamer is overtaking another steamer from some point within the angle of two points abaft the beams of the overtaken steamer. The overtaking steamer may pass on the starboard or port side of the steamer ahead after the necessary signals for passing have been given, with assent of the overtaken steamer, as prescribed in rule 28.

Fifth Situation.



In this situation two steamers are approaching each other at right angles or obliquely *in such manner as to involve risk of collision*, other than where one steamer is overtaking another.

The steamer which has the other on her own *port* side shall hold course and speed, and the other shall keep clear by crossing astern of the steamer that is holding course and speed, or, if necessary to do so, shall slacken her speed or stop or reverse.

Both steamers shall otherwise observe the provisions of rule 30 with respect to the signals for passing and the danger signal.

Rules prohibiting unnecessary sounding of the steam whistle.

RULE 39. No licensed officer in charge of any steamer shall authorize or permit unnecessary sounding of the steam whistle.

Distress signals.

RULE 40. When a vessel is in distress and requires assistance from other vessels or from the shore, the following shall be the signals to be used or displayed by her, either together or separately, viz.:—

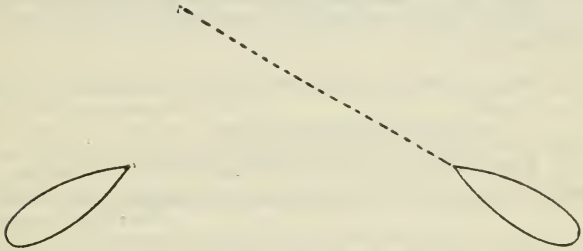
In the daytime:—

1. A gun or other explosive signal fired at intervals of about a minute.
2. The International Code signal of distress indicated by N.C.
3. The distant signal, consisting of a square flag, having either above or below it a ball or anything resembling a ball.
4. A continuous sounding with any fog-signal apparatus.

Quatrième position.

Dans ce cas un des deux vapeurs atteint l'autre vapeur d'un point situé dans l'angle des 2 quarts sur l'arrière du travers de chaque bord du navire atteint. Le navire qui atteint l'autre peut passer à tribord ou à bâbord de celui-ci qui se trouve en avant de lui, mais il doit d'abord faire les signaux nécessaires pour le dépasser, et ce avec le consentement du navire qui est atteint, les signaux étant ceux prescrits à l'article 28.

Cinquième position.



Dans ce cas deux vapeurs s'approchent l'un de l'autre à angle droit ou obliquement de *manière à encourir des risques d'abordage,* autres que s'il s'agissait d'un vapeur en atteignant un autre.

Le vapeur qui a l'autre à *bâbord* doit poursuivre sa route sans ralentir sa marche et l'autre se déranger en coupant la route du premier en arrière de celui-ci, qui poursuit sa route sans ralentir sa marche, ou, si c'est nécessaire, le navire qui se dérange doit ralentir sa marche, stopper, ou faire machine en arrière.

Que s'il en était autrement, chacun des deux vapeurs doit observer les dispositions de l'article 30 ayant trait aux signaux à faire pour passer et à ceux pour éviter tout danger.

Défense de donner des coups de sifflet inutiles.

Article 39. Aucun officier breveté chargé d'un vapeur ne doit autoriser ou permettre de donner des coups de sifflet à vapeur inutiles.

Signaux de détresse.

Article 40. Lorsqu'un navire est en détresse et a besoin du secours d'autres navires, ou de la terre, les signaux suivants doivent être faits par ce navire, soit ensemble, soit séparément, savoir:—

Pendant le jour:—

1. Un coup de canon ou autre signal par explosion, tiré à des intervalles d'environ une minute;
2. Le signal de détresse indiqué par N.C. dans le Code International des signaux; -
3. Le signal éloigné, fait à l'aide d'un pavillon carré ayant soit au-dessus soit au-dessous un ballon ou quelque chose ressemblant à un ballon;
4. Un son continu produit par un appareil de signal de brume.

At night—

1. A gun or other explosive fired at intervals of about a minute.

2. Flame from the vessel (as from burning a tar barrel, oil barrel, etc.).

3. Rockets, or shells, throwing stars of any colour or description, fired one at a time, at short intervals.

4. A continuous sounding with any fog-signal apparatus.

Rules concerning motor boats.

PRELIMINARY.

In the following rules the words "motor boat" shall include every vessel propelled by machinery and not more than sixty-five feet in length except tug-boats and tow-boats propelled by steam. The length shall be measured from end to end over the deck excluding sheer.

RULE 41. That motor boats subject to the provision of these rules shall be divided into classes as follows:—

Class one. Less than twenty-six feet in length.

Class two. Twenty-six feet or over and less than forty feet in length.

Class three. Forty feet or over and not more than sixty-five feet in length.

RULE 42. That every motor boat in all weathers from sunset to sunrise shall carry the following lights, and during such time no other lights which may be mistaken for those prescribed shall be exhibited.

(*a*) Every motor boat of class one shall carry the following lights:—

First. A white light aft to show all around the horizon.

Second. A combined lantern in the fore part of the vessel and lower than the white light aft showing green to starboard and red to port, so fixed as to throw the light from right ahead to two point abaft the beam on their respective sides.

(*b*) Every motor boat of classes two and three shall carry the following lights:—

First. A bright white light in the fore part of the vessel as near the stem as practicable, so constructed as to show an unbroken light over an arc of the horizon of twenty points of the compass, so fixed as to throw the light ten points on each side of the vessel, namely, from right ahead to two points abaft the beam on either side. The glass or lens shall be of not less than the following dimensions:—

Class two. Nineteen square inches.

Class three. Thirty-one square inches.

Second. A white light aft to show all around the horizon.

Third. On the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of ten points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the starboard side. On the port side a red light so constructed as to show an unbroken light over an arc of the horizon of ten points of the compass so fixed as to throw the light from right ahead to two points abaft the beam on the port side. The glasses or lenses in the said side-lights shall be of not less than the following dimensions on motor boats of—

Pendant la nuit:—

1. Un coup de canon ou autre signal par explosion, tiré à des intervalles d'environ une minute;

2. Des flammes sur le navire, telles que produites par la combustion d'un baril à goudron ou à huile, etc.;

3. Des fusées ou bombes tirées une à la fois à de courts intervalles, et projetant en l'air des étoiles de couleur ou d'aspect varié;

4. Un son continu produit par un appareil de signal de brume.

Dispositions concernant les bateaux à moteur.

NOTIONS PRÉLIMINAIRES.

Dans les articles suivants du présent règlement l'expression "bateaux à moteur" comprend tout bateau pour la progression duquel on emploie des machines, et qui n'a pas plus de soixante-cinq pieds de longueur. Mais on fait exception pour les remorqueurs dont la vapeur assure la progression. La longueur du bateau doit être mesurée de l'une à l'autre des extrémités sur le pont, dont on ne tiendra pas compte de la tonture.

ARTICLE 41. Les bateaux à moteur que visent les dispositions de ce règlement appartiennent aux catégories suivantes:—

Première catégorie: bateaux de moins de 26 pieds de longueur.

Deuxième catégorie: bateaux de 26 pieds ou plus de longueur et de moins de 40 pieds de longueur.

Troisième catégorie: bateaux de 40 pieds ou plus de longueur mais dont la longueur ne dépasse pas 65 pieds.

ARTICLE 42. Tout bateau à moteur doit par tous les temps depuis le coucher du soleil jusqu'au moment où il se lève, montrer les feux suivants à l'exclusion de tous autres feux pouvant être confondus avec ceux que le règlement prescrit de montrer.

(*a*) Tout bateau à moteur de la première catégorie doit porter les feux suivants:—

Premièrement: un feu blanc à l'arrière disposé de manière à projeter tout autour de l'horizon une lumière claire.

Deuxièmement: un fanal à combinaison que l'on doit placer à l'avant du bateau, plus bas que le feu blanc de l'arrière et pouvant montrer un feu vert sur tribord et un feu rouge sur bâbord, établi de manière à projeter une lumière ininterrompue verte à tribord depuis l'avant jusqu'à deux quarts sur l'arrière du travers à tribord, et un feu rouge sur bâbord établi de manière à projeter une lumière ininterrompue rouge à bâbord depuis l'avant jusqu'à deux quarts sur l'arrière du travers à bâbord.

(*b*) Tout bateau à moteur de la deuxième catégorie et de la troisième catégorie, doit porter les feux suivants:—

Premièrement: Un feu blanc brillant à l'avant du bateau et aussi près de l'étrave que possible, disposé de manière à montrer une lumière ininterrompue sur tout le parcours d'un arc de l'horizon de vingt quarts ou rumbs de compas, soit dix quarts de chaque côté du bateau, c'est-à-dire depuis l'avant jusqu'à deux quarts sur l'arrière du travers de chaque bord. Le verre ou la lentille du fanal de ce feu ne doit pas avoir des dimensions inférieures aux suivantes:—

Pour la deuxième catégorie: Dix-neuf pouces carrés;

Pour la troisième catégorie: Trente et un pouces carrés.

Deuxièmement: Un feu blanc à l'arrière disposé de manière à projeter tout autour de l'horizon une lumière claire.

Troisièmement: A tribord, un feu vert établi de manière à projeter une lumière ininterrompue sur tout le parcours d'un arc de l'horizon de dix quarts ou rumbs du compas c'est-à-dire depuis l'avant jusqu'à deux quarts sur l'arrière du travers à tribord. A bâbord un feu rouge établi de manière à projeter une lumière ininterrompue sur

Class two. Sixteen square inches.

Class three. Twenty-five square inches.

On and after March first, nineteen hundred and seventeen, all glasses or lenses prescribed by paragraph (*b*) of Rule 42 shall be fresnel or fluted. The said lights shall be fitted with inboard screens of sufficient height and so set as to prevent these lights from being seen across the bow and shall be of not less than the following dimensions on motor boats of—

Class two. Eighteen inches long.

Class three. Twenty-four inches long: *Provided,* That motor boats as defined in these Rules, when propelled by sail and machinery or under sail alone, shall carry the coloured lights suitably screened but not the white lights prescribed by this Rule.

RULE 43. (*a*) Every motor boat under the provisions of these Rules shall be provided with a whistle or other sound-producing mechanical appliance capable of producing a blast of two seconds or more in duration, and in the case of such boats so provided a blast of at least two seconds shall be deemed a prolonged blast within the meaning of these Rules.

(*b*) Every motor boat of class two or three shall carry an efficient fog-horn.

(*c*) Every motor boat of class two or three shall be provided with an efficient bell, which shall be not less than eight inches across the mouth, on board of vessels of class three.

Rule 44 repealed by Order in Council of the 29th June, 1916.

RULE 45. The foregoing Rules shall be in full force and effect on and after the first day of March, nineteen hundred and sixteen, and shall supersede all Rules of the Road for the Great Lakes, etc., previously adopted.

tout le parcours d'un arc de l'horizon de dix quarts ou rumbs du compas, c'est-à-dire depuis l'avant jusqu'à deux quarts sur l'arrière du travers à bâbord. Les verres ou lentilles des fanaux de ces feux de côté ne doivent pas avoir des dimensions inférieures aux suivantes sur les bateaux à moteur:—

Deuxième catégorie: Seize pouces carrés.

Troisième catégorie: Vingt-cinq pouces carrés.

Le et après le 1er mars mil neuf cent dix-sept, tous les verres ou lentilles exigés par le paragraphe (*b*) de l'article 42 devront être du type fresnel ou à cannelures. Les feux susdits doivent être établis sur des boîtes ouvertes ou écrans de hauteur suffisante, et disposés de façon que les feux ne puissent être vus du bossoir opposé. Ils ne doivent pas avoir de dimensions inférieures aux suivantes, savoir, sur les bateaux à moteurs de:—

Deuxième catégorie: Dix-huit pouces de longueur.

Troisième catégorie: Vingt-quatre pouces de longueur. Il est *pourvu* que les bateaux à moteur, tels que définis dans ce règlement, doivent porter des feux de couleurs convenables, avec écrans, mais non les feux blancs prescrits dans cet article, lorsque ces bateaux emploient pour leur progression des voiles et des machines ou seulement des voiles.

Article 43. (*a*) D'après les dispositions de ce règlement, chaque bateau à moteur doit être pourvu d'un sifflet ou autre dispositif mécanique pouvant donner des sons de signaux, et à même de donner un son de deux secondes ou plus de durée. Dans le cas des bateaux ainsi pourvus, un son d'au moins deux secondes de durée sera considéré comme un son long, en tant que peuvent le signifier les dispositions de ce règlement.

(*b*) Tout bateau à moteur de la deuxième catégorie ou de la troisième catégorie, doit porter un cornet à bouquin ne laissant rien à désirer.

(*c*) Tout bateau à moteur de la deuxième catégorie et de la troisième catégorie, doit être pourvu d'une bonne cloche: qui ne doit pas avoir moins de huit pouces de diamètre à sa partie la plus évasée, lorsque cette cloche se trouve à bord de bateaux appartenant à la troisième catégorie.

Article 44. Rescindé par un ordre en Conseil du 29 juin 1916.

Article 45. Le présent règlement aura force et effet à partir du 1er mars mil neuf cent seize inclusivement, et il remplacera tout règlement existant antérieurement, pour prévenir les abordages sur les Grands lacs, etc.

INTERNATIONAL CODE OF SIGNALS.

This list is prepared for the purpose of enabling officers at signal stations on shore, and masters of ships at sea to signal and report passing ships. It contains the name and distinguishing signal of every ship registered in Canada to which a code signal has been allotted to the 31st December, 1919. The particulars of each ship are given both in the order of the signal letters and in the alphabetical order of their names.

Applications for the allottment of a code signal for the purpose of making ship's name known at sea should be made on form C.C.S.I. to the Registrar of Shipping at the port to which it belongs.

THE ENSIGN TO BE SHOWN AT THE PEAK, OVER THE CODE PENNANT, WHEN THE SIGNAL LETTERS ARE HOISTED.

BRITISH SHIPS Registered in Canada to which distinguishing signals have been allotted, arranged in alphabetical order.

OTTAWA, Dèc. 1919.

Hon. C. C. BALLANTYNE,

Minister of Marine and Fisheries

SIR,—I have the honour to submit the Supplement to the Fifty-second Annual Report of the Department of Marine and Fisheries (Marine Branch) for the fiscal year 1918-19, being the Report of the Chairman of the Board of Steamboat Inspectors.

I have the honour to be, sir,

Your obedient servant,

A. JOHNSTON

Deputy Minister of Marine and Fisheries.

OTTAWA, Dèc. 1919.

Hon. C. C. BALLANTYNE,

Ministre de la Marine et des Pêcheries.

MONSIEUR,—J'ai l'honneur de vous soumettre le rapport du président du Bureau d'inspection des bateaux à vapeur, publié en supplément au cinquante-deuxième rapport annuel du ministère de la Marine et des Pêcheries (Direction de la Marine marchande) pour l'exercice financier 1918-19.

J'ai l'honneur d'être, monsieur,

Votre obéissant serviteur,

A. JOHNSTON,

Sous-ministre de la Marine et des Pêcheries.

BOARD OF STEAMBOAT INSPECTION.

Ottawa, November 22nd, 1919.

To the Deputy Minister of
Marine and Fisheries,
Ottawa, Ont.

Sir,—I have the honour to submit as follows, the annual report of Steamboat Inspection Service, for the fiscal year ended March 31, 1919.

STAFF.

I deeply regret to record the death of Mr. Thomas Robert Ferguson, Chairman, who died suddenly on August 27th, 1918, whilst at Quebec in connection with the inspection of Government Steamers. Mr. Ferguson had held the position of Chairman since April 1913, previous to this he held the appointment of Inspector of Government Steamers and served the Department in all for a period of about 28 years.

The vacancy resulting was filled by my promotion from Assistant Chairman to the position of Chairman by Order in Council of September 18th, 1918.

The position of Assistant Chairman was not continued but appointments were made of a Principal Inspector of Hulls and Equipment and a Principal Inspector of Boilers and Machinery, Mr. T. McConkey, formerly Ship's Husband to Canadian Government Steamers was appointed to the former position and Mr. A. E. Hopper, formerly Steamship Inspector at Vancouver to the latter position both assuming office on the 1st January, 1919.

BOARD MEETINGS.

A number of Board Meetings were held during the year, these being chiefly for the purpose of dealing with questions arising out of the administration of the regulation governing steamboat inspection, and for the approval of certain life saving equipment.

CASUALTIES.

The following are the casualties reported from the several divisions during the year ending March 31st, 1919.

Nova Scotia Division.

On April 24th, 1918, the ss. *Inverness* sunk at wharf, Mulgrave. Refloated and repaired and now in commission.

On May 5th, 1918, the ss. *Louisburg* ran ashore on English Cape St. Mary's Bay, Nfld., and became a total loss. No lives lost.

On May 6th, 1918, the ss. *Lahave* ran shore at Big Tancook, Halifax county. Total loss. No lives lost.

On June 7th, 1918, the ss. *Hochelaga* ran ashore at Port au Port, Newfoundland. Refloated and repaired at St. Johns, Nfld., and now in commission.

On Aug. 20th, 1918, the ss. *Triumph* captured by Germans off Nova Scotia. Nothing since heard of her.

On Nov. 2nd, 1918, the ss. *Anticosti* (Lightship) caught fire and sank at Marine and Fisheries wharf, Dartmouth. Raised and now in commission.

On Nov. 17th, 1918, the ss. *Cascapedia* foundered off Sable Island. Total loss. No lives lost.

In Feb. 1919, the ss. *Delbert D.* wrecked off Liverpool, N.S. Total loss. No lives lost.

On Feb. 13th, 1919, the ss. *Magdalen* caught fire on Marine Slip, Dartmouth. Repaired and now in commission.

On Feb. 15th, 1919, the ss. *Mulgrave* wrecked on Middle shoal, off Beaver harbour. Total loss. No lives lost.

St. John Division.

On Oct. 5th, 1918, the sss. *D. J. Purdy* and *Premier* collided in the vicinity of Hampstead on the St. John river. The *Premier* was cut into on port side and beached, afterwards lifted with pontoons and brought to St. John and repaired. The *D. J. Purdy* was uninjured. No lives lost, responsibility not yet placed.

On Feb. 28th, 1919. The steamer *Lord Dufferin* while lying at anchor in New York Harbour was rammed by Steamer *Aquitania*, carrying away about 50 feet of the after end including stern frame, propeller and shafting, etc. The vessel was beached and afterwards refloated with pontoons into dry dock at Erie basin, where repairs are now under way. George Eporus, an oiler, was killed on the *Lord Dufferin*.

On March 21st, 1919. The *Troja*, while on a passage from Cape Breton to St. John, fully loaded with coal, stranded on the Old Proprietor ledges, Grand Manan, N.B. The vessel is still on the rocks, and probably will be a total loss.

Quebec Division.

On November 2nd, 1918, the steamer *Marie Josephine* of Quebec, was totally destroyed by fire on a voyage from Quebec to Seven Islands. Cause of fire unknown. No lives lost.

Sorel Division.

On July 20th, 1917, the *Dredge No. 6*, sank at the wharf at Sorel harbour. No casualties.

On August 20th, 1918, the steam barge *Carolina* of Sorel ran aground at Ile a La Baque. Cargo was salved and no loss of life.

On May 3rd, 1918, the gasoline boat *St Maurice II* of Montreal, No. 138106, was totally destroyed by fire. No loss of life.

Montreal Division.

On April 19th, 1918, the ss. *E. H. Bronson*, owned by the Upper Ottawa Improvement Co., was burned at Pembroke while fitting up. The boat has since been repaired and expects to operate in May, 1919.

On August 15th, 1918, the ss. *Chaffey* was burned at the wharf at Lancaster. Ont.

The oil steamer *Luz Blanca*, owned by the International Petroleum Co. of Toronto was torpedoed and sunk about 35 miles from Halifax. Two lives were lost.

Toronto Division.

On August 13th, 1918, the ss. *Kenoz ha* of Toronto was totally destroyed by fire at Gravenhurst, Muskoka. the boiler and machinery have been removed

On October 17th, 1918, the ss. *Ongiara* of Toronto was wrecked near Bowmanville, Lake Ontario, The boiler and machinery have been removed.

Kingston Division.

No casulaties.

Collingwood Division.

No casualties.

Port Arthur Division.

On October 1st, 1918, the ss. *Gale Staples* of Port Arthur grounded near Point au Sable and became a total loss. No lives lost.

On June 22nd, 1918, the ss. *Wolverine* struck rocks off Spider islands and filled. The C. G. S. *Bradbury* arrived on the 25th and cleared the ship of water and towed her to Selkirk where she was placed on the slip for repairs.

Vancouver Division.

On August 8th, 1918, the ss. *Freno* of Vancouver, B.C., when in Howe sound, burned and sank. Boiler and machinery were salved. No lives lost.

On October 1st, 1918, the ss. *Camosun* ran ashore inside Brockton point in a dense fog. The passengers were landed. Next morning part of the cargo was put on scows, and vessel floated off unassisted at 3 p.m. Only slight damage to hull.

On Novmber 10th, 1918, the ss. *Owen* of Victoria, B.C., when in Howe sound was burned to the water's edge. The boiler and machinery were salved. No lives lost.

Victoria Division.

On April 4th, 1918, the ss. *Tees* stranded on Zero rock. She was refloated two days later and taken to Victoria for repairs. The passengers and crew were landed without loss of life.

On August 18th, 1918, the ss. *Princess May* had her engine badly damagd.. The vessel steamed to Victoria with the port engine, where repairs were effected

On October 13th, 1918, the ss. *Princess Adelaide* stranded on Georgina point, Active pass. The vessel was salved and taken to Victoria for repairs. No lives lost.

On October 15th, 1918, the ss. *Red Fir,* while anchored off the mouth of Jordan river, Vancouver island, dragged her anchors and was driven ashore. afterwards becoming a total wreck. The engines and boiler, however, were salved later. No lives lost.

On October 23rd, 1918, the ss. *Princess Sophia* stranded on Vanderbilt reef, Lynn canal. Later slid off reef and sank. There were no survivors, 351 lives being lost.

I have the honour to be, sir,

Your obedient servant,

FRANK McDONNELL,
Chairman.

STEAMBOAT INSPECTION Staff for the Dominion of Canada during the fiscal Year ended March 31, 1919.

Au sous-ministre de la Marine et des Pêcheries,
Ottawa, Ont.

Monsieur,—Ci-après j'ai l'honneur de vous soumettre le rapport annuel sur le service qui s'occupe de l'inspection des bateaux à vapeur, rapport qui a été dressé pour l'année fiscale qui s'est terminée le 31 mars 1919.

PERSONNEL.

J'ai le vif regret d'avoir à mentionner le décès de M. Thomas Robert Ferguson, président de ce bureau, mort subitement le 27 août 1918, alors qu'il se trouvait à Québec à propos de l'inspection des vapeurs du gouvernement. M. Ferguson était président depuis avril 1913, ayant été antérieurement inspecteur des vapeurs du gouvernement. Durant 28 ans il fut à l'emploi du gouvernement.

La vacance résultant de la mort dudit fonctionnaire a été comblée par ma promotion, qui de l'emploi de président adjoint, me nommait président en titre par arrêté ministériel le 18 septembre 1918.

La position de président adjoint a été supprimée, mais on a nommé un inspecteur principal des coques et équipements et un inspecteur principal des chaudières et machines; M. T. McConkey, qui était auparavant capitaine d'armement pour les vapeurs du gouvernement canadien, fut nommé au premier des emplois que nous venons de mentionner, et M. A. E. Hopper, qui était auparavant inspecteur des bateaux à vapeur à Vancouver, fut nommé au second emploi, ces deux messieurs étant entrés en fonctions le 1er janvier 1919.

ASSEMBLÉES DU BUREAU D'INSPECTION.

Au cours de l'année on a tenu un certain nombre d'assemblées, principalement dans le but de s'occuper des questions concernant l'administration du service en conformité des règlements qui gouvernent l'inspection des bateaux à vapeur et aussi afin d'approuver certains dispositifs de l'équipement de sauvetage.

ACCIDENTS.

Ci-après, nous signalerons les accidents survenus, et dont a fait rapport le personnel des multiples divisions que comporte notre service, au cours de l'année terminée le 31 mars 1919.

Division de la Nouvelle-Ecosse.

Le 24 avril 1918, le vapeur *Inverness* a coulé au quai à Mulgrave. Renfloué et réparé est maintenant en service.

Le 5 mai 1918, le vap. *Louisburg* s'est échoué au cap English, Baie Ste-Marie, Terreneuve. Perte totale. Pas de perte de vie.

Le 6 mai 1918, le vap. *Lahave* s'est échoué à Gros Tancook, comté d'Halifax. Perte totale. Pas de perte de vie.

Le 7 juin 1918, le vapeur *Hochelaga* s'est échoué à Port au Port, Terreneuve. Renfloué et réparé à St-Jean Terreneuve, est maintenant en service.

Le 20 août 1918, le vap. *Triumph*, capturé par les Allemands au large de la Nouvelle-Ecosse. On n'en a jamais entendu parler depuis.

Le 2 novembre 1918, le vap. *Anticosti* (bateau-feu), prit feu et coula au quai de la Marine et des Pêcheries à Dartmouth; fut renfloué, est maintenant en service.

Le 17 novembre 1918, le vap. *Cascapedia* coula au large de l'île de Sable. Perte totale, pas de perte de vie.

En février 1919, le vap. *Delbert D.* a naufragé au large de Liverpool, N.-E. Perte totale. Pas de perte de vie.

Le 13 février 1919, le vap. *Magdalen* prit feu à la cale de la Marine, Dartmouth. Renfloué, est maintenant en service.

Le 13 février 1919, le vap. *Mulgrave* a naufragé au haut-fond du milieu, au large du havre Beaver. Perte totale. Pas de perte de vie.

Division de St-Jean.

Le 5 octobre 1918, les vapeurs *D. J. Purdy* et *Premier* entrèrent en collision dans le voisinage de Hampstead sur la rivière St-Jean. Le *Premier* fut abordé par babord, puis jeté à la côte. Par la suite il fut renfloué à l'aide de pontons et amené à St-Jean pour y être réparé. Le *D. J. Purdy* ne fut pas avarié, pas de perte de vie. Responsabilité non encore établie.

Le 28 février 1919, le vap. *Lord Dufferin* pendant qu'il était à l'ancre dans le havre de New-York fut frappé par l'étrave du navire *Aquitania* qui emporta environ 50 pieds de la muraille de l'arrière dudit navire, y compris les membrures de sa poupe, son hélice, son arbre de couche etc. Le navire avarié fut jeté à la côte et renfloué par la suite à l'aide de pontons, puis amené en cale-sèche dans le bassin Erié, où on est en train de le réparer. George Eporus, un graisseur de machine, fut tué à bord du *Lord Dufferin*.

Le 21 mars 1919, le *Troja*, pendant qu'il se rendait du Cap Breton à St-Jean, sous plein chargement de charbon, s'échoua sur les récifs Old Proprietor, Grand Manan, N.-B. Le navire est encore sur les rochers et sera probablement totalement perdu.

Division de Québec.

Le 2 novembre 1918, le vap. *Marie Josephine* de Québec fut totalement détruit par le feu pendant qu'il se rendait de Québec aux Sept Iles. Origine du feu, inconnue; pas de perte de vie.

Division de Sorel.

Le 20 juillet 1917, la drague N° *6* coula au pied du havre de Sorel. Aucun accident de personne.

Le 20 août 1918, la barge ou péniche à vapeur *Carolina* s'échoua à l'île à la Barque. On a sauvé la cargaison; pas de perte de vie.

Le 3 mai 1918, le bateau à gazoline *St. Maurice II* de Montréal, N° 138106, fut complètement détruit par le feu; pas de perte de vie.

Division de Montréal.

Le 19 avril 1918, le vap. *E. H. Bronson*, armé par la compagnie «Upper Ottawa Improvement» prit feu à Pembroke pendant qu'il était en armement; depuis il a été réparé et on pense qu'il reprendra son service en mai 1919.

Le 15 août 1918, le vap. *Chaffey* fut brûlé au quai de Lancaster, Ontario.

Le vap. transport de pétrole, *Luz Blanca*, appartenant à la «International Petroleum Co.» de Toronto, fut torpillé et coulé à environ 35 milles d'Halifax. Deux pertes de vies.

Division de Toronto.

Le 13 août 1918, le vap. «*Kernozha* de Toronto, fut totalement détruit par le feu à Gravenhurst, Muskoka; on a pu enlever la chaudière et la machine de ce navire.

Le 17 octobre 1918, le vap. *Ongiara* de Toronto a naufragé près de Bowmanville, lac Ontario. On a enlevé la chaudière et la machine de ce navire.

Division de Kingston.

Néant.

Division de Collingwood.

Néant.

Division de Port-Arthur.

Le 1er octobre 1918, le vap. *Gale Staples* de Port-Arthur, s'échoua près de la pointe au Sable; perte totale du navire; pas de perte de vie.

Le 22 juin 1918, le vap. *Wolverine* frappa des roches au large des îles Spider et se remplit d'eau. Le 25, le V.G.C. *Bradbury* arriva sur les lieux, vida l'eau qui était dans le navire avarié et le remorqua jusqu'à Selkirk, où il fut mis sur cale pour être réparé.

Division de Vancouver.

Le 8 août 1918, le vap. *Freno* de Vancouver, C.-B., brûla et coula lorsqu'il se trouvait dans Howe Sound. On a pu sauver sa chaudière et sa machine. Aucune perte de vie.

Le 1er octobre 1918, le vap. *Camosun* s'échoua à l'intérieur de la pointe Brockton par brouillard intense. On débarqua les passagers. Le lendemain matin une partie de la cargaison fut mise sur des chalands et à 3 heures du soir le navire se renfloua tout seul. Coque légèrement avariée.

Le 10 novembre 1918, le vap. *Owen* de Victoria, C.B., brûla jusqu'à la flotaison lorsqu'il se trouvait dans Howe Sound. On a sauvé sa chaudière et sa machine.

Division de Victoria.

Le 4 avril 1918, le vapeur *Tees* s'échoua sur la roche Zéro; il fut renfloué deux jours après et conduit à Victoria pour y être réparé. On a débarqué les passagers et l'équipage sans aucune perte de vie.

Le 18 août 1918, le vap. *Princess May* subit une grave avarie de machine. Ce navire se rendit sous vapeur à Victoria en employant sa machine de babord et fut réparé dans ledit port.

Le 13 octobre 1918, le vap. *Princess Adelaide* s'échoua sur la pointe Georgina de la passe Active. On put sauver ce navire qui fut conduit à Victoria pour y être réparé. Aucune perte de vie.

Le 15 octobre 1918, le bap. *Red Fir* chassa sur ses ancres et fut jeté à la côte pendant qu'il était au mouillage en face de l'embouchure de la rivière Jordan, île de Vancouver. Par la suite ce navire fut totalement perdu, mais on put sauver cependant ses machines et sa chaudière. Aucune perte de vie.

Le 23 octobre 1918, le vap. *Princess Sophia* s'échoua sur le récif Vanderbilt du canal Lynn. Par la suite il glissa en eau profonde et sombra. Nul ne survécut à ce naufrage qui coûta la vie à 351 personnes.

J'ai l'honneur d'être, Monsieur,
Votre obéissant serviteur,

FRANK MCDONNELL,
Président.

PERSONNEL employé par le gouvernement de la Puissance du Canada, pour l'inspection des bateaux à vapeur, au cours de l'exercice financier terminé le 31 mars 1919.

LIST of abbreviations and French equivalents of technical terms used throughout this report.

LISTE des abréviations anglaises des termes techniques contenus dans ce rapport et vocables français correspondants.

Abbreviations. — Abréviations.	English Equivalent. — Signification en anglais.	French Equivalent. — Vocables français correspondants.
Allr. tug	Alligator tug	Remorqueur alligator.
By. Ser	Buoy service	Service des bouées.
Coastg	Coasting	Cabotage.
C'stwise	Coastwise	Naviguant le long de la côte.
Car Fy	Car Ferry	Bac pour trains de chemin de fer.
Comp	Composite	Bâtiment mixte.
Crsr	Cruiser	Croiseur.
Clmshl. Dr	Clamshell dredge	Drague à mâchoire «Clamshell».
Dpr. Dr	Dipper dredge	Drague à cuiller.
Dr	Dredge	Drague.
Drck	Derrick	Mât de charge.
Drck. Scow	Derrick scow	Chaland à mât de charge.
Drl. Boat	Drill boat	Bateau foret.
Dr. Tndr.	Dredge tender	Bateau d'annexe de drague.
Elevr. Dr	Elevator dredge	Drague à élévateur.
Fltg. Drck	Floating derrick	Mât de charge flottant.
Fishg. Boat	Fishing boat	Bateau de pêche.
" tndr	Fishing tender	Bateau d'annexe de navire de pêche.
" tug	Fishing tug	Remorqueur de pêche.
Frt	Freight	Fret.
Fy	Ferry	Bac ou ferry boat.
Fshy. Pat	Fishery patrol	Bateau surveillant les pêcheries.
" Crsr	Fishery cruiser	Croiseur du service des pêcheries.
Govt. Ser	Government service	Service du gouvernement.
Grn. Elevr	Grain Elevator	Elévateur pour céréales.
Hrbr	Harbour	Havre.
Hppr. Bge	Hopper barge	Barge porteuse.
—	Iron	Fer.
Lghtr	Lighter	Allège.
Lmbr. Bge	Lumber barge	Barge portant du bois de construction.
Lt. ship	Lightship	Bateau-feu.
Lt'house Ser	Lighthouse service	Service des phares.
Pdl	Paddle	Aubes.
Pass	Passenger	Passagers.
Rck. Brkr	Rock breaker	Dérocheuse à pilon.
Rck. cttr	Rock cutter	Dérocheuse à outil tranchant.
Sand Sckr	Sand sucker	Drague à succion, pour sable.
Sct. Dr	Suction dredge	Drague à succion.
Spn. Dr	Spoon dredge	Drague à cuiller.
Scr	Screw	Hélice.
Slvge Str	Salvage steamer	Vapeur de sauvetage.
Stl	Steel	Acier.
Strn Whl	Stern wheel	Roue arrière.
Tndr	Tender	Bateau d'annexe.
—	Tug	Remorqueur.
Tw. Scr	Twin screw	Hélices jumelles.
Tr. Scr	Triple screw	Triples hélices.
Whlr	Whaler	Baleinier.
Wrckr	Wrecker	Sauvetage des épaves, etc.
—	Wood	Bois.
Ycht	Yacht	Yacht.

In column No. 4 of table I, in the case of passenger ships, where the following abbreviations are preceded by a number, this indicates the number of passengers allowed according to conditions under which a voyage is being made:—

Dans le cas des navires transportant des passagers et figurant dans la 4e colonne du tableau I, lorsque l'une quelconque des abréviations suivantes est précédée d'un nombre, celui-ci indique le nombre de passagers que le navire est autorisé à porter, en considérant la nature du voyage qu'il entreprend:—

Abbreviations. Abréviations.	English Equivalent. Signification en anglais.	French Equivalent. Vocables français correspondants.
C	Coasting	Cabotage.
Ex	Excursion	Excursion.
L	Lake	Lacs.
R	River	Fleuves ou rivières.
S	Summer	Eté.
W	Winter	Hiver.

GEOGRAPHIC TERMS.	TERMES GÉOGRAPHIQUES.
English—Anglais.	*French—Français.*
Ocean	Océan.
Lake	Lac.
River	Rivière ou fleuve.
Channel	Chenal.
Port	Port.
Harbour	Havre.
Gulf	Golfe.
Bay	Baie.
Strait	Détroit.
Narrows	Passe ou goulet.
Canal	Canal.
Island	Ile.
Point	Pointe.
Cape	Cap.

TABLE I.—Showing steamers inspected throughout Canada during the year ended March 31, 1919.

Names of vessels driven by gasoline are printed in *italics*. Inspectors' Initials—(1) Boilers and Machinery; (2) Hulls and Equipment. Tonnage—Gross; registered

TABLEAU I.—Indiquant les vapeurs inspectés au Canada, durant l'année finissant le 31 mars 1919.

Les noms des navires à propulsion par moteurs à gazoline sont imprimés en italiques. Initiales des inspecteurs—(1) Chaudières et machines; (2) Coques et équipement. Tonnage brut; enregistré

Name of Vessel—Official No.—Port of Registry. — Noms des navires—Numéros officiels—Ports d'enregistrement.	Tonnage.	Where and When Built—Material. — Année et lieu de construction—Nature de la coque. " Manitoba	44 to 46
" Saskatchewan	46 to 50
" Alberta	50 to 53
" British Columbia	53 to 56
in Yukon Territory	56
Non-accounting offices, with revenue of each office	57 to 104

REPORT

OF THE

DEPUTY POSTMASTER GENERAL

1918-1919

POST OFFICE DEPARTMENT,
OTTAWA, December 11, 1919.

To the Honourable
PIERRE EDOUARD BLONDIN,
Postmaster General of Canada.

In submitting the following report for the year ended March 31, 1919, I have the honour to remark that although the business of the department did not show a marked growth in any particular branch during that period, the progress throughout was entirely normal and satisfactory.

There were 12,290 post offices in operation in Canada on March 31, 1919, new offices to the number of 130 having been opened during the year. The number of offices closed was 462, the reason for closing in most cases having been that the post office was rendered unnecessary owing to the establishment of rural mail delivery routes, so that although there have been 332 fewer post offices in operation than in the previous year, this does not denote any decrease in the postal services.

There were 31 additional rural mail delivery routes established during the year, and the number of boxes increased by 8,355.

The total number of rural mail delivery routes in operation on March 31, 1919, was 3,705, and the total number of boxes served was 181,505.

The number of post offices transacting money order business was 4,953, an increase of 23 over the previous year; and the number transacting savings bank business was 1,328, an increase of 10.

The amount of money withdrawn from post office saving bank accounts and the number of accounts closed, were again greater than in the previous year while a smaller number of new accounts were opened. This is believed to have been due to the fact that the money was used for the purchase of victory bonds.

The balance at the credit of depositors on March 31, 1919 was $41,654,960.26.

Summarized statements showing the business of each separate branch of the department will be found in the following pages.

I have the honour to be, sir,
Your obedient servant,

R. M. COULTER,
Deputy Postmaster General.

GENERAL FINANCIAL STATEMENT.

The net revenue for the year amounted to $21,602,712.65 and the expenditure to $19,273,583.94 increases of $257,318.20 and $1,227,026.04 respectively. The surplus of revenue over expenditure for the year was $2,329,128.71.

The undermentioned offices were raised to the rank of City Offices and the employes placed on the Civil Service basis from the 1st of April, 1918, viz.: Amherst, Belleville, Brockville, Chatham, Collingwood, Cornwall, Fort William, Lethbridge, Lindsay, Medicine Hat, Moncton, Nanaimo, Niagara Falls, North Bay, Owen Sound, Portage la Prairie, Port Arthur, Prince Albert, St. Catharines, St. Hyacinthe, St. Thomas, Sarnia, Sault Ste Marie, Smith's Falls, Sydney, Trois Rivieres, Truro and Woodstock.

The following statements show in detail the revenue and expenditure for the year:

REVENUE.

Balance due by postmasters on revenue account on March 31, 1918	$ 27,161 61
Postage stamps, post cards, etc., sold	24,421,461 23
Postage paid in cash on newspapers	291,104 12
Postage paid in cash on third-class (printed) matter	582,616 24
Rents of letter boxes and drawers	211,317 10
Commission received on money orders	1,071,820 80
Commission received on postal notes	131,913 35
Profit in exchange on money order business with other countries	16,508 71
Profit in exchange on British postal order business	426 61
Commission received from the United Kingdom on postal order business	764 80
Transit charges on correspondence from other countries	399,797 04
Postage on parcels from other countries	338,885 71
Void money orders, that is, money orders issued between January 1 and December 31, 1917, payment of which had not been claimed up to December 31, 1918	27,354 78
Collections for rural mail boxes	38,682 00
Miscellaneous revenue	31,010 89
	$27,591,324 99

Deductions.

Salaries, forward allowances, allowances toward rent, fuel and light, compensation on money order and postal note business, and commission on box and drawer rents	$1,989,231 44	
Discount to stamp vendors and postmasters and compensation to messengers for special delivery of letters	173,497 78	
Losses by fire, burglary, etc	5,909 96	
Balance of commission paid to other countries on money order business	38,497 39	
Transit charges on correspondence to other countries	58,860 38	
Postage on parcels to other countries	695,453 78	
Balance due by postmasters on revenue account on March 31, 1919	27,161 61	
		5,988,612 34
		$21,602,712 65

Owing to the fact that the Public Accounts were closed before the Accounts of the Post Office Department could be finally adjusted, the amount transferred to Consolidated Fund as Post Office Revenue was $21,603,542.09 instead of $21,602,712.65.

EXPENDITURE.

Paid by cheque from Parliamentary Appropriation.

Conveyance of mails by land	$ 4,752,046 87
" " railways	3,405,461 18
" " steamboats	189,951 51
Making and repairing mail bags, locks, etc.	185,353 95
Total Mail Service expenditure	$ 8,533,413 51
Salaries paid by cheque	9,752,905 06
Travelling expenses	40,748 49
Manufacturing postage stamps, etc.	130,566 86
Stationery, printing and advertising	334,606 77
Miscellaneous disbursements	301,731 52
Maintenance of the service in the Yukon District	179,581 43
Total	$19,273,553 64

Postal Notes.—During the year 6,067,213 postal notes amounting in value to $12,368,069.98 were paid decreases as compared with the previous year of 140,580 in the number and $167,509.21 in the value. The revenue derived from the sale of postal notes amounted to $192,585.48.

British Postal Orders are paid at the city offices in Canada. The number paid in 1918-19 was 65,521 and the value amounted to $200,649.42 in Canadian currency. These figures show a decrease as compared with the previous year of 2,325 in the number and $3,732.95 in the value.

A statement showing the gross postal revenue of each accounting and non-accounting post office in the Dominion will be found at the end of this report.

The following table shows the Net Revenue, Expenditure and Deficit or Surplus, as the case may be, of the Post Office for each Fiscal Year since Confederation.

Fiscal Year.	Net Revenue.	Expenditure.	Deficit.	Surplus.

MONEY ORDER TRANSACTIONS.

The number of money order offices in operation on March 31, 1919, was 4,953, an increase of 23 over the previous year.

The total number of orders issued during the year was 9,100,707, as against 9,919,665 for the previous year. The aggregate value was $142,375,808.77, as against $142,959,167.54 for the previous year.

7,460,398 of the orders issued during the year with a value of $116,646,095.69 were payable in the Dominion of Canada.

1,640,309, with a value of $25,729,713.08, were payable abroad.

The number of orders issued abroad and payable in Canada was 649,283, with an aggregate value of $10,351,020.88.

The number of orders issued in Canada on the United States was 898,860, and the value $14,506,681.14.

The number of orders issued in the United States on Canada was 539,355, and the value $8,217,578.47.

The following statement shows the number and value of Canadian money orders and postal notes paid in the United States:—

	Number Year 1918.	Amount Year 1918.	Number Year 1919.	Amount Year 1919.
		$ cts.		$ cts.
Money Orders	1,670,935	15,741,314 28	898,860	14,506,681 14
Postal Notes	594,480	1,090,613 90	592,338	1,010,383 95
	1,665,415	16,831,928 18	1,491,198	15,517,065 09

The average value of money orders issued during the year was $15.64, and the average commission received from the public was 11,777 cents.

The total receipts from all sources amounted to $1,116,184.29, and the total expenditure, including the salaries of the inside service at Ottawa, to $886,351.78, leaving an excess of receipts over expenditure of $229,832.51.

The following statement shows the receipts and expenditure for the year ended March 31, 1919:—

SESSIONAL PAPER No. 24

POST OFFICE SAVINGS BANK.

The aggregate-balance to the credit of depositors on March 31, 1919, was $41,654,960.26, an increase during the year of $371,481.42. The average to the credit of each depositor was $357.43 as compared with $328.34 on March 31, 1918.

The new accounts opened during the year were 18,061, and 27,255 accounts were closed, leaving the number open at the close of the year 116,541, or a decrease of 9,194.

The deposits were 141,627 in number, with a total amount of $12,593,190.06 The average amount of each deposit was $88.92 as compared with $72.38 for the previous year.

Repayments numbered 64,390 and amounted to $13,604,410.70, the average withdrawal being $211.30 as compared with $184.35 in the preceding fiscal year.

Transfers from the Post Office Savings Bank of the United Kingdom (included in deposits) were 525 and amounted to $165,255.17. Deposits transferred to the United Kingdom (included in repayments) numbered 39 and amounted to $11,406.65.

Balances numbering 529, amounting to $174,143.30 at Shelburne, N.S., were transferred to the Post Office Savings Bank from the Dominion Government Savings Bank of the Finance Department.

The interest paid to depositors during the year was $119,831.40 and the interest accrued and made principal was $1,085,727.36, making a total of $1,208,558.76.

The number of offices authorized to transact business increased from 1,318 to 1,328.

Claims to moneys of deceased depositors examined into and finally disposed of numbered 1,223.

Annexed is a tabular statement of the annual operations of the Post Office Savings Bank since its organization in April, 1868.

STATEMENT (in accordance with the Revised Statutes of Canada, 1906, chapter 30, section 16) of the Post Office Savings Bank transactions for the year ended March 31, 1919, and of the total amount due to depositors on that date.

RAILWAY MAIL SERVICE.

STATEMENT showing total salaries of Superintendents, Railway Mail Clerks, Transfer Agents, etc., also the mileage paid Railway Mail Clerks for fiscal year 1918-19, as compared with the amounts paid during the preceding fiscal year, 1917-18.

Year.	Salaries.	Increase.	Mileage.	Decrease.
	$ cts.	$ cts.	$ cts.	$ cts.
1917-18	1,756,925 41		372,305 61	
1918-19	1,777,512 85	20,587 44	345,614 52	26,691 09

During the fiscal year 1918-19, 162·5 miles of additional railway were utilized for mail purposes, making a total actual track mileage over which mail was carried on March 31, 1919, of 35,383·97.

The following statement shows the details of such additional service:—

Railway.	Terminals.	Distance in miles.	Service.
Canadian National	Cross Creek to Stanley	6·	Dy. ex. Sunday B.C.
" "	Eston to Glidden	19·7	Tri-weekly R.P.O.
" "	Lucerne to Swift Creek	51·	Tri-weekly B.C.
" "	Sangudo to End of Steel	2·	Semi-weekly B.C.
Canadian Pacific	Fort Steel to Cranbrook	51·	Semi-weekly B.C.
Grand Trunk Pacific	Red Pheasant to Battleford	24·8	Semi-weekly B.C.
Quebec & Saguenay	St. Joachim de Montmorency to Baie St. Paul	32·	Tri-weekly B.C.
		186·5	
London & Lake Erie Transportation Co	London to Port Stanley	24·	9 trips daily ex. Sundays. Discontinued (Line closed).
		162·5	

CHANGES IN EXISTING SERVICES.

During the year there have been established the following changes and increases in the frequency of railway mail service:—

Railway.	Terminals.	Distance in Miles.	Particulars.
Canadian National	Blackville to Doaktown	24.	B.C. service dy. ex. Sundays.
Canadian National	Dalhousy to Warman	8.6	Tri-weekly B.C. service.
Canadian National	Deseronto to Napanee	6.	B.C. Service dy. ex Sunday.
Canadian National	Sudbury to Capreol	19.5	Tri-weekly B.C. service.
Canadian Pacific	Calgary to Lethbridge	128.	Additional B.C. service dy. ex. Sunday
Canadian Pacific	McLeod to Lethbridge	31.6	Dy. ex. Sunday, R.P.O. service superseded by B.C.
Canadian Pacific	Regina to Colonsay	133.9	B.C. service superseded by R.P.O.
Canadian Pacific	Swift Current to Empress	117.8	Tri-weekly B.C. service superseded by R.P.O.
Halifax South Western	Bridgewater to Mahone Jct.	11	Additional B.C. service dy. ex. Sunday.
Toronto & York Radial	Schomberg Jc. to Aurora	4	Additional B.C. service dy. ex. Sunday.

POSTAGE STAMP BRANCH.

The postage stamp issue during the fiscal year 1918-19 shows a substantial increase over the issue of the previous fiscal year. The following figures are submitted.

Issue fiscal year 1918-19..	$24,511,873 03
" " 1917-18..	24,171,170 03
Increase..	$ 340,703 00

During the fiscal year 1918-19 the one and two-cent war tax stamps previously issued by the Department were discontinued, the law permitting the use of ordinary postage stamps for all war tax purposes. The use of the combined postage and war tax stamp of a value of three cents (1 T.c.) was also discontinued, being replaced by a three-cent stamp, forming part of the regular series. The new stamp is also issued in sidewise rolls. No other incidents of special interest occurred during the year.

It is gratifying to observe that the total issue at the close of the year—31st March, 1919—almost reached $25,000,000.00.

*Cash payments were also made through the Accountant direct and not included in the above expenditure, to the Inland Revenue Department for Inspection of Scales, amounting to $1,434.05.

SUMMARY.

The above shows a gross increase in the expenditure for 1918-19 over previous year of		$66,669 02
Deducted from this amount should be moneys received for the sale of equipment in excess of previous year amounting to		12,350 19
which would result in a net increase of		$54,318 83
The above increase is accountable chiefly to the purchase of new equipment not obtained previous year, i.e.,		
Fleet of Motor Trucks	$14,586 75	
Parcel Post Scales	9,812 80	
Small Sacks for Periodicals	13,524 44	
		$37,923 99
leaving a small balance chargeable to the growth of the Service and increased cost of production and raw materials, amounting to		16,394 84
		$54,318 83

Consideration should be given to the moneys paid to other Departments in excess of previous year, $14,951.95, and the excess in the value of stock for 1918-19 as against the previous year, i.e., $14,245.85.

GOVERNMENT ANNUITIES BRANCH.

During the fiscal year ending March 31, 1919, 52 Immediate Annuities and 94 Deferred Annuities, a total of 146 were purchased, aggregating in amount of annuities contracted for $43,761.92. The amount of purchase money received during the same period was $325,364.46.

The number of Annuities in force on March 31, 1919, was as follows: Immediate, 905; Deferred, 3,491, a total of 4,396, aggregating in amount of Annuities contracted for $1,000,088.56. The amount received on account of the purchase of Annuities from September 1, 1908, to March 31, 1919, exclusive of amounts returned to purchasers, was $3,971,626.44.

GOVERNMENT Annuities Fund Statement, March 31, 1919.

ASSETS.

Fund on March 31, 1918	$3,336,006 26	
Receipts, 1918-1919, less payments	263,335 18
